Reinforcement Learning, second edition Richard S. Sutton,Andrew G. Barto,2018-11-13 The significantly expanded and updated new edition of a widely used text on reinforcement learning, one of the most active

research areas in artificial intelligence. Reinforcement learning, one of the most active research areas in artificial intelligence, is a computational approach to learning whereby an agent tries to maximize the total amount of reward it receives while interacting with a complex, uncertain environment. In Reinforcement Learning, Richard Sutton and Andrew Barto provide a clear and simple account of the field's key ideas and algorithms. This second edition has been significantly expanded and updated, presenting new topics and updating coverage of other topics. Like the first edition, this second edition focuses on core online learning algorithms, with the more mathematical material set off in shaded boxes. Part I covers as much of reinforcement learning as possible without going beyond the tabular case for which exact solutions can be found. Many algorithms presented in this part are new to the second edition, including UCB, Expected Sarsa, and Double Learning. Part II extends these ideas to function approximation, with new sections on such topics as artificial neural networks and the Fourier basis, and offers expanded treatment of off-policy learning and policy-gradient methods. Part III has new chapters on reinforcement learning's relationships to psychology and neuroscience, as well as an updated case-studies chapter including AlphaGo and AlphaGo Zero, Atari game playing, and IBM Watson's wagering strategy. The final chapter discusses the future societal impacts of reinforcement learning.

Black Soldier, White Army William T. Bowers,William M. Hammond,George L. MacGarrigle,1997-05 The history of the 24th Infantry regiment in Korea is a difficult one, both for the veterans of the unit & for the Army. This book tells both what happened to the 24th Infantry, & why it happened. The Army must be aware of the corrosive effects of segregation & the racial prejudices that accompanied it. The consequences of the system crippled the trust & mutual confidence so necessary among the soldiers & leaders of combat units & weakened the bonds that held the 24th together, producing profound effects on the battlefield. Tables, maps & illustrations.
