Recent Social Trends in Canada, 1960-2000 Lance W. Roberts,2005 Canadian society has changed dramatically since 1960. This work captures the scope and range of these changes through a systematic documentation of seventy-eight social trends. The introduction summarizes and locates the major waves of change. The authors then document each trend in relation to eighteen thematic groups that include age, community,

women, labour, management, stratification, social relations, the state, mobilizing institutions, social forces, ideologies, households, lifestyle, leisure, education, integration, and attitudes and values. In contrast to many recent works and journalistic reports, *Recent Social Trends in Canada* concentrates on the trajectory of change rather than on current events. It provides a longitudinal context in which unfolding events can be interpreted in a broader historical and international context. Comparable volumes in the McGill-Queen's Comparative Charting of Social Change series describe similar tendencies in the United States, Quebec, France, Germany, Italy, Greece, Russia, and Bulgaria, making it possible to situate the Canadian experience in a global context.

Recent Social Trends in Quebec, 1960-1990 Simon Langlois, Baillargeon, 1992-02-05 Readers will follow an intense period of social change in Quebec, during which there was a remarkable increase in the level of modernization. They will note a massive entry of women into the labour force and a growing service sector that now constitutes seventy percent of all economic activity. They will observe also that the Québécois have dramatically increased their television viewing and that, while they express a generally high level of satisfaction with life, the Québécois must contend with escalating crime and suicide rates.

CAD Geometry Data Exchange Using STEP Helmut J. Helpenstein, 2012-12-06 The Product Data Technology Advisory Group, short PDTAG, was established on 30 September 1992 under the auspices of the ESPRIT CIME Division of the Directorate General XIII of the European Commission. Its goals include promoting European cooperation and improving the European infrastructure in

Product Data Technology, particularly in connection with the new standard STEP (ISO 10303). The dissemination of information on Product Data Technology and on European contributions to STEP is of crucial importance to this development. The current volume is the first title in a new PDTAG subseries to Springer Publishers' Research Reports ESPRIT. This new subseries intends to form a comprehensive repository of publications on Product Data Technology resulting from ESPRIT Projects and from European contributions to standardisation based on ISO/STEP. PDTAG welcomes the opportunity to make this information more accessible under the format of a coherent subseries within the established framework of Research Reports ESPRIT. Much valuable background on the new international PDT standard can thus be found in the same collection.

La investigación cualitativa, sus aportes teóricos, metodológicos y prácticos Eli Malvaceda Espinoza, Juan Soto Ramírez, Nayib Carrasco Tapia, Edwin Alexander Hernández Zapata, Eric Arenas Sotelo, Liliana Bernal Vargas, Gonzalo del Moral Arroyo, Jorge Andrés Jiménez Rodas, Iván Flores Obregón, Ángela María Martínez Chaparro, Milton Danilo Morales Herrera, Adriana Moreno Carrasco, Nicole Oré Kovacs, Adriana Inés Pino Fernández Baca, Liliana Patricia Ramírez Ramírez, Israel Rivera Paucar, Cristian Suárez Relinque, Diana Marcela Toro Jiménez, Diana Vanessa Vivares Porras, 2024-01-25 La investigación científica se ha encontrado circunscrita a los parámetros de la investigación cuantitativa. Sin embargo, es claro que, frente a los paradigmas dominantes, otros se fueron consolidando y pusieron en evidencia las controversias paradigmáticas en relación con su naturaleza

axiomática. Actualmente, la investigación cualitativa ha desarrollado sólidas líneas de indagación relacionadas con enfoques dirigidos a puntos de vista subjetivos, descripción de la creación de situaciones sociales y análisis hermenéutico de las estructuras subyacentes. En cierto sentido, se fue definiendo un estándar sobre qué decía, cómo y con qué conceptos se debía conocer. A mediados del siglo xx, se fortaleció lo que podríamos denominar hoy la revolución cualitativa, la cual no solo ha dado frutos, sino que también se ha consolidado como un estilo que se ha nutrido de una ontología, de una epistemología y de una metodología particulares más allá de la conmensurabilidad. Con el ánimo de posicionar la investigación cualitativa en el centro del debate, la reflexión y el quehacer, la Asociación Peruana de Investigación Cualitativa (apic), fundada en el 2019, decidió organizar el Primer Seminario Internacional de Investigación Cualitativa; este seminario virtual contó con ponentes de Perú, México, Colombia, Argentina y España, así como con más de 1600 personas inscritas provenientes de quince países, básicamente, de América Latina. Este libro de investigación recoge en once capítulos algunos de esos trabajos presentados para este Seminario. Gracias a las gestiones realizadas por la Universidad Cooperativa de Colombia (ucc) y la Sociedad Mexicana de Psicología Social (Somepso), se construyó esta obra, con colaboración de investigadores de distintos países. Este manuscrito tiene el objetivo de dar a conocer un conjunto de trabajos que sirvan tanto de apoyo como inspiración a los investigadores en formación, a los jóvenes investigadores y a los investigadores consolidados, en el quehacer de la investigación cualitativa. En tal sentido, el libro se compone de capítulos metodológicos y empíricos. En los primeros se presentan aquellas reflexiones metodológicas propuestas por los autores y que pueden

servir de guía, inspiración y discusión para realizar una investigación cualitativa. Este apartado comprende teorizaciones inéditas preparadas para el seminario. En la segunda sección se presentan experiencias de investigación cualitativa que permiten reflejar el quehacer investigativo. Todos los trabajos que aquí se presentan son inéditos y fueron preparados específicamente para este libro.

Covenants Against Competition in Franchise

The CEPHID modelling project Robert E. Wright,1992 This project is a complex set of micro-simulation models and databases which allows users from a wide variety of disciplines to construct and evaluate forecasts and simulations concerned with the causes and consequences of Canada's aging population. Chapter 1 is a brief statement by three representatives of the major funding agencies of the project. Chapter 2 is an overview of the CEPHID project. Chapter 3 presents a series of projections of health status attributes of the elderly. Chapter 4 describes the FADEP model, which is a major component of the CEPHID project. In Chapter 5, CEPHID is used to project the future needs for informal care amongst the elderly. Chapter 6 shows how CEPHID can be used to examine a tightly defined problem. Finally, Chapters 7 and 8 looks at methods of micro-simulation as models to study a variety of substantive issues.
