Architectural Diagrams Mi Young Pyo,2015 The trendsetting architect Rem Koolhaas has carried it out to perfection, whereas the next generation of international stars refined it even more, giving us the unconventional presentation of designs and ideas in the form of diagrams. This method of presentation is easy to understand when dealing with the client and can be communicated internationally, beyond language and cultural barriers - a product of our globalised world. However, diagrams are now much more than explanations and form their own discipline in creative professions connected to design and construction. What looks simple is in fact a complex matter. This title in the series Construction and Design Manual is in its second edition and assembles 384 pages of diagrams by avant-garde architects and designers who specialise in public space, landscape architecture and urban planning.

Drawing, Well-being and the Exploration of Everyday Place Nicole Porter,2023-11-30 Over 200 observational drawings created every day from the same window reveal life in an ordinary English street in extraordinary times. This visual record and accompanying prose is a unique meditation on place, nature, community, time and mental well-being. Through this qualitative work we gain insight into the individual and collective experience and place-specific impacts of the pandemic, as opposed to the quantitative statistics of mortality and infection rates that characterise daily media soundbites and scientific discourse surrounding lockdown. Five themes are central to the drawings, highlighting the environmental and social factors influencing daily life, and how these can be perceived and recorded via observational drawing: ‘framing space’ foregrounds the importance of windows as an interface between interior and exterior worlds; ‘observing nature and the built environment’ celebrates the street and garden as sites of human-nature relations that support well-being; ‘watching people’ focusses on the activities typify living under lockdown including isolation, socially distanced interactions and working from home; ‘drawing’ reflects on the multiple professional and personal benefits of drawing; and mindful awareness is discussed throughout, affirming the value of appreciating everyday life through drawing practice.
