18 Minutes Peter Bregman,2011-09-28 Based upon his weekly Harvard Business Review columns (which is one of the most popular columns on

HBR.com, receiving hundreds of thousands of unique page views a month), 18 MINUTES clearly shows how busy people can cut through all the daily clutter and distractions and find a way to focus on those key items which are truly the top priorities in our lives. Bregman works from the premise that the best way to combat constant and distracting interruptions is to create productive distractions of one's own. Based upon a series of short bite-sized chapters, his approach allows us to safely navigate through the constant chatter of emails, text messages, phone calls, and endless meetings that prevent us from focusing our time on those things that are truly important to us. Mixing first-person insights along with unique case studies, Bregman sprinkles his charming book with pathways which help guide us -- pathways that can get us on the right trail in 18 minutes or less.

Democratizing Innovation Eric Von Hippel, 2006-02-17 The process of user-centered innovation: how it can benefit both users and manufacturers and how its emergence will bring changes in business models and in public policy. Innovation is rapidly becoming democratized. Users, aided by improvements in computer and communications technology, increasingly can develop their own new products and services. These innovating users—both individuals and firms—often freely share their innovations with others, creating user-innovation communities and a rich intellectual commons. In *Democratizing Innovation*, Eric von Hippel looks closely at this emerging system of user-centered innovation. He explains why and when users find it profitable to develop new products and services for themselves, and why it often pays users to reveal their innovations freely for the use of all. The trend toward democratized innovation can be seen in software and information products—most notably in the free and open-source software movement—but also in physical products. Von Hippel's many examples of user innovation in action range from surgical equipment to surfboards to software security features. He shows that product and service development is concentrated among lead users, who are ahead on marketplace trends and whose innovations are often commercially attractive. Von Hippel argues that manufacturers should redesign their innovation processes and that they should systematically seek out innovations developed by users. He points to businesses—the custom semiconductor industry is one example—that have learned to assist user-innovators by providing them with toolkits for developing new products. User innovation has a positive impact on social welfare, and von Hippel proposes that government policies, including R&D subsidies and tax credits, should be realigned to eliminate biases against it. The goal of a democratized user-centered innovation system, says von Hippel, is well worth striving for. An electronic version of this book is available under a Creative Commons license.

The Living Church , 1995

Look for Me in the Whirlwind Sekou Odinga, Dhoruba Bin Wahad, Jamal Joseph, 2017-08-15 Amid music festivals and moon landings, the tumultuous year of 1969 included an infamous case in the annals of criminal justice and Black liberation: the New York City Black Panther 21. Though some among the group had hardly even met one another, the 21 were rounded up by the FBI and New York Police Department in an attempt to disrupt and destroy the organization that was attracting young people around the world. Involving charges of conspiracy to commit violent acts, the Panther 21 trial—the longest and most expensive in New York history—revealed the illegal government activities which led to exile, imprisonment on false charges, and assassination of Black liberation leaders. Solidarity for the 21 also extended well beyond “movement” circles and included mainstream publication of their collective autobiography, *Look for Me in the Whirlwind*, which is reprinted here for the first time. *Look for Me in the Whirlwind: From the Panther 21 to 21st-Century Revolutions* contains the entire original manuscript, and includes new commentary from surviving members of the 21: Sekou Odinga, Dhoruba Bin Wahad, Jamal Joseph, and Shaba Om. Still-imprisoned Sundiata Acoli, Imam Jamil Al-Amin, and Mumia Abu-Jamal contribute new essays. Never or rarely seen poetry and prose from Afeni Shakur, Kuwasi Balagoon, Ali Bey Hassan, and Michael “Cetewayo” Tabor is included. Early Panther leader and jazz master Bilal Sunni-Ali adds a historical essay and lyrics from his composition “Look for Me in the Whirlwind,” and coeditors kioni-sadiki,

Meyer, and Panther rank-and-file member Cyril “Bullwhip” Innis Jr. help bring the story up to date. At a moment when the Movement for Black Lives recites the affirmation that “it is our duty to win,” penned by Black Liberation Army (BLA) militant Assata Shakur, those who made up the BLA and worked alongside of Assata are largely unknown. This book—with archival photos from David Fenton, Stephen Shames, and the private collections of the authors— provides essential parts of a hidden and missing-in-action history. Going well beyond the familiar and mythologized nostalgic Panther narrative, From the Panther 21 to 21st-Century Revolutions explains how and why the Panther legacy is still relevant and vital today.
