**Production of Long Lived Parent Radionuclides for Generators, 68Ge, 82Sr, 90Sr and 188W.** International Atomic Energy Agency,2010 This book provides information on the production and processing of four important long lived parent radionuclides, 68Ge, 82Sr, 90Sr and 188W, used for the preparation of generators for nuclear medicine applications such as positron emission tomography and therapy. It includes descriptions of the production routes for and process chemistry of the selected parent radionuclides, including relevant separation approaches. Information on use of the generator system and on physical and chemical characteristics is also provided.

**Taking Your Talent to the Web** Jeffrey Zeldman,2001 This is an explicit and detailed guide, an intelligent how-to book for professionals. It lays the groundwork and creates context by exploring essential concepts, defines terms that may be new or unfamiliar, and then moves forward with practical software techniques. All the while it is building on the existing knowledge and experience of its professional design audience. Taking Your Talent to the Web is based on the Populi Curriculum in Web Communications Design, developed by Jeffrey Zeldman in cooperation with Populi, Inc., (www.populi.com) and the Pratt Institute. The book's purpose is to guide traditional art directors and print designers as they expand their existing careers to include the new field of professional Web Design.

**Brian Eno** Eric Enno Tamm,1995-08-22 Musician, composer, producer: Brian Eno is unique in contemporary music. Best known in recent years for producing U2's sensational albums, Eno began his career as a synthesizer player for Roxy Music. He has since released many solo albums, both rock and ambient, written music for film and television soundtracks, and collaborated with David Bowie, David Byrne, Robert Fripp, and classical and experimental composers. His pioneering ambient sound has been enormously influential, and without him today's rock would have a decidedly different sound. Drawing on Eno's own words to examine his influences and ideas, this book—featuring a new afterword and an updated discography and bibliography—will long remain provocative and definitive.

**Hypermedia Publishing** Katie Blakstad-Cooke,1996 Written in a clear, non-technical style, this text includes step-by-step, worked examples, real-life case studies, quick reference tables for accurate, standards-based HTML programming. It focuses on good HTML techniques and good Web site planning.

**Cyclotron Produced Radionuclides** ,2009 Cyclotrons are used for preparation of a wide variety of radionuclides that find application in single photon emission computed tomography (SPECT) as well as in positron emission tomography (PET). This publication gives comprehensive guidelines for the planning and decision making processes and design and implementation of a cyclotron based radionuclide production facility. It will enable Member States to plan such facilities in a cost effective manner.

Cyclotron Produced Radionuclides International Atomic Energy Agency,2009 Application of radioisotopes has shown significant growth in the past decade, and a major factor contributing towards this growth is the availability of a large number of cyclotrons dedicated to the production of radioisotopes for medical applications. Although there are many articles in journals on cyclotrons and their use for radioisotope production, there is no single source of information for beginners on radioisotope production using cyclotrons. This publication attempts to address this deficiency. Its contains chapters on accelerator technology, theoretical considerations of nuclear reactions, the technology behind targetry, techniques on preparation of targets, irradiation of targets under high beam currents, target processing and target recovery.

**GUI Design** Shan ben tu shu,2015 As technology has rapidly advanced, so too has the way we use and interact with it. Gone are the days of flat black backgrounds dotted with blocky green text; now, users expect a massive range of colors, layouts, and fonts to be used to entertain and assist them in their daily lives. GUI Design assembles the best of recent graphic user interface for a collection that provides practical encouragement for those new to the world as well as inspiration for experienced designers. The book gathers Twitters Vine video creation app for Windows phones, the vulgar-yetamusing Authentic Weather app, an application designed to help tourists follow the physical and ideological path of the Iron Curtain, and more to showcase programs that balance information flow with user experiences and highlight the creativity, inspiration, and expressive techniques used in their design. The projects within demonstrate the increasingly significant role of user interfaces in both design and our everyday lives in the modern world.
