In Your Face Shari Graydon,2014-09-23 A lively, thought-provoking look at the power and pitfalls of the beauty industry hype. From fairy tales and Hollywood movies to magazine ads, reality TV and the Internet, we absorb the lesson early: being beautiful is the answer to our dreams. It's harder than ever for teens to tune out the endless media messages promoting unattainable ideals, yet at no time in history have they had more tools to change the message. With In Your Face, Shari Graydon encourages readers to think critically about the culture of beauty both past and present. Whether it's the different standards for guys versus girls, racial and size biases, the assumptions we have about models and celebrities, or the message that the right clothes, makeup, or surgical procedure can make you a better person, Graydon's unbiased look into the realities behind our ideals will help teens deconstruct the beauty industry hype. Fully rewritten and redesigned from the 2004 edition, In Your Face has been updated to reflect the heightened pressures of beauty in the digital era -- both good and bad -- to shape our self-image. The appealing magazine-style format, stylish illustrations, and conversational tone will draw readers into this empowering exploration of the complex subject of beauty. Praise for the first edition: Graydon will make readers laugh as well as think about the issues. -- Booklist, starred review This fabulously educational and informative book should be required reading for all teens. -- VOYA

But, these myths are more than patriarchal prison bars: they can be the gateway to freedom. About Face! Jeffrey Bruce,Sherry Suib Cohen,1984
Not Just a Pretty Face Stacy Malkan,2007-10-01 Lead in lipstick? 1,4 dioxane in baby soap? Coal tar in shampoo? How is this possible? Simple. The \$35 billion cosmetics industry is so powerful that they've kept themselves unregulated for decades. Not one cosmetic product has to be approved by the US Food and Drug Administration before hitting the market. Incredible? Consider this: The European Union has banned more than 1,100 chemicals from cosmetics. The United States has banned just 10. Only 11% of chemicals used in cosmetics in the US have been assessed for health and safety - leaving a staggering 89% with unknown or undisclosed effects. More than 70% of all personal care products may contain phthalates, which are linked to birth defects and infertility. Many baby soaps are contaminated with the cancer-causing chemical 1,4 dioxane. It's not just women who are affected by this chemists' brew. Shampoo, deodorant, face lotion and other products used daily by men, women and children contain hazardous chemicals that the industry claims are within acceptable limits. But there's nothing acceptable about daily multiple exposures to carcinogenic chemicals -- from products that are supposed to make us feel healthy and beautiful. *Not Just a Pretty Face* delves deeply into the dark side of the beauty industry, and looks to hopeful solutions for a healthier future. This scathing investigation peels away less-than-lovely layers to expose an industry in dire need of an extreme makeover. 15 percent of the purchase price of each book sold benefits the national Campaign for Safe Cosmetics, administered by the Breast Cancer Fund, through December 31, 2012.
