An American Spy Olen Steinhauer, 2013-10 Milo Weaver is unwillingly drawn into his bosses' plans for revenge against the Chinese agent who orchestrated the deaths of 33 tourists. Steinhauer, the best espionage writer in a generation, delivers a searing international thriller.

The Tourist Olen Steinhauer, 2009-03-03 In *The Tourist*, Olen Steinhauer—twice nominated for the Edgar Award—tackles an intricate story of betrayal and manipulation, loyalty and risk, in an utterly compelling novel that is both thoroughly modern and yet also reminiscent of the espionage genre's most touted luminaries. "Here's the best spy novel I've ever read that wasn't written by John le Carré." —Stephen King, *Entertainment Weekly* In Olen Steinhauer's explosive New York Times bestseller, Milo Weaver has tried to leave his old life of secrets and lies behind by giving up his job as a tourist for the CIA—an undercover agent with no home, no identity—and working a desk at the CIA's New York headquarters. But staying retired from the field becomes impossible when the arrest of a long-sought-after assassin sets off an investigation into one of Milo's oldest colleagues and friends. With new layers of intrigue being exposed in his old cases, he has no choice but to go back undercover and find out who's been pulling the strings once and for all. \*BONUS CONTENT: This edition of *The Tourist* includes a new introduction from the author and a discussion guide

**Corcoran Gallery of Art** Corcoran Gallery of Art, Sarah Cash, Emily Dana Shapiro, Jennifer Carson, 2011 This authoritative catalogue of the Corcoran Gallery of Art's renowned collection of pre-1945 American paintings will greatly enhance scholarly and public understanding of one of the finest and most important collections of historic American art in the world. Composed of more than 600 objects dating from 1740 to 1945.

**Coal Black Horse** Robert Olmstead, 2008-05-20 When Robey Childs's mother has a premonition about her husband, a soldier fighting in the Civil War, she does the unthinkable: she sends her only child to find his father on the battlefield and bring him home. At fourteen, wearing the coat his mother sewed to ensure his safety—blue on one side, gray on the other— Robey thinks he's off on a great adventure. But not far from home, his horse falters and he realizes the enormity of his task. It takes the gift of a powerful

and noble coal black horse to show him how to undertake the most important journey of his life: with boldness, bravery, and self-possession. Coal Black Horse joins the pantheon of great war novels—All Quiet on the Western Front, The Red Badge of Courage, The Naked and the Dead.

**Out of Darkness** Ashley Hope Pérez, 2015-09-01 A 2016 Michael L. Printz Honoree This is East Texas, and there's lines. Lines you cross, lines you don't cross. That clear? New London, Texas. 1937. Naomi Vargas and Wash Fuller know about the lines in East Texas as well as anyone. They know the signs that mark them. They know the people who enforce them. But sometimes the attraction between two people is so powerful it breaks through even the most entrenched color lines. And the consequences can be explosive. Ashley Hope Pérez takes the facts of the 1937 New London school explosion—the worst school disaster in American history—as a backdrop for a riveting novel about segregation, love, family, and the forces that destroy people.

**Pattern Jury Instructions**, 1997

Digital Dominance Martin Moore, Damian Tambini, 2018 Across the globe, Google, Amazon, Facebook, Apple and Microsoft have accumulated power in ways that existing regulatory and intellectual frameworks struggle to comprehend. A consensus is emerging that the power of these new digital monopolies is unprecedented, and that it has important implications for journalism, politics, and society. It is increasingly clear that democratic societies require new legal and conceptual tools if they are to adequately understand, and if necessary check the economic might of these companies. Equally, that we need to better comprehend the ability of such firms to control personal data and to shape the flow of news, information, and public opinion. In this volume, Martin Moore and Damian Tambini draw together the world's leading researchers to examine the digital dominance of technologies platforms and look at the evidence

behind the rising tide of criticism of the tech giants. In fifteen chapters, the authors examine the economic, political, and social impacts of Google, Amazon, Facebook, Apple, and Microsoft, in order to understand the different facets of their power and how it is manifested. Digital Dominance is the first interdisciplinary volume on this topic, contributing to a conversation which is critical to maintaining the health of democracies across the world.

**When Google Met Wikileaks** Julian Assange, 2016-10-11 In June 2011, Julian Assange received an unusual visitor: the chairman of Google, Eric Schmidt, arrived from America at Ellingham Hall, the country residence in Norfolk, England where Assange was living under house arrest. For several hours the besieged leader of the world's most famous insurgent publishing organization and the billionaire head of the world's largest information empire locked horns. The two men debated the political problems faced by society, and the technological solutions engendered by the global network--from the Arab Spring to Bitcoin. They outlined radically opposing perspectives: for Assange, the liberating power of the Internet is based on its freedom and statelessness. For Schmidt, emancipation is at one with US foreign policy objectives and is driven by connecting non-Western countries to American companies and markets. These differences embodied a tug-of-war over the Internet's future that

has only gathered force subsequently. When Google Met WikiLeaks presents the story of Assange and Schmidt's encounter. Both fascinating and alarming, it contains an edited transcript of their conversation and extensive, new material, written by Assange specifically for this book, providing the best available summary of his vision for the future of the Internet.

**A Networked Self** Zizi Papacharissi, 2010-09-10 A Networked Self examines self presentation and social connection in the digital age. This collection brings together new work on online social networks by leading scholars from a variety of disciplines. The focus of the volume rests on the construction of the self, and what happens to self-identity when it is presented through networks of social connections in new media environments. The volume is structured around the core themes of identity, community, and culture - the central themes of social network sites. Contributors address theory, research, and practical implications of many aspects of online social networks including self-presentation, behavioral norms, patterns and routines, social impact, privacy, class/gender/race divides, taste cultures online, uses of social networking sites within organizations, activism, civic engagement and political impact.

**Privacy as Trust** Ari Ezra Waldman, 2018-03-29 Proposes a new way of thinking about information privacy that leverages law to protect disclosures in contexts of trust.

*The Antitrust Paradox* Robert Bork, 2021-02-22 The most important book on antitrust ever written. It shows how antitrust suits adversely affect the consumer by encouraging a costly form of protection for inefficient and uncompetitive small businesses.

**Impostor** Susanne Winnacker, 2013-05-28 Tessa is a Variant, able to absorb the DNA of anyone she touches and mimic their appearance. Shunned by her family, she's spent the last two years training with the Forces with Extraordinary Abilities, a secret branch of the FBI. When a serial killer rocks a small town in Oregon, Tessa is given a mission: she must impersonate Madison,

a local teen, to find the killer before he strikes again. Tessa hates everything about being an impostor—he stress, the danger, the deceit—but loves playing the role of a normal girl. Disguised as Madison, she finds friends, romance, and the kind of loving family she'd do anything to keep. Amid action, suspense, and a ticking clock, this superhuman arrives at a very human conclusion: even a girl who can look like anyone struggles the most with being herself.

The Echo Chamber John Boyne, 2021-08-05 'His relish is infectious' Times 'The funniest book I've read in ages. Savage but compelling' Ian Rankin 'Funny, rumbustious, unstinting and wonderfully Hogarthian' The Observer 'Sharp, funny, and beautifully written... a brilliant reflection on the landscape we now live in' Joanna Cannon \_\_\_\_\_ What a thing of wonder a mobile phone is. Six ounces of metal, glass and plastic, fashioned into a sleek, shiny, precious object. At once, a gateway to other worlds - and a treacherous weapon in the hands of the unwary, the unwitting, the inept. The Cleverley family live a gilded life, little realising how precarious their privilege is, just one tweet away from disaster. George, the patriarch, is a stalwart of television interviewing, a 'national treasure' (his words), his wife Beverley, a celebrated novelist (although not as celebrated as she would like), and their children, Nelson, Elizabeth, Achilles, various degrees of catastrophe waiting to happen. Together they will go on a journey of discovery through the Hogarthian jungle of the modern living where past presumptions count for nothing and carefully curated reputations can be destroyed in an instant. Along the way they will learn how volatile, how outraged, how unforgiving the world can be when you step from the proscribed path. Powered by John Boyne's characteristic humour and razor-sharp observation, The Echo Chamber is a satiric helter skelter, a dizzying downward spiral of action and consequence, poised somewhere between farce, absurdity and oblivion. To err is maybe to be human but to really foul things up you only need a

phone. The new novel by John Boyne, *WATER*, is available for pre-order now.

Intelligent Decision Technologies Junzo Watada, Gloria Phillips-Wren, Lakhmi C. Jain, Robert J. Howlett, 2011-11-19

Intelligent Decision Technologies (IDT) seeks an interchange of research on intelligent systems and intelligent technologies which enhance or improve decision making in industry, government and academia. The focus is interdisciplinary in nature, and includes research on all aspects of intelligent decision technologies, from fundamental development to the applied system. This volume represents leading research from the Third KES International Symposium on Intelligent Decision Technologies (KES IDT'11), hosted and organized by the University of Piraeus, Greece, in conjunction with KES International. The symposium was concerned with theory, design, development, implementation, testing and evaluation of intelligent decision systems. Topics include decision making theory, intelligent agents, fuzzy logic, multi-agent systems, Bayesian networks, optimization, artificial neural networks, genetic algorithms, expert systems, decision support systems, geographic information systems, case-based reasoning, time series, knowledge management systems, rough sets, spatial decision analysis, and multi-criteria decision analysis. These technologies have the potential to revolutionize decision making in many areas of management, healthcare, international business, finance, accounting, marketing, military applications, ecommerce, network management, crisis response, building design, information retrieval, and disaster recovery for a better future.
