**Companion to Literary Myths, Heroes and Archetypes** Pierre Brunel,2015-07-30 First published in French in 1988, and in English in 1992, this companion explores the nature of the literary myth in a collection of over 100 essays, from Abraham to Zoroaster. Its coverage is international and draws on legends from prehistory to the modern age throughout literature, whether fiction, poetry or drama. Essays on classical figures, as well as later myths, explore the origin, development and various incarnations of their subjects. Alongside entries on western archetypes, are analyses of non-European myths from across the world, including Africa, China, Japan, Latin America and India. This book

will be indispensable for students and teachers of literature, history and cultural studies, as well as anyone interested in the fascinating world of mythology. A detailed bibliography and index are included. 'The Companion provides a fine interpretive road map to Western culture's use of archetypal stories.' Wilson Library Review 'It certainly is a comprehensive volume... extremely useful.' Times Higher Education Supplement

**A New Introduction to Old Norse: Reader** Anthony Faulkes, 2007

**Pollock Painting** Barbara Rose, 1980

*The History of English Affairs* William (of Newburgh), 2007 The History of English Affairs, covering the years 1066-1197, was written at the close of the twelfth century and has been described as being both in substance and in form ... the finest historical work left to us by an Englishman of the twelfth century (The Dictionary of National Biography). The author's critical ability, gifts of acute observation, clear judgment and tolerant impartiality justify his high reputation as an original authority. Book Two covers the years 1154-1175, and incorporates the murder of Thomas Becket in Canterbury Cathedral, the capture of the King of Scots at Alnwick, and the first subjugation of Ireland by the English. It also documents the career of Nicholas Breakspear, the only Englishman to become Pope.

*Crack Wars* Avital Ronell, 2004 Gustave Flaubert's Madame Bovary takes up the problems of drugs and addiction in numerous ways, which Ronell unpacks and presents as exemplary of the contemporary fascination with extreme danger.

For Ronnell, Emma Bovary represents the first addict, embodying a yearning that calls from the bottom of her depleted soul, and which places her in a chronic state of dissatisfaction.--BOOK JACKET.

**After the Black Death, Second Edition** George Huppert,1998-05-22 Praise for the first edition: To give a sense of immediacy and vividness to the long period in such a short space is a major achievement. --History Huppert's book is a little masterpiece every teacher should welcome. --Renaissance Quarterly A work of genuine social history, After the Black Death leads the reader into the real villages and cities of European society. For this second edition, George Huppert has added a new chapter on the incessant warfare of the age and thoroughly updated the bibliographical essay.

*The Ideals and Practice of Medieval Knighthood II* Christopher Harper-Bill,Ruth Harvey,1988 `This wide-ranging and instructive collection makes a valuable addition to the fast-growing body of work on medieval chivalry.' HISTORY The Strawberry Hill Conferences were designed to bring together historians and literary scholars whose interests focus on medieval history. Full details of papers available on request.

*Culture on Drugs* Dave Boothroyd,2006 Culture on drugs extends the discussion of drugs and drug culture beyond the boundaries of such disciplines as sociology, anthropology and criminology to cultural and literary studies and philosophy.

**Magna Carta and Medieval Government** James Clarke Holt, 1985 *Magna Carta and Medieval Government* brings together Professor Holt's writings on the period, many of which are at present not easily accessible. Eight of the pieces are on *Magna Carta* itself, but seldom repeat the findings of Professor Holt's classic *Magna Carta*. As well as giving a succinct account of the making of *Magna Carta*, the author approaches his subject from a variety of different angles, and examines in detail a number of versions and copies of the Charter to shed light on its local reception and importance, and on how it was interpreted in different places. Two pieces deal with King John: there is a survey of his reputation and character and the reasons for his failure; and a definitive account of his celebrated 'Disaster in the Wash'. *Magna Carta and Medieval Government* also includes a highly illuminating discussion of the social and political tensions that strained the Anglo-Norman Empire and brought about the loss of Normandy.

*The Life of Christina of Markyate* Medieval Academy of America, 1998-01-01 *The Life of Christina of Markyate*, a twelfth-century English recluse and later abbess of Markyate near St Albans, is a remarkable example of late medieval hagiography. Originally written at the time of or soon after Christina's death in the twelfth century, the *Life* is unusual both in its relative lack of miracles, and in the unknown author's decision to write Christina's life factually rather than gathering together stock elements from previously written saint's lives, as was the custom. First published in 1959,

this edition contains the original Latin text with a facing-page English translation. It is accompanied by a comprehensive Introduction that discusses the codicological problems of the text, and provides other contextual and background material. 'One of the great virtues of this Life is its vivid revelations of Christina's personal circumstances, which must have been based on her own reminiscences. Although doubts have been cast on her veracity ... they do not affect the main lines of the extraordinary story she told the author.' From the General Editors' Note

**Lancelot and the Grail** Elspeth Kennedy, 1990 Kennedy's *Lancelot and the Grail* offers a new solution to the fascinating puzzle of how the tale of Lancelot's love for Guinevere came to be linked with the legend of the Grail. Based on extensive research on the textual tradition of a romance copied and read over a time span of three centuries, the book raises such issues as the interplay between feudal relationships and literary structures, intertextuality, and the development of a text through time.

The Mountains and the City Chris Wickham, 1988 This work is the winner of the American Historical Association Marraro Prize, 1988. *The Mountains and the City* is a rare discussion in English of the history of a region of Europe, a genre common in other countries but undeveloped in Britain. The book deals with two mountain valleys in Tuscany from the eight to the twelfth century, with some examination of their future progress into the sixteenth. It charts their internal social and economic development and their links with

the emerging world of the Italian city states. The importance of the book is in its stress on the small-scale society of the mountains; on the relation of local society to its geographical environment; and, above all, in its concern to see society from below, through the activities of local people, rather than through the interests of their masters. In its focus on local interaction, this is one of the few anthropological studies of medieval history that has yet been written
