The Power Behind Your Eyes Robert-Michael Kaplan, 1995-10-01 Good vision is more than the ability to see 20/20 on an eye chart. Any vision problem is a message alerting us to an unbalanced inner state. Eyeglasses, medications, and surgery may correct poor vision but they cannot correct this inner imbalance. In *The Power Behind Your Eyes*, Robert-Michael Kaplan presents Integrated Vision Therapy a comprehensive daily program that can actually improve as well as treat the inner causes of poor vision. More comprehensive than other vision care techniques, Integrated Vision Therapy takes a holistic approach to identifying the causes of vision problems and developing noninvasive, natural strategies for treatment, including clear, easy-to-follow exercises, diets, and changes in daily habits.

Instant Eyesight The INSTANT-Series, 2015-07-31 The Instant-Series Presents Instant Eyesight How to Improve Eyesight Instantly! The gift of sight is not one to be taken for granted, as well as the care for it shouldn't be taken so lightly. Our eyesight is our most invaluable dependable tool we use every day, working for us every second we are awake. Can you imagine living without your vision? Scary, huh? In our modern world, with the ever-growing surge of new technologies and hand-held devices, we are spending far more times behind the screen on our computer, smartphone, and good old television damaging our eyes. The rise of visual impairments, causing the increased need for vision correction eyewear, is staggering, and it's only going to get worse with the common indoor sedentary jobs and lifestyles nowadays...no longer spending enough time outdoor in nature with natural sightings for our eyes as we used to. Thus, taking care of our eyes has never been more crucial than ever. Truth be told, eyewear helps us see better, but they don't improve our eyesight - our natural-born eyesight - but instead become crutches we depend on. Without them, we simply and plainly can't see, making life difficult and even unlivable. Now what if you could toss your glasses or contact lenses aside, while improving and strengthening your natural eyesight? How? Within *Instant Eyesight*: * How to develop sharper vision by doing effective eye pushups. * How to see farther by using the zooming in and out technique like a camera. * How to enhance visual focus by strengthening connection with eye and brain. * How to train your eye muscles by doing different eye exercises to improve vision. * How to maintain everyday healthy eyes by picking up simple habits. * Plus, custom practical how-to strategies, techniques, applications and exercises to make your eyesight better. ...and much more. The aim is to stop relying on artificial eyesight through eyewear, but gain back natural eyesight through your natural eyes. Condition your eyes to see naturally and clearly again, without glasses, contact lenses, or expensive laser eye surgery.

Vision for Life Meir Schneider, Ph.D., 2012-10-02 In *Vision for Life*, natural health pioneer Meir Schneider shares ten essential principles of healthy vision discovered in his forty-year personal and professional journey. Born almost blind, Schneider taught himself to see and developed an innovative program of healing and recovery that has helped thousands of people regain and improve their health. *Vision for Life* is packed with exercises for a natural eye health routine, which you can immediately incorporate into your life.* This program is not only

strengthening but also restorative and deeply relaxing. You will learn how to reverse developing issues before they cause damage and how to remedy existing problems including near- and far-sightedness and lazy eye as well as cataracts, glaucoma, optic neuritis, detached retinas and tears, macular degeneration, and retinitis pigmentosa. Vision for Life is not only for people who see poorly and would like to improve their vision, but also for those with 20/20 vision who wish to maintain their perfect eyesight as they grow older. Clients of the Meir Schneider Self-Healing Method experience their own capacity to bring about recovery, reversing the progress of a wide range of degenerative conditions such as arthritis and muscular dystrophy as well as eye disease. Based in part on the established Bates Method of eyesight improvement and in part on his own professional and personal discoveries, Meir Schneider's pioneering approach has helped thousands of people successfully treat a host of eye problems, including nearsightedness, farsightedness, astigmatism, lazy eye, double vision, glaucoma, cataracts, macular degeneration, retinal detachment, retinitis pigmentosa, and nystagmus. Born blind to deaf parents, Schneider underwent a series of painful operations as a young child and was left with ninety-nine percent scar tissue on his eyes, resulting in his being declared incurably blind. At the age of seventeen, he discovered how to improve his vision from one percent to fifty-five percent of normal vision with the eye exercises presented in this book. Today Schneider drives a car, reads, and proves time and again that vision can and does improve with exercise. His contributions to the field of self-healing are recognized by alternative health practitioners and medical doctors alike. *Eye-chart posters to use together with the book can be ordered from the School for Self Healing in San Francisco (visit <https://store.self-healing.org/> or email officemanager@self-healing.org).

Perfect Sight Without Glasses William Horatio Bates, 2022-05-29 According to this book, patients with eye conditions like unclear close and distant vision, astigmatism, crossed/wandering eyes, cataracts, and glaucoma can relieve their symptoms by performing some physical practices or eye gymnastics. The methods presented here are safe and can be used by children. The practices are based on the principle of multiple repetitive relaxations of eye muscles, which we don't have a habit of practicing on a daily basis. This historical book is especially interesting today when sight issues have become a common problem, and the burden on our eyes has increased tenfold.

Vision for Life, Revised Edition Meir Schneider, Ph.D., 2016-05-03 All parts of the body need exercise for optimal health, and the eyes are no different. Vision for Life presents an approach to eye health for people with 20/20 vision who wish to maintain their perfect vision as well as people who see poorly and would like to improve their eyesight. Clients of the Meir Schneider Self-Healing Method experience their own capacity to bring about recovery, reversing the progress of a wide range of degenerative conditions including eye disease. Based in part on the established Bates Method of eyesight improvement and in part on his own professional and personal discoveries, Meir Schneider's pioneering approach has helped thousands of people successfully treat a host of eye problems, including near- and farsightedness, astigmatism, lazy eye, double vision, glaucoma, cataracts, macular degeneration, retinal detachment, retinitis pigmentosa, and nystagmus. This revised edition includes a new chapter on children's eye health and new research and exercises for specific conditions, i.e., glaucoma and nystagmus, near- and farsightedness. Born blind to deaf parents, Schneider underwent a series of painful operations as a young child and was left with 99 percent scar tissue on the lenses of his eyes, resulting in his being declared incurably blind. At the age of seventeen, he discovered how to improve his vision from less than 1 percent to 55 percent of normal vision with the eye exercises presented in this book. Today Schneider drives a car, reads, and enjoys the benefits of full natural vision. He and his clients prove time and time again how much vision can improve with exercise. His contributions to the field of self-healing are recognized by alternative health practitioners and medical doctors alike. In Vision for Life, Schneider shares forty years of discoveries made on his personal and professional journey. The book details simple but effective techniques to gain great vision such as sunning and palming. Such exercises are not only strengthening but also restorative and deeply relaxing. The reader learns how to reverse developing issues before they cause damage or to remedy existing problems, including pathologies such as glaucoma, cataracts, macular degeneration, retinal detachment, and optic nerve neuropathy. From the Trade Paperback edition.

The Bates Method for Better Eyesight Without Glasses William H. Bates, 2011-04-01 Better Eyesight Without Glasses is not only the definitive source for the classic Bates Method, it is in itself a remarkable phenomenon. Dr. William H. Bates's revolutionary and entirely commonsensical theory of self-taught improved eyesight has helped hundreds of thousands of people to triumph over normal defects of vision without the mechanical aid of eyeglasses. If you think that your eyesight could be made better by natural methods, you are right. After years of experimentation, Dr. Bates came to the conclusion that many people who wore glasses did not need them. He gradually and carefully developed a simple group of exercises for improving the ability of the eyes themselves to see, eliminating the tension caused by poor visual habits that are the major cause of bad eyesight. These exercises are based on the firm belief that it is the natural function of the eyes to see clearly and that anyone, child or adult, can learn to see better without glasses.
