**Dutch Paintings of the Seventeenth Century** National Gallery of Art (U.S.), Arthur K. Wheelock, 1995 Heda's Banquet Piece, Frans Hals' Willem Coymans, and Rembrandt's Lucretia. Paintings by these and other masters attracted the American collectors P. A. B. Widener, his son Joseph, and Andrew W. Mellon, whose bequests form the heart of the National Gallery's distinguished and remarkably cohesive collection of ninety-one Dutch paintings.

**Duveen** Meryle Secrest, 2005-11 Anyone who has admired Gainsborough's Blue Boy of the Huntington Collection in California, or Rembrandt's Aristotle Contemplating the Bust of Homer at the Metropolitan Museum of Art in New York owes much of his or her pleasure to art dealer Joseph Duveen (1869-1939). Regarded as the most influential-or, in some circles, notorious-dealer of the twentieth century, Duveen established himself selling the European masterpieces of Titian, Botticelli, Giotto, and Vermeer to newly and lavishly wealthy American businessmen-J. P. Morgan, John D. Rockefeller, and Andrew Mellon, to name just a few. It is no exaggeration to say that Duveen was the driving force behind every important private art collection in the United States. The first major biography of Duveen in more than fifty years and the first to make use of his enormous archive-only recently opened to the public-Meryle Secrest's Duveen traces the rapid ascent of the tirelessly enterprising dealer, from his humble beginnings running his father's business to knighthood and eventually apogee. The eldest of eight sons of Jewish-Dutch immigrants, Duveen inherited an uncanny ability to spot a hidden treasure from his father, proprietor of a prosperous antiques business. After his father's death, Duveen moved the company into the riskier but lucrative market of paintings and quickly became one of the world's leading art dealers. The key to Duveen's success was his simple observation that while Europe had the art, America had the money; Duveen made his fortune by buying art from declining European aristocrats and selling them to the squillionaires in the United States. By far the best account of Joseph Duveen's life in a biography that is rich in detail, scrupulously researched, and sympathetically written. [Secrest's] inquiries into early-twentieth-century collecting whet our appetite for a more general history of the art market in the first half of the twentieth century.-John Brewer, New York Review of Books

*Holland's Golden Age in America* Esmée Quodbach, 2014 Americans have long had a taste for the art and culture of Holland's Golden Age. As a result, the United States can boast extraordinary holdings of Dutch paintings. Celebrated masters such as Rembrandt van Rijn, Johannes Vermeer, and Frans Hals are exceptionally well represented, but many fine paintings by their contemporaries can be found as well. In this groundbreaking volume, fourteen noted American and Dutch scholars examine the allure of seventeenth-century Dutch painting to Americans over the past centuries. The authors of *Holland's Golden Age in America* explain in lively detail why and how American collectors as well as museums turned to the Dutch masters to enrich their collections. They examine the role played by Dutch settlers in colonial America and their descendants, the evolution of American appreciation of the Dutch school, the circumstances that led to the Dutch school swiftly becoming one of the most coveted national schools of painting, and, finally, the market for Dutch pictures today. Richly illustrated, this volume is an invaluable contribution to the scholarship on the collecting history of Dutch art in America, and it is certain to inspire further research. In addition to the editor, the contributors are Ronni Baer, Quentin Buvelot, Lloyd

DeWitt, Peter Hecht, Lance Humphries, Walter Liedtke, Louisa Wood Ruby, Catherine B. Scallen, Annette Stott, Peter C. Sutton, Dennis P. Weller, Arthur K. Wheelock, Jr., and Anne T. Woollett.

America's National Gallery of Art Philip Kopper, 1991 This handsome tribute to the National Gallery of Art in Washington, D.C. traces the history of the museum from conception to construction on the occasion of its fiftieth anniversary. Opened with great fanfare, the National Gallery was the richest single gift from any individual to any nation ever. That individual was financier Andrew Mellon. Kopper's succinct biography covers Mellon's personal and political life as well as his passion for collecting the paintings of old masters. Mellon's bequest stipulated the museum's name, location, and details of governance, ensuring continued high standards and a vital future. Kopper includes profiles of the architect and various museum directors, including Mellon's son Paul, as well as illustrations that document some of the collection's highlights. Holland Mania Annette Stott, 1998-11 This fascinating and idiosyncratic work of art history chronicles the years between 1880 and 1920, when Americans went absolutely wild for all things Dutch. 210 illustrations, 30 in color.

Dutch Utopia Annette Stott, Hollis Koons McCullough, 2009 Showcasing more than seventy paintings from public and private collections throughout the United States and Europe, Dutch Utopia: American Artists in Holland, 1880-1914 explores the work of forty-three American artists drawn to Holland during the late nineteenth and early twentieth centuries. Escaping from the rapid urbanization of their time, these artists established colonies in six communities in the Netherlands—Dordrecht, Egmond, Katwijk, Laren, Rijsoord, and Volendam—with all but Dordrecht being small, preindustrial villages. Inspired by their pastoral surroundings as well as the great traditions of seventeenth-century Dutch art and the contemporary Hague school, these American artists created visions of Dutch society underpinned by a nostalgic yearning for a premodern way of life. Some even alluded to America's own colonial Dutch heritage, exploring shared histories and cultural connections between the two countries. Organized by the Telfair Museum of Art in Savannah, Georgia, Dutch Utopia examines the appeal of Holland for American artists during this period, through six pivotal themes: the influence of seventeenth-century Dutch painting; the impact of the contemporary Hague School; antimodernism and the American Progressive Movement; points of convergence in national identities; the proliferation of artist colonies in Holland; and the popular construction of "Dutchness" beyond the stereotypes of wooden shoes and windmills. Dutch Utopia includes works by artists who remain celebrated today, such as Robert Henri, William Merritt Chase, and John Singer Sargent, and by painters admired in their own time but less well-known now. These include accomplished women such as Elizabeth Nourse and Anna Stanley, as well as George Hitchcock, Gari Melchers, and Walter MacEwen, who built international reputations with Salon pictures of Dutch landscapes and costumed figures. These artists were among hundreds of Americans who traveled to the Netherlands between 1880 and 1914 to paint and to study. Some lived in Holland for decades, while others stayed only a week or two, but most passed quickly through the major cities to small rural communities, where they created picturesque idylls on canvas.

Mellon David Cannadine, 2021-06-02 A landmark work from one of the preeminent historians of our time: the first published biography of Andrew W. Mellon, the American colossus who bestrode the worlds of industry, government, and philanthropy, leaving his transformative stamp on each. Andrew Mellon, one of America's greatest financiers, built a legendary personal fortune from banking to oil to aluminum manufacture, tracking America's course to global economic supremacy. As treasury secretary under Presidents Harding, Coolidge, and finally Hoover, Mellon made the federal government run like a business—prefiguring the public official as CEO. He would be hailed as the architect of the Roaring Twenties, but, staying too long, would be blamed for the Great Depression, eventually to find himself a broken idol. Collecting art was his only nonprofessional gratification and his great gift to the American people, The National Gallery of Art, remains his most tangible legacy.

*The Puritan in Holland, England, and America* Douglas Campbell, 1902

**Rembrandt and His School** John Charles Van Dyke, 1923
