Communicating Fashion Myles Ethan

Lascity, 2021-03-25 Winner of the John G. Cawelti Award for Best Textbook / Primer How did you decide what to wear today? Did you base your selection on comfort or style? Did you want to blend in or stand out - or was it just the cleanest outfit available? We each make these decisions every day, reflecting how we view ourselves and impacting how others see us. Our choices matter - not just to us personally, but also to the magazine editors, brand ambassadors and trend forecasters who make a living by selling to us. Communicating Fashion introduces key concepts from the intersecting worlds of fashion and communication studies to connect how we all use clothing to express ourselves and how media systems support that process. In doing so, Myles Ethan Lascity explores social, cultural and ethical issues through the work of fashion journalism, brand promotions and the growing role of online influencers as well as the impact of film, television and art on self-image and expression. Key topics: - Advertising, Branding and Fashion Retail - Clothing, Art and Cultural Significance - Clothing as Group and Cultural Norms - Clothing, Identity and Interpersonal Communication - Fashion News and Tastemaking - Fashion, Social Media and Influencers - Meaning within the Fashion System - On-screen Clothing

My Life at Liz Claiborne Jerome A.

Chazen, 2012-01-19 Mr. Chazen is known as an innovator and even a revolutionary, whose ideas changed the face of the apparel industry and retailing forever. The book will provide lessons for everyone in business, as it shows how he and his executives at Liz broke the rules time after time in their pursuit of success -- Pioneering overseas production by American corporations Making consumer choice easier by creating coordinated clothing collections Offering women

alternatives to traditional, male-oriented business styles Popularizing designer branding and quality on affordable merchandise Focusing on the end consumer rather than the middleman (in this case the department stores) Growing without advertising Many of his innovations are reflected today in the shopping experience of millions of people around the world: specialized boutiques within larger stores, upscale outlet malls, designer branding on everything, and more. Mr. Chazen's penchant for rule breaking is not limited to business practices but rather extends to career and retirement ideas. For example, he shows how careers are often better nurtured and built up in the hinterlands and away from the New York spotlight. His ideas on a satisfying retirement reflect a never stop working approach, and on estate planning a die broke philosophy. The book will captivate fashion industry insiders, intrigue general business readers, and enlighten anyone interested in devoting themselves to the entrepreneurial life. In this business memoir, Jerome A. Chazen, tells an extraordinary success story - how, together with designer Liz Claiborne, he took a small startup business and grew it into the largest apparel company in the world. Chazen is one of the most celebrated fashion executives of all time. Through his inventive management of Liz Claiborne, Inc., he created a company beloved by generations of women who enthusiastically dressed themselves for both the workplace and leisure time in Liz Claiborne clothing and accessories. In this book, for the first time, Chazen tells the inside story of the founding of the company, the management tactics and strategies he utilized to propel it into the Fortune 500, the internal struggles and tensions that marked the business' phenomenal growth, an inside look at the processes that made Liz a rock star in her time, and revealing insights into what it takes to

navigate successfully in one of the most competitive industries in the world. Mr. Chazen shows readers how design and creativity is never enough to ensure success. Only by joining the creative processes to savvy marketing and sales strategies can any company achieve great success. He illustrates how he did it at Liz and shows by example how other companies can do the same and flourish as well.

A Matter of Style Paola Saltari, Valeria Manfredi De Fabianis, 2010
Coco Chanel once proclaimed, "I don't do fashion, I am fashion," and in one line she established a mantra for a handful of women who revolutionized the concept of femininity in the mid-20th century. *A Matter of Style* documents the unforgettable lives of Chanel and nine other female icons of style and elegance who captivated entire generations and remain inspiring models of beauty and fascination. An extraordinary collection of photographs bring these women back to life: Coco Chanel, Katharine Hepburn, Grace Kelly, Audrey Hepburn, Brigitte Bardot, Marilyn Monroe, Jacqueline Kennedy, Mary Quant, Twiggy, and Lady Diana. These are the stories of unparalleled lives, captured in a volume without precedent.

Spy , 1987-10 Smart. Funny. Fearless. It's pretty

safe to say that Spy was the most influential magazine of the 1980s. It might have remade New York's cultural landscape; it definitely changed the whole tone of magazine journalism. It was cruel, brilliant, beautifully written and perfectly designed, and feared by all. There's no magazine I know of that's so continually referenced, held up as a benchmark, and whose demise is so lamented --Dave Eggers. It's a piece of garbage --Donald Trump.

Issues in Global Business SAGE

Publishing, 2021-03-03 In 2020, COVID-19 starkly demonstrated the global interconnectedness of business, as it disrupted supply chains and manufacturing operations, broadly shuttered retail stores, and led to restrictions on movement and travel around the world. Other events in 2019 also showcased the undeniable globalization of business, be it from the (un)expected ramifications of Brexit to the impacts of data breaches across various industries. Riots in Hong Kong over an extradition bill also sparked huge debate and controversy, and the U.S.-China trade war also caused concern. All of these events may have largely and immediately impacted one region, yet effects reverberate across larger swathes of the globe—ultimately affecting vast areas, industries, and sectors across the international landscape. *Issues in Global Business* explores all of these and more, across a wide range of topics, including the on-demand economy, global manufacturing, Bitcoin, data security, and many more. Coupled with a comprehensive overview of the business landscape around the world by Dr. Mamoun Benmamoun, an assistant professor at the Boeing Institute of International Business at Saint Louis University, this book provides students with the essential information they need to assess business

practices through an international lens.

Fashion Trends Eundeok Kim, Ann Marie Fiore, Alice Payne, Hyejeong Kim, 2021-01-14 In a fast-moving global industry, how can anyone know what the next trend will be? *Fashion Trends: Analysis and Forecasting* offers a clear pathway into the theory and practice of forecasting fashion, using professional case studies to demonstrate each technique and concept. This revised edition includes an updated model of the fashion trend analysis and forecasting process and expanded coverage of social media, digital influencers, sustainability and social responsibility. There are also first-hand visual materials relating to forecasts from leading firms. With the rise of individualism and concern for the sustainable world, the authors also walk you through the 'end of fashion' and what comes next, including: recycled and upcycled fashion, garment rental, subscription services, the circular economy, transparency and traceability, and the role of forecasting in encouraging sustainable lifestyles. Key topics - The characteristics of an innovation - The influence of consumer groups - Long- and short-term fashion forecasting - Sociocultural factors and their influence on trends - Fashion professionals' roles in creating and supporting trends - Consumer and industry trends accelerating product innovation and diffusion - Changing trend forecasting formats - The influence of trend forecasting on business decisions
