Freezing and Refrigerated Storage in Fisheries W. A. Johnston,1994 This document is intended to serve as a background paper as well as an introduction to the operations and equipment used in the freezing and cold storage of fish both on shore and at sea. It gives a broad outline on how deterioration of fish quality can be reduced by the application of low temperatures. It reviews various types of freezing equipment for use ashore or at sea; the requirements for cold stores and their construction; the factors affecting cold storage conditions, etc. In addition, the publication describes the methods used to calculate cold storage refrigeration loads as well as the costs of freezing and cold storage. Safe operation of cold stores is also covered. A list of publications on the subject is given in the list of references.

The Green Ghost Chad Weidner,2016-03-16 Until now, much scholarly work on Burroughs has focused on the sensational aspects of his life and on his innovative writing. *The Green Ghost*, by Chad Weidner, uncovers the ecological context of literary texts by William Burroughs. By rereading canonical and ignored texts while pushing the boundaries of ecocritical theory and practice, Weidner provides a fresh perspective on Burroughs and suggests new theoretical and methodological approaches to understanding the work of other Beat writers. Using an ecocritical lens, Weidner explores the toxicity in *Naked Lunch* while at the same time teasing out latent ecological questions embedded in Burroughs' later works. The author's analysis of unknown and miniature "cut-ups," texts that have been disassembled and rearranged to create new passages, provides a novel understanding of these cryptic forms. Weidner also examines in detail books by Burroughs that have been virtually ignored by critics, exposing the deep ecology of the Beat writer's vision. In calling attention to Burroughs's narrative strategies that link him to an environmental political position, *The Green Ghost* demonstrates that the work of the Beat writer is a ripe source for ecocritical dialogue.

To Change the Past (Reality Benders Book #10): LitRPG Series Michael Atamanov,2023-01-03
Space is a dangerous place. Here, you're either a predator or soon to fall prey to a ruthless neighbor. And if you aren't tough enough to make it on your own, you'll need the backing of a formidable power to keep you safe from bigger fish. Earth used to have such protection – the great Geckho race. But unfortunately, the Geckho fell to an enemy onslaught, leaving planet Earth to fend for itself. And now, Earth humanity has precious little time to prove to their galactic neighbors that they are not to be trifled with. Thankfully though, they have not only the mighty Army of Earth and a capable space fleet, but also something unique of which no other race can boast – Gnat and his ancient cruiser, which can travel instantly to any point in the Universe, breaking all conventional strictures and laws of war.
