Albert A Gayle

Power-Up Matthew Lane, 2019-11-19 Did you know that every time you pick up the controller to your PlayStation or Xbox, you are entering a game world steeped in mathematics? *Power-Up* reveals the hidden mathematics in many of today's most popular video games and explains why mathematical learning doesn't just happen in the classroom or from books--you're doing it without even realizing it when you play games on your cell phone. In this lively and entertaining book, Matthew Lane discusses how gamers are engaging with the traveling salesman problem when they play *Assassin's Creed*, why it is mathematically impossible for Mario to jump through the Mushroom Kingdom in *Super Mario Bros.*, and how *The Sims* teaches us the mathematical costs of maintaining relationships. He looks at mathematical pursuit problems in classic games like *Missile Command* and *Ms. Pac-Man*, and how each time you play *Tetris*, you're grappling with one of the most famous unsolved problems in all of mathematics and computer science. Along the way, Lane discusses why *Family Feud* and *Pictionary* make for ho-hum video games, how realism in video games (or the lack of it) influences learning, what video games can teach us about the mathematics of voting, the mathematics of designing video games, and much more. *Power-Up* shows how the world of video games is an unexpectedly rich medium for learning about the beautiful mathematical ideas that touch all aspects of our lives--including our virtual ones.--Dust jacket.

This Day in Game Show History- 365

Commemorations and Celebrations, Vol. 3: July

Through September Adam Nedeff, Game shows have more stories to tell than they have washers and dryers to give away. This Day in Game Show History is a remarkable four-volume set chronicling the best stories—on camera and off—and the most noteworthy milestones for every day in the year. In this volume, you'll find out which game show had a set so elaborate that it used four miles of electric wires...the game show host who was so nervous on his first day that he went thirty minutes without blinking...the game show Lucille Ball loved so much that she always kept a copy of the home game in her dressing room...the true identity of “The Walking Man” on Truth or Consequences...which Seinfeld cast member was implicated in the 1950s quiz show scandals...and lots, lots more!

Nickelodeon ,1910

Family Feud Barbara Boswell,2012-07-16 Mr. September Name: Garrett McGrath Game: F-U-N! Flame: Headstrong Shelby Halford Aim: To get Shelby from the boardroom to the bedroom! I've got three beliefs: 1. You want what you can't have; 2. Business and pleasure should always mix; 3. No challenge is too great. And showing Miss Haughty Halford how much fun work can be is the perfect way to put my policies into action. I know she thinks her blue blood can't mix with my blue-collar background. But give me a few weeks alone with Her Royal Highness in this steamy tropical paradise, and I'll teach Shelby all about mergers and acquisitions...of the most intimate kind!

The Cambridge History of Ireland: Volume 1, 600-1550

Brendan Smith,2018-03-31 The thousand years explored in this book witnessed developments in the history of Ireland that resonate to this day. Interspersing narrative with detailed analysis of key themes, the first volume in The Cambridge History of Ireland presents the latest thinking on key aspects of the medieval Irish experience. The contributors are leading experts in their fields, and present

their original interpretations in a fresh and accessible manner. New perspectives are offered on the politics, artistic culture, religious beliefs and practices, social organisation and economic activity that prevailed on the island in these centuries. At each turn the question is asked: to what extent were these developments unique to Ireland? The openness of Ireland to outside influences, and its capacity to influence the world beyond its shores, are recurring themes. Underpinning the book is a comparative, outward-looking approach that sees Ireland as an integral but exceptional component of medieval Christian Europe.
