Overcoming Animal and Insect Phobias Martin Antony, Randi E. McCabe, 2005-06-01 As the makers of blockbuster movies like *The Birds*, *Jaws* and *Arachnophobia* well know, animal fears are the most commonly reported phobias. Some 6 percent of Americans suffer from diagnosable animal phobia at any given time, and 11 percent will experience an episode at some time in their lives. Nearly three quarters of animal phobia sufferers are women, and most symptoms of animal phobia come on in childhood. Since most people with animal phobias experience panic attacks when they encounter certain animals, these fears can cause victims to lose significant quality of life. Fortunately, specific phobias are among the most responsive of anxiety disorders to behavior therapy, the research-proven treatment adapted for self-help readers in this book. Readers first learn about their phobia, where it comes from, what factors

influence it, and how best to prepare for treatment. Then they learn to confront and overcome their animal and insect phobia. These techniques are effective and fast. The book includes information about avoiding relapse and helping someone else who suffers from an animal phobia.

Then We Came to the End Joshua Ferris, 2007-03-01 The National Book Award finalist and debut novel by the bestselling author of *The Dinner Party*: A readymade classic of the office-novel genre. . . . A truly affecting novel about work, trust, love, and loneliness. --Seattle Times No one knows us quite the same way as the men and women who sit beside us in department meetings and crowd the office refrigerator with their labeled yogurts. Every office is a family of sorts, and the ad agency Joshua Ferris brilliantly depicts in his debut novel is family at its strangest and best, coping with a business downturn in the time-honored way: through gossip, pranks, and increasingly frequent coffee breaks. With a demon's eye for the details that make life worth noticing, Joshua Ferris tells a true and funny story about survival in life's strangest environment--the one we pretend is normal five days a week.

Mastering the Core Teachings of the Buddha Daniel Ingram,2020-01-20 The very idea that the teachings can be mastered will arouse controversy within Buddhist circles. Even so, Ingram insists that enlightenment is an attainable goal, once our fanciful notions of it are stripped away, and we have learned to use meditation as a method for examining reality rather than an opportunity to wallow in self-absorbed mind-noise. Ingram sets out concisely the difference between concentration-based and insight (vipassana) meditation; he provides example practices; and most importantly he presents detailed maps of the states of mind we are likely to encounter, and the stages we must negotiate as we move through clearly-defined cycles of insight. Its easy to feel overawed, at first, by Ingram's assurance and ease in the higher levels of consciousness, but consistently he writes as a down-to-earth and compassionate guide, and to the practitioner willing to commit themselves this is a glittering gift of a book.In this new edition of the bestselling book, the author rearranges, revises and expands upon the original material, as well as adding new sections that bring further clarity to his ideas.

The Last Shadow Orson Scott Card,2021-11-16 Orson Scott Card's The Last Shadow is the long-awaited conclusion to both the original Ender series and the Ender's Shadow series, as the children of Ender and Bean solve the great problem of the Ender Universe—the deadly virus they call the descolada, which is incurable and will kill all of humanity if it is allowed to escape from Lusitania. Pharmako-AI K Allado-McDowell,2020-09-28 The first book to be co-written with the language AI GPT-3, exploring selfhood, ecology and technology. During the first summer of the coronavirus pandemic, a diary entry by K Allado-McDowell initiates an experimental conversation with the AI language model GPT-3. Over the course of a fortnight, their exchange rapidly unfolds into a labyrinthine exploration of memory, language and cosmology. The first book to be co-created with the emergent AI, Pharmako-AI takes a hallucinatory journey into selfhood, ecology and intelligence via cyberpunk, ancestry and biosemiotics. Through a writing process akin to musical improvisation, Allado-McDowell and GPT-3 together offer a fractal poetics of AI and a glimpse into the future of literature. Pharmako-AI reimagines cybernetics for a world facing multiple crises, with profound implications for how we see ourselves, nature and technology in the 21st century.

Muscle Samuel Wilson Fussell,2015-03-31 From skinny scholar to muscle-bound showman. “Easily the best memoir ever written about weight training, steroids and all” (Men’s Journal). When blue-blooded, storklike Samuel Wilson Fussell arrived in New York City fresh from the University of Oxford, the ethereal young graduate seemed like the last person on Earth who would be interested in bodybuilding. But he was intimidated by the dangers of the city—and decided to do something about it. At twenty-six, Fussell walked into the YMCA gym. Four solid years of intensive training, protein powders, and steroid injections later, he had gained eighty pounds

of pure muscle and was competing for bodybuilding titles. And yet, with forearms like bowling pins and calves like watermelons, Fussell felt weaker than ever before. His punishing regimen of workouts, drugs, and diet had reduced him to near-infant-like helplessness and immobility, leaving him hungry, nauseated, and prone to outbursts of “ ’roid rage.” But he had come to succeed, and there was no backing down now. Alternately funny and fascinating, Muscle is the true story of one man’s obsession with the pursuit of perfection. With insight, wit, and refreshing candor, Fussell ushers readers into the wild world of juicers and gym rats who sacrifice their lives, minds, bodies, and souls to their dreams of glory in Southern California’s so-called iron mecca.

Ethan Frome Edith Wharton,2023-07-05 Ethan Frome is a 1912 novel set in New England. It is a story of a doomed love triangle between Ethan Frome, his wife and their housekeeper. Given the social conventions of the time, Ethan Frome feels he must stay, trapped in a loveless marriage, rather than pursue his true feelings. The tension builds slowly to a dramatic and classically ironic ending in one of Wharton's best stories.
