**Reality Is Broken** Jane McGonigal,2011-01-20 “McGonigal is a clear, methodical writer, and her ideas are well argued. Assertions are backed by countless psychological studies.” —The Boston Globe “Powerful and provocative . . . McGonigal makes a persuasive case that games have a lot to teach us about how to make our lives, and the world, better.” —San Jose Mercury News “Jane McGonigal's insights have the elegant, compact, deadly simplicity of plutonium, and the same explosive force.” —Cory Doctorow, author of Little Brother A visionary game designer reveals how we can harness the power of games to boost global happiness. With 174 million gamers in the United States alone, we now live in a world where every generation will be a gamer generation. But why, Jane McGonigal asks, should games be used for escapist entertainment alone? In this groundbreaking book, she shows how we can leverage the power of games to fix what is wrong with the real world-from social problems like depression and obesity to global issues like poverty and climate change-and introduces us to cutting-edge games that are already changing the business, education, and nonprofit worlds. Written for gamers and non-gamers alike, Reality Is Broken shows that the future will belong to those who can understand, design, and play games. Jane McGonigal is also the author of SuperBetter: A Revolutionary Approach to Getting Stronger, Happier, Braver and More Resilient.

Alan Wolfe argues that modern liberal democracies, such as the United States and Scandinavia, have broken with traditional sources of mortality and instead have relied upon economic and political frameworks to define their obligations to one another. Wolfe calls for reinvigorating a sense of community and thus a sense of obligation to the larger society. *The Postcolonial Aura* Arif Dirlik,2018-02-20 The essays in this volume range from questions of cultural self-representation in China to more general problems of reconceptualizing global relationships in response to contemporary changes. Although the new era of global capitalism calls for the remapping of global relations, such remapping must be informed both by a grasp of contemporary structures of economic, political, and cultural power and by memories of earlier radical visions of society. Without these two conditions, Arif Dirlik argues, the current preoccupation with Eurocentrism, ethnic diversity, and multiculturalism distract from issues of power that dominate global relations and that find expression in murderous ethnic conflicts. Dirlik offers multi-historicalism, which presupposes a historically grounded conception of cultural difference, seeks in different histories alternative visions of human society, and stresses divergent historical trajectories against a future colonized presently by an ideology of capital. Arguing that the operations of capital have brought the question of the local to the fore, he points to indigenism as a source of paradigms of social relations, and relationships to nature, to challenge the voracious developmentalism that undermines local welfare globally.
