Encyclopedia of Junk Food and Fast Food Andrew F. Smith,2006-08-30 Eating junk food and fast food is a great all-American passion. American kids and grownups love their candy bars, Big Macs and supersized fries, Doritos, Twinkies, and Good Humor ice cream bars. The disastrous health effects from the enormous appetite for these processed fat- and sugar-loaded foods are well publicized now. This was particularly dramatically evidenced by Super Size Me (2004), filmmaker Morgan Spurlock's 30-day all-McDonald's diet in which his liver suffered the same poisoning as if he had been on an extended alcohol binge. Through increased globalization, American popular food culture is being increasingly emulated elsewhere in the world, such as China, with the potential for similar disastrous consequences. This A-to-Z reference is the first to focus on the junk food and fast food phenomena from a multitude of angles in addition to health and diet concerns. More than 250 essay entries objectively explore the scope of the topics to illuminate the American way through products, corporations and entrepreneurs, social history, popular culture, organizations, issues, politics, commercialism and consumerism, and much more. Interest in these topics is high. This informative and fascinating work, with entries on current controversies such as mad cow disease and factory farming, the food pyramid, movie tie-ins, and marketing to children, will be highly useful for reports, research, and browsing. It takes readers behind the scenes, examining the significance of such things as uniforms, training, packaging, and franchising. Readers of every age will also enjoy the nostalgia factor, learning about the background of iconic drive-ins, the story behind the mascots, facts about their favorite candy bar, and collectables. Each entry ends with suggested reading. Besides an introduction, a timeline, glossary, bibliography, resource guide, and photos enhance the text. Sample entries: A&W Root Beer; Advertising; Automobiles; Ben & Jerry's; Burger King; Carhops; Center for Science in the Public Interest; Christmas; Cola Wars; Employment; Fair Food; Fast Food Nation; Hershey, Milton; Hollywood; Injury; Krispy Kreme; Lobbying; Nabisco; Obesity; PepsiCo; Salt; Soda Fountain; Teen Hangouts; Vegetarianism; White Castle; Yum! Brands, Inc.

The High-Speed Company Jason Jennings,Laurence Haughton,2015-03-17 The only way to ensure your company's success is to change faster on the inside than the world is changing on the outside No one knows the ins and outs of successful companies better than bestselling author Jason Jennings. Back in 2001, with *It's Not the Big That Eat the Small, It's the Fast That Eat the Slow*, Jennings proved that speed was the ultimate competitive advantage. But in 2015, companies of all sizes still struggle to adapt quickly. They know it's crucial to their future but need help to get everyone implementing speed and urgency at all levels. Jennings and his researchers have spent years up close and personal with thousands of organizations around the world—figuring out what makes them successful in both the short and long term. He understands the real challenges that keep more than eleven thousand CEOs, business owners, and executives up at night. And he knows how the best of the best combine speed and growth to deliver five times the average returns to shareholders. The High-Speed Company reveals the unique practices of businesses that have proven records of urgency and growth. The key distinction is that they've created extraordinary cultures

with a strong purpose, more trust, and relentless follow-through. These companies burn less energy, beat the competition, and have a lot of fun along the way. Jennings shows how you can implement the same strategies that have made companies such as CoBank, O'Reilly Auto Parts, Grainger, Henry Schein, Google, and Johnson & Johnson great, including: • Encouraging employees to make the right moves without hesitation. J.M. Smucker has done this well by creating five guiding principles that employees at every level can apply to faster individual decision making. • Doing more to constantly innovate and bring in new customers. Besides spending more than \$2 billion on research and development, Procter & Gamble sends its senior executives to the homes of families who use their products in one hundred different countries, to learn their stories and connect with them, gaining fresh insights for new products. • Being transparent about management decisions. Sonic Corp. knows this is the best way to drive trust and engagement with both employees and customers. Breathe easier. Handle any hurdle. Get things done faster. That's the way of the high-speed company . . . and Jennings shows you how to build and sustain your own.

Guesstimation 2.0 Lawrence Weinstein,2012-09-30 Simple and effective techniques for quickly estimating virtually anything *Guesstimation 2.0* reveals the simple and effective techniques needed to estimate virtually anything—quickly—and illustrates them using an eclectic array of problems. A stimulating follow-up to *Guesstimation*, this is the must-have book for anyone preparing for a job interview in technology or finance, where more and more leading businesses test applicants using estimation questions just like these. The ability to guesstimate on your feet is an essential skill to have in today's world, whether you're trying to distinguish between a billion-dollar subsidy and a trillion-dollar stimulus, a megawatt wind turbine and a gigawatt nuclear plant, or parts-per-million and parts-per-billion contaminants. Lawrence Weinstein begins with a concise tutorial on how to solve these kinds of order of magnitude problems, and then invites readers to have a go themselves. The book features dozens of problems along with helpful hints and easy-to-understand solutions. It also includes appendixes containing useful formulas and more. *Guesstimation 2.0* shows how to estimate everything from how closely you can orbit a neutron star without being pulled apart by gravity, to the fuel used to transport your food from the farm to the store, to the total length of all toilet paper used in the United States. It also enables readers to answer, once and for all, the most asked environmental question of our day: paper or plastic?

Fast Company The Rules of Business Fast Company's Editors and Writers,2005-10-18 From *The Rules of Business* Rule #1 The first rule of business is the same as the first rule of life: Adapt or

die. "What gets measured, gets done." —Peter Drucker Rule #8 Nothing is more overrated than a new idea. Ideas by themselves are worthless. It's what you do with them that matters. "Bet on the jockey, not on the horse." —Malcolm Forbes "Best practices usually aren't." —Christopher Locke, co-author, *The Cluetrain Manifesto* Rule #49 If it is not right, don't do it; if it is not true, don't say it. "If you think you're too small to have an impact, try going to bed with a mosquito in the room." —Dame Anita Roddick, founder, The Body Shop

In *THE RULES OF BUSINESS*, Fast Company's renowned editor in chief, John Byrne and the writers and editors of Fast Company, distill the major ideas and principles of the world of business into fifty-five essential rules. These rules are elaborated on and enhanced by quotes and insights from over 200 business leaders, practitioners, and thinkers into what is sure to be an essential desk reference for managers, professionals, and executives-to-be. Published on the tenth anniversary of the magazine, *FAST COMPANY'S THE RULES OF BUSINESS* features the essential principles behind today's most important business topics, from customer service to innovation, from strategic thinking to leadership and management. The book introduces each category with a two-page commentary, and weaves two to four essential rules throughout every chapter. At the end of each chapter a boxed, bulleted "Fast Take" section gives readers specific takeaways they can use in their day-to-day work. The heart of each chapter, however, is the quotes and insights on the subject culled from the great minds in business, both living and historical—leaders and thinkers such as Machiavelli and Jack Welch, Adam Smith and his invisible hand and Tom Peters on marketing Me, Inc., Michael Porter on (what else?) strategy and A.G. Lafley, Jeff Bezos on the perils of hiring the wrong person and Bill Gates on the value of information technology, Anne Mulcahy and Warren Buffett, and many more. *FAST COMPANY'S THE RULES OF BUSINESS* is the ultimate desk reference.
