*Addiction by Design* Natasha Dow Schüll,2014-05-11 Recent decades have seen a

dramatic shift away from social forms of gambling played around roulette wheels and card tables to solitary gambling at electronic terminals. Slot machines, revamped by ever more compelling digital and video technology, have unseated traditional casino games as the gambling industry's revenue mainstay. *Addiction by Design* takes readers into the intriguing world of machine gambling, an increasingly popular and absorbing form of play that blurs the line between human and machine, compulsion and control, risk and reward. Drawing on fifteen years of field research in Las Vegas, anthropologist Natasha Dow Schüll shows how the mechanical rhythm of electronic gambling pulls players into a trancelike state they call the machine zone, in which daily worries, social demands, and even bodily awareness fade away. Once in the zone, gambling addicts play not to win but simply to keep playing, for as long as possible--even at the cost of physical and economic exhaustion. In continuous machine play, gamblers seek to lose themselves while the gambling industry seeks profit. Schüll describes the strategic calculations behind game algorithms and machine ergonomics, casino architecture and ambience management, player tracking and cash access systems--all designed to meet the market's desire for maximum time on device. Her account moves from casino floors into gamblers' everyday lives, from gambling industry conventions and Gamblers Anonymous meetings to regulatory debates over whether addiction to gambling machines stems from the consumer, the product, or the interplay between the two. *Addiction by Design* is a compelling inquiry into the intensifying traffic between people and machines of chance, offering clues to some of the broader anxieties and predicaments of contemporary life. At stake in Schüll's account of the intensifying traffic between people and machines of chance is a blurring of the line between

design and experience, profit and loss, control and compulsion.

*Citizens of Light* Sam Shelstad, 2022-10-25 “Sam Shelstad has a funny, lively, engaging, peculiar mind—charming and surprising.” —Sheila Heti, bestselling author of *Motherhood* and *Pure Colour* This debut novel set in southern Ontario captures call-centre life, faded tourist attractions, and suburbia with oddball wit and sharp realism. Colleen Weagle works in a call centre and lives in a bungalow with her mother in a quiet Toronto suburb. In her spare time she writes spec scripts for a CBC riding-school drama (her mother’s favourite) and plays an online game set in a resort populated by reindeer. It’s a typical life. Except three months ago Colleen’s husband Leonard—who led a similarly monotonous life—was found in a bog in the middle of the night, a two hours’ drive from home. Dead. With a flatly optimistic belief in the power of routine, Colleen has been soldiering on, trying not to think too hard about all the unknowns surrounding the death. But when a local news photo twigs Colleen’s memory of a mystery attendee at Leonard’s funeral she snaps into action. In the maddening company of her ornery co-worker Patti, she heads to Niagara Falls on a quest to find the truth behind the death. Amid the slot machines and grubby hotels, the pair stumble into the darker underworld of a faded tourist trap. What they find will lead straight to an episode from Colleen’s adolescence she thought she’d put firmly behind her. Bleakly madcap, with deadpan dialogue, Shelstad’s debut novel is a noir anti-thriller reminiscent of *Twin Peaks* and the work of Ottessa Moshfegh and early Kate Atkinson. He captures call-

centre life, ramshackle tourist attractions, and suburbia with wit and sharp realism, and reveals the undercurrents of melancholy and the truly bizarre that can run beneath even the most seemingly mild-mannered lives.
