Lobbying in the European Parliament Maja Kluger Dionigi,2016-12-01 This book explains when and how interest groups are influential in the European Parliament, which has become one of the most important lobbying venues in the EU. Yet we know little about the many ways in which interest groups and lobbyists influence parliamentary politics. The author offers insights on four key cases of lobbying, based on the analysis of EU documents, lobbying letters, and 150 interviews. She argues that lobbying success depends on a number of factors, most notably the degree of counter-lobbying, issue salience, and committee receptiveness. These factors are brought together in the framework of “Triple-I” - interests, issues, and institutions - to determine the success or failure of lobbying. This book will be of use to students and scholars interested in EU politics and governance, EU decision-making, and interest group politics, along with policy-makers and practitioners.

Syntactic Wordclass Tagging H. van Halteren,2013-03-14 In both the linguistic and the language engineering community, the creation and use of annotated text collections (or annotated corpora) is currently a hot topic. Annotated texts are of interest for research as well as for the development of natural language processing (NLP) applications. Unfortunately, the annotation of text material, especially more interesting linguistic annotation, is as yet a difficult task and can entail a substantial amount of human involvement. All over the world, work is being done to replace as much as possible of this human effort by computer processing. At the frontier of what can already be done (mostly) automatically we find syntactic wordclass tagging, the annotation of the individual words in a text with an indication of their morpho syntactic classification. This book describes the state of the art in syntactic wordclass tagging. As an attempt to give an overall view of the field, this book is of interest to (at least) two, possibly very different, types of reader. The first type consists of those people who are using, or are planning to use, tagged material and taggers. They will want to know what the possibilities and impossibilities of tagging are, but are not necessarily interested in the internal working of automatic taggers. This, on the other hand, is the main interest of our second type of reader, the builders of automatic taggers and other natural language processing software.

Loudspeaker Modelling and Design Geoff Hill,2018-09-03 In this book, Geoff Hill demonstrates modern software and hardware being applied to the processes behind loudspeaker design and modelling. Modern computing power has progressed to the point that such analyses are now practical for any interested individual or small company. Loudspeaker Modelling and Design: A Practical Introduction examines the process from initial concept through specifications and theoretical simulations and onto detailed design. It demonstrates the processes of design and specification, by using detailed simulations of a loudspeaker driver; sufficient to give re-assurance that a design is practical and will perform as expected. This book brings together many different strands of modelling from electro-magnetic through to mechanical and acoustic, without getting bogged down in theoretical discussions and arguments. This practice-based book shows the techniques used in designing modern loudspeakers and transducers.

*Modelling Rock Fracturing Processes* Baotang Shen,Ove Stephansson,Mikael Rinne,2020-05-06 This book is the second edition of the well-known textbook *Modelling Rock Fracturing Processes*. The new and extended edition provides the theoretical background of rock fracture mechanics used for modelling of 2-D and 3-D geomechanics problems and processes. Fundamentals of rock fracture mechanics integrated with experimental studies of rock fracturing processes are highlighted. The computer programs FRACOD 2D and 3D are used to analyse fracture initiation and propagation for the three fracture modes: Mode I, II and III. Coupled fracture modelling with other continuous and distinct element codes including FLAC, PFC, RFPA, TOUGH are also described. A series of applications of fracture modelling with importance for modern society is presented and discussed by distinguished rock fracture modelling experts.

**Negotiating Gender and Diversity in an Emergent European Public Sphere** B. Siim,M. Mokre,2012-12-15 The book analyses intersections

between gender and diversity through cross-national studies of European public spheres. The approach confronts research on European democracy and the public sphere with gender and diversity research and reflections about European equality and diversity issues are based on new research from a large-scale EU project.

**Handbook of Multimodal and Spoken Dialogue Systems** Dafydd Gibbon, Inge Mertins, Roger K. Moore, 2012-12-06 Dictation systems, read-aloud software for the blind, speech control of machinery, geographical information systems with speech input and output, and educational software with 'talking head' artificial tutorial agents are already on the market. The field is expanding rapidly, and new methods and applications emerge almost daily. But good sources of systematic information have not kept pace with the body of information needed for development and evaluation of these systems. Much of this information is widely scattered through speech and acoustic engineering, linguistics, phonetics, and experimental psychology. The Handbook of Multimodal and Spoken Dialogue Systems presents current and developing best practice in resource creation for speech input/output software and hardware. This volume brings experts in these fields together to give detailed 'how to' information and recommendations on planning spoken dialogue systems, designing and evaluating audiovisual and multimodal systems, and evaluating consumer off-the-shelf products. In addition to standard terminology in the field, the following topics are covered in depth: How to collect high quality data for designing, training, and evaluating multimodal and speech dialogue systems; How to evaluate real-life computer systems with speech input and output; How to describe and model human-computer dialogue precisely and in depth. Also included: The first systematic medium-scale compendium of terminology with definitions. This handbook has been especially designed for the needs of development engineers, decision-makers, researchers, and advanced level students in the fields of speech technology, multimodal interfaces, multimedia, computational linguistics, and phonetics.

**Handbook of Feminist Governance** Marian Sawer, Lee A. Banaszak, Jacqui True, Johanna Kantola, 2023-02-14 Compiling state-of-the-art research from 58 leading international scholars, this dynamic Handbook explores the evolution of feminist analytical and organising principles and their introduction into governance institutions in national, regional and global settings.

*The Encyclopedia of Hammer Films* Chris Fellner, 2019-07-31 This reference work contains entries on every film made by Hammer Films, a British studio renowned for its horror films of the 1950s, 60s, and 70s. In addition, entries on people—directors, writers, producers, etc.—who have worked with the studio, as well as the stars associated with the studio, notably Christopher Lee and Peter Cushing.

**The Routledge Handbook of Gender and EU Politics** Gabriele Abels, Andrea Krizsán, Heather MacRae, Anna van der Vleuten, 2021-03-17 This Handbook maps the expanding field of gender and EU politics, giving an overview of the fundamentals and new directions of the sub-discipline, and serving as a reference book for (gender) scholars and students at different levels interested in the EU. In investigating the gendered nature of European integration and gender relations in the EU as a political system, it summarizes and assesses the research on gender and the EU to this point in time, identifies existing research gaps in gender and EU studies and addresses directions for future research. Distinguished contributors from the US, the UK and continental Europe, and from across disciplines from political science, sociology, economics and law, expertly inform about gender approaches and summarize the state of the art in gender and EU studies. The Routledge Handbook of Gender and EU Politics provides an essential and authoritative source of information for students, scholars and researchers in EU studies/ politics, gender studies/ politics, political theory, comparative politics, international relations, political and gender sociology, political economy, European and legal studies/ law.

**Simplified Analytical Methods of Elastic Plates** Hideo Takabatake, 2018-11-02 This book presents simplified analytical methodologies for static and dynamic problems concerning various elastic thin plates in the bending state and the potential effects of dead loads on static and dynamic

behaviors. The plates considered vary in terms of the plane (e.g. rectangular or circular plane), stiffness of bending, transverse shear and mass. The representative examples include void slabs, plates stiffened with beams, stepped thickness plates, cellular plates and floating plates, in addition to normal plates. The closed-form approximate solutions are presented in connection with a groundbreaking methodology that can easily accommodate discontinuous variations in stiffness and mass with continuous function as for a distribution. The closed-form solutions can be used to determine the size of structural members in the preliminary design stages, and to predict potential problems with building slabs intended for human beings' practical use.

*Charles Laughton* David A. Redfern, 2021-08-04 Oscar-winning actor, translator of Bertolt Brecht's *Galileo*, and director of the iconoclastic *The Night of the Hunter*, Charles Laughton's name alone commanded box office and theatre acclaim. This book is the first to offer an intimate examination of his 54 films produced in Britain and Hollywood from 1928 to 1962. Each has technical credits and cast lists, as well as publicity taglines, a plot synopsis, selected dialogue, Oscars won or nominated, and production commentaries. Also provided are listings of Laughton's miscellaneous shorts and feature films, abandoned film projects, amateur and professional stage appearances, select radio broadcasts, television broadcasts, and audio recordings. Appendices detail the studios, performers and cinematographers of the Laughton films.

Transformations in EU Gender Equality Sophie Jacquot, 2015-08-11 In a context of economic and budgetary crisis, this book presents a long-term analysis of the transformations of EU gender equality. It analyses the mechanisms of construction, consolidation and deconstruction of this policy and questions the effects of its current dismantling.

**Golden Horrors** Bryan Senn, 2015-09-03 From the grindhouse oddities to major studio releases, this work details 46 horror films released during the genre's golden era. Each entry includes cast and credits, a plot synopsis, in-depth critical analysis, contemporary reviews, time of release, brief biographies of the principal cast and crew, and a production history. Apart from the 46 main entries, 71 additional "borderline horrors" are examined and critiqued in an appendix.

Character Actors in Horror and Science Fiction Films, 1930-1960 Laurence Raw, 2012-06-12 This biographical dictionary presents a stellar lineup of talented, versatile character actors who regularly appeared in horror and science fiction films during Hollywood's golden age. Many are well known by genre buffs and casual fans—they include Lionel Atwill, John Carradine, Dwight Frye, Rondo Hatton, Dick Miller, J. Carroll Naish, Maria Ouspenskaya, Glenn Strange, Edward Van Sloan, and George Zucco. Some are perhaps not so well known but equally at home in the horror and science fiction films—such as Anthony Carbone, Harry Cording, Rosemary La Planche, Dick Purcell, Elizabeth Russell and Mel Welles. The 96 entries are complete with a biography and in-depth analyses of the actor's best performances—demonstrating how important these personalities were to the success of their genre films.
