The Time Machine illustrated H. G. Wells, 2022-06-22

The Time Machine by H. G. Wells is a science fiction classic, which lends itself well to visualization. This version, illustrated by Yoann Laurent-Rouault, an illustrator master who graduated from the Beaux-Arts, and published in the international literary collection Memoria Books, is a reference on the time travel theme. Wells transports us in the year 802 701, in a society made up of the “Elois”, who live peacefully in a kind of big Garden of Eden, eating fruits and sleeping high up, while underground lives another species, also descending from men, the “Morlocks”, who do not stand the light anymore, living in the dark for too long now. At night, they return to the surface, going back up by the wells, in order to kidnap some Elois that they eat ; these last became livestock unknowingly. In The Time Machine, made into a movie several times, the last of them in 2002 by Simon Wells, the great-grandson of H. G. Wells, time is both a pretext to move the class struggle and warn... and also, in a way, a full character, who fascinates, arbitrates, transcends... The illustrations come to reinforce the time travel and provide a new experience to the reader.

Alice in Rapture, Sort Of Phyllis Reynolds Naylor,2012-05-15 According to Pamela's cousin in New Jersey, the worst thing that can happen to a girl is to start seventh grade without a boyfriend. So Alice is glad that she and Patrick are going together. But Patrick the boyfriend is a lot more complicated than Patrick the friend. What's an appropriate gift for Alice to give him for his birthday? What should she do if he wants to kiss her and she hasn't just brushed her teeth? Alice really likes Patrick, but sometimes it seems as though life would be a lot simpler if they were still just friends.

Born a Crime Trevor Noah, 2016-11-15 #1 NEW YORK TIMES
BESTSELLER • More than one million copies sold! A “brilliant”
(Lupita Nyong’o, Time), “poignant” (Entertainment Weekly), “soul-
nourishing” (USA Today) memoir about coming of age during the
twilight of apartheid “Noah’s childhood stories are told with all the
hilarity and intellect that characterizes his comedy, while
illuminating a dark and brutal period in South Africa’s history that
must never be forgotten.”—Esquire Winner of the Thurber Prize for
American Humor and an NAACP Image Award • Named one of
the best books of the year by The New York Time, USA Today,
San Francisco Chronicle, NPR, Esquire, Newsday, and Booklist
Trevor Noah’s unlikely path from apartheid South Africa to the desk
of The Daily Show began with a criminal act: his birth. Trevor was
born to a white Swiss father and a black Xhosa mother at a time
when such a union was punishable by five years in prison. Living
proof of his parents’ indiscretion, Trevor was kept mostly indoors
for the earliest years of his life, bound by the extreme and often
absurd measures his mother took to hide him from a government
that could, at any moment, steal him away. Finally liberated by the
end of South Africa’s tyrannical white rule, Trevor and his mother
set forth on a grand adventure, living openly and freely and

embracing the opportunities won by a centuries-long struggle. Born a Crime is the story of a mischievous young boy who grows into a restless young man as he struggles to find himself in a world where he was never supposed to exist. It is also the story of that young man's relationship with his fearless, rebellious, and fervently religious mother—his teammate, a woman determined to save her son from the cycle of poverty, violence, and abuse that would ultimately threaten her own life. The stories collected here are by turns hilarious, dramatic, and deeply affecting. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Trevor illuminates his curious world with an incisive wit and unflinching honesty. His stories weave together to form a moving and searingly funny portrait of a boy making his way through a damaged world in a dangerous time, armed only with a keen sense of humor and a mother's unconventional, unconditional love.

A Shiloh Christmas Phyllis Reynolds Naylor, 2016-09-20 Marty and his best friend, Shiloh are on another adventure. Marty learns when a secret is too dangerous to keep, and that hate can spread like fire--

Work James Suzman, 2022-01-18 This book is a tour de force. --Adam Grant, New York Times bestselling author of Give and Take A revolutionary new history of humankind through the prism of work by leading anthropologist James Suzman *Work* defines who we are. It determines our status, and dictates how, where, and with whom we spend most of our time. It mediates our self-worth and molds our values. But are we hard-wired to work as hard as we do? Did our Stone Age ancestors also live to work and work to live? And what might a world where work plays a far less important role look like? To answer these questions, James Suzman charts a grand history of work from the origins of life on Earth to our ever more automated present, challenging some of our deepest assumptions about who we are. Drawing insights from anthropology, archaeology, evolutionary biology, zoology, physics, and economics, he shows that while we have evolved to find joy, meaning and purpose in work, for most of human history our ancestors worked far less and thought very differently about work

than we do now. He demonstrates how our contemporary culture of work has its roots in the agricultural revolution ten thousand years ago. Our sense of what it is to be human was transformed by the transition from foraging to food production, and, later, our migration to cities. Since then, our relationships with one another and with our environments, and even our sense of the passage of time, have not been the same. Arguing that we are in the midst of a similarly transformative point in history, Suzman shows how automation might revolutionize our relationship with work and in doing so usher in a more sustainable and equitable future for our world and ourselves.
