**Fashion Guru** Rebecca Rissman, 2018 What have been the hottest trends in clothing over the last 50 years? How much does the average pair of shoes cost? What is the most popular fabric color in your part of the world? Find the answers to these and many more questions and find your own fashion sense!

**Fashion and Authorship** Gerald Egan, 2020-02-13 Studies of fashion and literature in recent decades have focused primarily on representations of clothing and dress within literary texts. But what about the author? How did he dress? What were her shopping practices and predilections? What were his alliances with modishness, stylishness, fashion? The essays in this book explore these and other questions as they look at authors from the eighteenth century through the postmodern and digital eras, cultural producers who were also men and women of fashion: Alexander Pope, Hester Thrale, Mary Robinson, Lord Byron, William Thackeray, Charlotte Bronte, Wilkie Collins, Margaret Oliphant, Virginia Woolf, Rebecca West, Trudi Kanter, Angela Carter, and Martin Margiela. The essays collected here ultimately converge upon a fundamental question: what happens to our notions of timeless literature when authorship itself is implicated in the transient and the temporary, the cycles and materials of fashion? "Gerald Egan's provocative introduction to this exciting new book poses a bold question: How are authorship and literature – so often linked to ideas of transcendence – implicated in the transient trends and stuff of fashion? The thirteen chapters that follow track authorship's complex implication in the discourses and materiality of fashion and fashionable goods from the eighteenth to the twentieth centuries. Wide-ranging in discipline and chronology, yet forensically focused and carefully argued, this book makes a striking and wonderfully original contribution to studies of authorship, celebrity and material culture." — Dr Jennie Batchelor, Professor of Eighteenth-Century Studies, University of Kent, UK

**Transglobal Fashion Narratives** Anne Peirson-Smith, Joseph Hancock, 2018 Everywhere we look, people are using fashion to communicate self and society - who they are, and where they belong. This book presents an international, interdisciplinary analysis of those narratives. Moving from sweatshop to runway, page to screen, camera to blog, and artist to audience, it examines fashion as a mediated form of content in branding, as a literary and filmic device, and as a personal form of expression by industry professionals, journalists, and bloggers.

**Hair** Kurt Stenn, 2016-02-15 A microhistory in the vein of Salt and Cod exploring the biological, evolutionary, and cultural history of one of the

world's most fascinating fibers. Most people don't give a second thought to the stuff on their head, but in *Hair*, Kurt Stenn — one of the world's foremost hair follicle experts — takes readers on a global journey through history, from fur merchant associations and sheep farms to medical clinics and patient support groups, to show the remarkable impact hair has had on human life. From a completely bald beauty queen with alopecia to the famed hair-hang circus act, Stenn weaves the history of hair through a variety of captivating examples, with sources varying from renaissance merchants' diaries to interviews with wig makers, modern barbers, and more. In addition to expelling the biological basis and the evolutionary history of hair, the fiber is put into context: hair in history (as tied to textile mills and merchant associations), hair as a construct for cultural and self-identity, hair in the arts (as the material for artist's brushes and musical instruments), hair as commodity (used for everything from the inner lining of tennis balls to an absorbent to clean up oil spills), and hair as evidence in criminology. Perfect for fans of Mark Kurlansky, *Hair* is a compelling read based solidly in historical and scientific research that will delight any reader who wants to know more about the world around them.

**The Color of Fashion** Caroline Young, 2022-04-19 b>Mellow yellow, in the pink, feeling blue, green with envy. color is so entwined with our emotions that there are countless expressions and song lyrics, devoted to it. But what meaning does color have in what we wear? What does a green dress convey when worn to a cocktail party, what significance does a white trouser suit have when worn by a female politician, and why does a woman in red command attention? Telling fascinating stories drawn from across history, *The Color of Fashion* delves into the significance of color in dress, and explores how the symbolism has shifted over time. Think of how black transitioned from a color of mourning to the ultimate in elegance, how millennial pink has defined the Instagram generation, and beige, once a sophisticated favourite of Chanel, now reflects the normcore subculture.
