David Yarrow Photography David Yarrow, 2019-10-01

The must-have photography monograph of the year, this lavish oversized volume celebrates David Yarrow's unparalleled wildlife imagery. For more than two decades, legendary British photographer David Yarrow has been putting himself in harm's way to capture immersive and evocative photography of the world's most revered and endangered species. With his images heightening awareness of those species and also raising huge sums for charity and conservation, he is one of the most relevant photographers in the world today. Featuring Yarrow's 150 most iconic photographs, this book offers a truly unmatched view of some of the world's most compelling animals. The collection of stunning images, paired with Yarrow's first-person contextual narrative, offers insight into a man who will not accept second best in his relentless pursuit of excellence. David Yarrow Photography offers a balanced retrospective of his spectacular work in the wild and his staged storytelling work, which has earned him wide acclaim in the fine-art market. Yarrow rarely just takes pictures--he almost always makes them. This approach sets him apart from others in the field. Yarrow's work will awaken our collective conscience, and--true to form--he plans to donate all the royalties from this book to conservation

Leaving Reality Behind Adam Wishart, Regula Bochsler, 2003 This is a story of the battle for the control of the Internet. In November 1999, at the height of the e-commerce gold rush, an extraordinary hearing took place in a Los Angeles courtroom. On one side, the billion-dollar darling of Wall Street, eToys.com, the brain child of Toby Lenk. On the other side, etoy.com, a group of cutting-edge European artists, hungry for fame, who used the Internet as their canvas. The ensuing battle sharply focused attention on the conflict at the very heart of the Internet: was it for the joy of the many or the exponential profit of the few? Was cyberspace a revolutionary public space or was the new frontier an extension of the shopping mall?

Emerging pests and vector-borne diseases in Europe Willem Takken, Bart G.J. Knols, 2023-08-28
This is a multi-authored book concerning the perceived threat and recorded increase of emerging pests and vector-borne diseases affecting man and animals in Europe. Historically, Europe suffered from numerous pests and vector-borne diseases, including yellow fever, malaria, plague and typhus. Introduction of hygienic measures, drugs and vector control caused the disappearance of many of these diseases from Europe. In the (sub)tropics, however, many of these diseases still thrive, causing serious health problems for humans and animals. Increased trade, leading to animal and human movement and climate change cause reason to assume that several of these diseases might become re-established or allow 'new' diseases and pests to be introduced in Europe. The recent outbreaks of bluetongue virus in North-western Europe highlights this concern, requiring an effective surveillance systems for the early detection of pests and vector-borne diseases. In 24 chapters this book provides examples of the

most likely pests and diseases affecting man and animals in Europe, with emphasis on ecological factors favouring these diseases and methods for prevention and intervention. The authors are recognized experts in specific fields. All chapters are peer reviewed.

8 Wealth Habits of Financially Successful People
Ron Malhotra,2014-11-14 The Eight Habits This book outlines eight key habits and attitudes that are essential if you want to take control of your financial destiny. It includes some information that you might not be expecting in a book about money. Because the mind has such a powerful role to play in the creation of wealth we begin by looking at the way the wealthy think and how to take control of that powerhouse between your ears and get it working for you, not against you. Investing is another issue we tackle, but not just investing in property and shares, although we'll look at that too. How you invest in yourself, your

talents, skills and passions is a vital step to money mastery and something that is practiced by successful affluent individuals. Having money is one thing, keeping it is something else. Did you know most lottery winners blow the whole lot within seven years? You don't want to do that with lottery winnings, your precious savings and investments or any inheritance you get, so we'll examine ways you can minimise risk and protect your assets. Unless you are a total genius I doubt you are good at everything. I know I'm not. Wealthy people don't try to do it all themselves, they have teams of people to help them. This is not something only for the super wealthy. If you have ever called a plumber, used an accountant or managed a home renovation project then you have already assembled a small team of your own. We'll look at how other's expertise can help you gain financial freedom.
