**DAVID'S SLING** Andrew Ceroni,2022-04-10 The CIA and its top agent, Dave McClure, have their hands perilously full. Franz Altmann, a vicious killer and a member of the German terror group Red Storm Movement, has slipped unseen into America. He intends to bring the U.S., the world's epicenter of capitalism and finance, to its knees in a horrendous attack. If that isn't enough, Vassily Krasnoff, a Russian believed fatally wounded in the Alaskan wilderness by McClure's rifle shot, didn't die as intelligence indicated. Krasnoff has emerged from a coma, and now he wants revenge for the death of his brother, Leonide. Someone Dave McClure loves dearly must die—in the most gruesome fashion imaginable—if McClure doesn't find and kill Krasnoff first.

**THE CHOICE OF FATE BEFORE BIRTH** Mahdi nayejbafar vilyani ,2023-02-27 Summary A young 42-year-old scientist named Mr. Mathew Nayfer, born in Boston to an American father and an Italian mother was able to win the Nobel Prize for Quantum and Atomic Physics in 2020. He received the title of professor that year as the youngest scientist. He was named one of the ten geniuses of the century. He and his assistant Elena Mahboud are working on an important project related to quantum physics when suddenly a man enters his life and presents a strange story about one of his children, who is eleven years old and breaks all the laws of physics with his claims. But the main issue of that person's request is another strange problem that can completely reject all scientific knowledge and human beliefs, bring up a new nature of life, death, and the world after death, and challenge the current knowledge.

**Blue Shaman** Hugh Malafry,2008-04-01 Who are the Shapers? What is their will of us? In the First Time, the kingdoms of earth and the realms of light were one. Wise in the ways of the Otherworld, the Na-Akhu-El Sages of the Motherland tended the ongoing creation in the earth:

Masters of the Four Forces and the cycles of creation, they shaped the pattern of things to come before they took form, and kept the balance of life in the worlds. But the Kingdom of the Sun fell, and a catastrophic dark age ensued, obscuring the way of the Makers. In the cataclysmic destruction of the world that was, the way of the Otherworld and of the First Time was lost, and Man forgot the realms of light. Nevertheless, veiled by the commonplace, a vestige of the Na-Akhu-El Sages survives, and subtly intervenes at crucial moments to keep the way they have shaped to restore Man to the First Time. In ancient Egypt this remnant is known as the Akhu, the Shining Ones of the First Time, who serve the Lord Osiris. Knowing the secrets of life and death, the making and unmaking of things, and the way of resurrection and ascension into the Otherworld, they are worshiped as deathless gods. In thirteenth century Egypt, the alchemist Flegetanis of Alexandria confronts an ancient adversary, the shaman Morgon Kara, in a dispute over a fallen Templar who has become the key to the survival of the Na-Akhu-El Sages. A contest unfolds in a subtle weave of intrigue and betrayal, in a quest for the meaning of a lost way, and the resurrection of a man whose awakening holds the key to the fate of the world to come.

**An Ethnographic Study of Northern Ghanaian Conflicts** A.K. Awedoba,2010-10-20 Conflict in Northern Ghana appears to be increasing in amplitude and frequency and its effects are getting more devastating. It is the view of this book that the Government of Ghana and civil society organisations involved in aspects of conflict management have approached peace issues in the region with an inadequate understanding of the local issues that divide and unite the people, or using sufficient

resources to preempt conflict. In 2003 The Mole V summit was held in Damongo to discuss strategic directions for comprehensive development and poverty reduction in Northern Ghana as a mechanism for supporting conflict management. It is the aim of this publication to contribute to the proposed plan by suggesting past and current conflict management resources and mechanisms which could be employed. The suggestions are informed by surveys, which are outlined in the book, of particular conflicts in the three northern Regions of Ghana between 2006 and 2008 - their histories, causes and effects and their resolution.

*The Location of Religion* Kim Knott,2015-08-12 The ways in which humans interact with their location is an important topic within sociological studies of religion. It is integral to the place of religion in secular society. 'The Location of Religion: A Spatial Analysis' offers an overview of the ways in which religion can be located within social, cultural and physical space. It examines contemporary spatial theory - notably the work of the influential sociologist Henri Lefebvre - and the many disciplines that have contributed to the spatial study of religion. This volume will be invaluable to all those interested in the role of religion in spatial analysis.

**Learning to Practise** Ruby Heap,Wyn Millar,Elizabeth Smyth,2005-10-25 How does one become a professional? This interdisciplinary collection offers new insights into that fundamental question.

Employing a wide variety of approaches and methodologies, the original and thematically linked essays discuss such problematic issues as the most appropriate site for professional education, the proper focus and content of the initial and on-going preparation of professionals, and the nature of both continuity and change in professional education. In the process, they raise challenging questions about the development of professional education in Canada and elsewhere from the early 19th century to the present day, in fields as diverse as the health sciences, law, engineering, social work, theology, and university teaching. An essential resource for those studying the professions, this book will also appeal to practitioners, professional associations, administrators, and faculty in professional schools, and to all those interested in the past, present, and future state of their professions.

IN THE BLACK Andrew Ceroni, 2021-03-15 The CIA's most valued Russian double agents are being assassinated one by one. In Langley Center itself, Jack Barrett, Director of Central Intelligence, barely escapes assassination. When the Agency discovers the attacks originate from a Russian top secret cyberwarfare program called Chernyy Almaz, or Black Diamond, they must respond swiftly to shut down the attacks and extract their top prized agents before they're lost forever. Chief among them is Dr. Armand Mishenkov, the head of Russia's research and development for cold fusion weaponry. Pursued by Russian assassins and Spetsnaz teams, Agent Dave McClure must find Mishenkov and smuggle him across Europe and to the United States—but can they make it alive?
