Protean Shape Susie I. Tucker,2014-01-13 The aim of this book is to let us see our language as a living and developing human activity in a period of history which offers special advantages for the purpose. Miss Tucker's method is to analyse in the course of a connected narrative a large, wide-ranging body of words and phrases from two principal points of view. In Part One, using as the basis of evidence and discussion a few representative critical journals, including those with which Johnson, Goldsmith, Smollett, and Burke were prominently associated, she asks how the eighteenth century looked at its own language: what, for example, it esteemed elegant or vulgar, held correct or a solecism, found new or old-fashioned, impressive or funny. In Part Two the emphasis shifts from the eighteenth century's views of itself to our views of the eighteenth century as we look back. Here the interest centres by contrast on our difficulties, our discoveries, and our conclusions and in the process our understanding of eighteenth century literature and manners is immeasurably sharpened.

The Notion of the A Priori Mikel Dufrenne,2009-02-26 Originally published in 1966, this pivotal work of Mikel Dufrenne revises Kant's notion of a priori, a concept previously given insufficient attention by philosophers, to realize a rich understanding that finally does justice to one of Kant's most troubling cruxes. Following the Husserlian analytics of phenomenology, Dufrenne postulates a dualistic conception of the a priori as a structure that expresses itself outside the human subject, but also as a virtual knowledge that points to a philosophy of immediate apprehension or feeling. A friend of Paul Ricoeur, with whom he was detained as a prisoner of war during World War II, Dufrenne's work until now has been sorely overlooked by American philosophers.

Discourse Perspectives on English Risto Hiltunen,Janne Skaffari,2003-01-01 Covering nearly one thousand years, this volume explores medieval and modern English texts from fresh perspectives. Within the relatively new field of historical discourse linguistics, the synchronic analysis of large textual units and consideration of text-external features in relation to discourse has so far received little attention. To fill that gap, this volume offers studies of medieval instructional and religious texts and correspondence from the early modern period. The contributions highlight writer-audience relationships, the intended use of texts, descriptions of text-type, and questions of orality and manuscript contextualization. The topics, ranging from the reception of Old English texts to the conventions of practical instruction in Middle English to the epistolary construction of science in early Modern English, are directly relevant to historical linguists, discourse and text linguists, and students of the history of English.

Christ and the Human Soul Rudolf Steiner,2023-07-05 10 Lectures in Copenhagen and Norrköping, May 23-30, 1912, July 12-16, 1914 (CW 155) Spiritual science does not want to replace Christianity; rather, it aims to be the instrument through which the meaning of Christianity can be grasped. And one thing that will become particularly clear through spiritual science is that the being whom we call Christ must be recognized as the center of life on earth, and that what we call the Christian faith is the ultimate religion, the eternal religion for the future of the earth. -- Rudolf Steiner (July 13, 1914) This collection of lectures from 1912 and 1914 offers a deepened understanding of the being of Christ, the divine Logos, in his connection with individual human souls. From religious figures such as John the Baptist and Saint Francis to the twentieth-century poet Christian Morgenstern, these lectures reveal how Christ works with and through all who seek him. The Pauline statement, Not I, but Christ in me, becomes an inner guide by which each human soul can find a way to intimate union with the Christ being. It is he who has the power to make our ideals and goals in life--if they are worthy--into true seeds of future reality. The time of faith has come and gone. Christ needs our conscious striving, our effort to understand, within the heart's deep core, his ongoing presence and activity in the further evolution of our spiritual Earth and in our journey toward humanness. These lectures are a comfort and a signpost for the soul to walk the inner path of communion with Christ for the healing and redemption of the earth. We may be able, in the end, to redeem the karma accrued by our own individual souls, but for our spiritual work to be fruitful for all humanity it must be brought into connection with Christ. What we take into ourselves in such a way that it is done from the perspective of 'Not I'--this is what Christ makes into a common possession for all humanity (July 14, 1914). To know Christ means to undergo the school of selflessness.... Under the influence of materialism, the selflessness of humanity was lost in a way, as will be understood in future ages of humanity. However, through absorption in the Mystery of Golgotha, the penetration of the knowledge of the Mystery of Golgotha with our whole feeling and soul being, we can once again acquire a culture of selflessness. We can come to understand that what Christ did for the development of the Earth is contained in the fundamental impulse of selflessness, and that what he can become for the conscious development of the human soul is the school of selflessness! -- Rudolf Steiner (June 1, 1914) To read these lectures is to strike out on the heart's path of fellowship with the living Christ. This book is a translation from German of Christus und die Menschliche Seele. Über den Sinn des Lebens - Theosophische Moral - Anthroposophie und Christentum (GA 155, 3rd ed.), Rudolf Steiner Verlag, Dornach, Switzerland, 1994. What is Theory? Hervé Corvellec,2013 There is no consensus in the social and cultural sciences on what theory is, and that is as it should be. A consensus would be outright dangerous for the diversity of intellectual life. The perspectives represented in this volume show that theory can be understood as plot, hope, beholding, doxa, heritage, a stalemate, disappointment, personal matter, or family concept. But, even if theory can be defined in many ways, it cannot be defined in any one way. Beyond disciplinary and epistemological differences, theory has the steadfast characteristic of being what academics work with. More than an epistemological matter, the book's title question is an entry into the dynamics of academic practice. The book consists of a multidisciplinary collection of essays that are tied together by a common effort to tell what theory is. These essays are also paired as dialogues between senior and junior researchers from the same, or allied, disciplines to add a trans-generational dimension to the book's multidisciplinary approach. What Is Theory? has been designed for upper division and graduate students in the social sciences and the humanities, but it will also be of interest to anyone who has felt that the question of what theory is can be more easily asked than answered. Contents include: Why Ask What Theory Is? * The History of the Concept of Theory * History of Ideas at the End of Western Dominance * Looking at Theory in Theory in Science * Theory Has No Big Others in Science and Technology Studies * What Social Science Theory Is and What It Is Not * Theory as Hope * Theory Crisis and the Necessity of Theory - The Dilemmas of Sociology * Theory as Disappointment * Theory - A Personal Matter * Theory - A Professional Matter * Economic Theory - A Critical Realist Perspective * For Theoretical Pluralism in Economic Theory * What Is Theory in Political Science? * For a New Vocabulary of Theory in Political Science * Theorizing the Earth * Spatial Theory as an Interdisciplinary Praxis. *** This highly original, lively and refreshing book is more than welcome: it is needed....the contributors' insights, passion and diversity fully restore the creative value of theorizing as a way to grasp, understand and more importantly shape the world. - Franck Cochoy, Professor of Sociology, U. of Toulouse

Parking Lot Birding Jennifer L. Bristol,2020-04-21 Texas boasts greater bird diversity than almost any state, with more than six hundred species

living in or passing through during spring and fall migrations. Jennifer L. Bristol’s Parking Lot Birding speaks to people who would love to observe a wide variety of birds in easy access locations that don’t require arduous hikes or a degree in ornithology. As she explains, “I have personally trudged down hundreds of miles of trails in Texas, loaded down with gear, searching for birds, only to return to the parking lot to find what I was looking for.” Drawing on her experience as a former park ranger and lifelong nature enthusiast, Bristol explores ninety birding locations that are open to the public and accessible regardless of ability or mobility. Divided by geography, with each of the nine sections centered on a large urban area or defined ecoregion, Parking Lot Birding: A Fun Guide to Discovering Birds in Texas will take readers to birds in locales from the busy heart of Dallas to the remote Muleshoe Wildlife Refuge in the plains north of Lubbock. Each birding stop includes the name and address of a specific birding location, number of species that have been recorded, and types of birding amenities offered. Locational accounts end with a “Feather Fact” that provides interesting and relevant details about selected birds in a particular region. You never know what you might see when on the beaten path, especially in a state as big and ecologically diverse as Texas. So grab your binoculars and let’s go birding!

Fats Waller on the Air Stephen Taylor,2006 Radio and television broadcasts are an essential component in the career of jazz musician Thomas Fats Waller. The medium suited his character well, allowing his friendly, energetic personality to shine through. This book meticulously documents Waller's on-air appearances: from his first known broadcast in 1923 at age 19 to the final airing before his premature death in 1943. *Fats Waller On The Air: The Radio Broadcasts and Discography* adds another dimension to the life of this dynamic performer. Author Stephen Taylor combines established material with fresh research, resulting in a wealth of new information. The broadcasts, including tributes to Waller after his death, are covered in detail, featuring dates, times, songs played, and other artists who appeared on the program. Through descriptions from contemporary newspapers and magazines, accounts from individuals who were in attendance, and remarks by radio announcers from original transcripts, the book provides historical perspective and a clear sense of the character and feel of the broadcasts. The book also offers a timechart of early sound recording and radio transcriptions, allowing easy comparison of Waller's presence in the field. Never before published photos and a thorough, accurate discography-including 78 and 45 rpm records, transcriptions, LPs, CDs, and DVDs-make this an important reference tool for fans of Fats Waller, jazz music, stride piano, black social history, and broadcast history.
