Getting Started with Tableau 2018.x Tristan Guillevin,2018-09-28

Leverage the power of Tableau to get actionable business insights and make better business decisions Key FeaturesExplore all the new features of Tableau 2018.xBegin your Tableau journey by understanding its core functionalitiesApply advanced techniques such as data blending and parameters to make the best of TableauBook Description Tableau is one of the leading business intelligence tools used worldwide, in organizations of every scale. In its latest release, Tableau 2018 promises richer and more useful features related to visual analytics, reporting, dashboarding, and a host of other data visualization aspects. *Getting Started with Tableau 2018.x* will get you up and running with these features. The book starts with all the new functionalities of the different Tableau 2018 versions, along with concrete examples of how to use them. However, if you're new to Tableau, don't worry! The rest of the book will guide you through each major aspect of Tableau with examples. You'll learn how to connect to data, build a data source, visualize your data, build a dashboard, and share it online. In the final chapters, you'll also learn advanced techniques such as creating a cross-database join, data blending, and more. By the end of the book, you will have a firm understanding of how to effectively use Tableau to create quick, cost-effective, and business-efficient business intelligence solutions. What you will learnDiscover new functionalities such as density, extensions, and transparency introduced in Tableau 2018.xConnect tables and make transformations such as pivoting the field and splitting

columnsBuild an efficient data source for your analysisDesign
insightful data visualization using different mark types and
propertiesBuild powerful dashboards and stories Share your work and
interact with Tableau ServerUse Tableau to explore your data and
find new insightsExplore Tableau's advanced features and gear up for
upcoming challengesWho this book is for If you're a beginner or an
existing BI professional looking to get the most out of Tableau 2018's
latest features, this book is for you. You'll also find this book useful if
you're an aspiring analyst who wants to learn the capabilities of
Tableau to answer business-specific questions. No prior knowledge or
experience with Tableau or any other Business Intelligence tool is
necessary.

Merger Control in the EU and Turkey Fevzi Toksoy, Bahadır
Balki, Hanna Stakheyeva, 2022-05-11 As a country on the way to
integration with the European Union (EU), Turkey has been
following EU principles in establishing and improving its merger
control regime, as well as overall competition law, keeping pace with
changes in relevant EU legislation and case law. This book presents,
for the first time, a description and analysis of the relationship
between the EU and Turkish merger control law and practice. The
second edition of the book considers the legislative changes that
occurred in 2020-2021, including the reform of the Turkish
Competition Law which introduced the significant impediment to
effective competition (SIEC) test into the Turkish concentration
control. The authors—all three, both practicing lawyers and
academicians in Turkey—focus on comparing substantive, procedural
and jurisdictional issues and draw parallels on their regulation in the
two jurisdictions. These matters include the following: determining
whether a transaction shall be regarded as a notifiable merger, hence

be subject to control; financial thresholds used for allocating jurisdictions; extraterritoriality of merger control; relationship between the SIEC test and the dominance test; determination of the relevant market; techniques used for assessment of horizontal and non-horizontal mergers; notification requirements; procedural duties of competition authorities in relation to remedies; third-party rights; gun-jumping fines and other sanctions for failure to comply with merger control requirements; and peculiarities of assessment of mergers in the Big Data world. Each chapter provides an overview of the respective issues in the EU and Turkey, projecting a clear understanding of the main similarities and differences in the two regimes. A notable feature is an in-depth analysis of applicable case law concerning each issue, with most of the Turkish decisions available in English for the first time. The book's comparative approach will prove to be of great value. With its clear answers to questions about what transactions are subject to merger control, what criteria are used in assessing those transactions, and the main issues that a foreign company should be aware of while merging with another foreign company with effect in Turkey and/or EU, the book will be of immeasurable value for lawyers and their business clients dealing with multijurisdictional merger cases. Interested academics and policymakers will also find much here to attract their attention.

OECD Competition Trends 2021 OECD, 2021-02-24 The second edition of OECD Competition Trends is presented in two volumes. Volume I. Global Competition Enforcement Update 2015-19 provides an update on the competition enforcement trends between 2015-19 for the competition authorities of the 56 jurisdictions in the OECD CompStats database. Volume II. Global Merger Control provides an “in-focus” view on merger control by providing an overview of trends in

global merger control, describing a selection of the different choices made by jurisdictions when designing legal regimes, global merger control activity, and trends in merger control enforcement.

Monopolized David Dayen, 2020-07-21 From the airlines we fly to the food we eat, how a tiny group of corporations have come to dominate every aspect of our lives—by one of our most intrepid and accomplished journalists If you're looking for a book . . . that will get your heart pumping and your blood boiling and that will remind you why we're in these fights—add this one to your list. —Senator Elizabeth Warren on David Dayen's *Chain of Title* Over the last forty years our choices have narrowed, our opportunities have shrunk, and our lives have become governed by a handful of very large and very powerful corporations. Today, practically everything we buy, everywhere we shop, and every service we secure comes from a heavily concentrated market. This is a world where four major banks control most of our money, four airlines shuttle most of us around the country, and four major cell phone providers connect most of our communications. If you are sick you can go to one of three main pharmacies to fill your prescription, and if you end up in a hospital almost every accessory to heal you comes from one of a handful of large medical suppliers. Dayen, the editor of the *American Prospect* and author of the acclaimed *Chain of Title*, provides a riveting account of what it means to live in this new age of monopoly and how we might resist this corporate hegemony. Through vignettes and vivid case studies Dayen shows how these monopolies have transformed us, inverted us, and truly changed our lives, at the same time providing readers with the raw material to make monopoly a consequential issue in American life and revive a long-dormant antitrust movement.

Cracking IAS Prelims Revision Files – Indian Economy (Vol. 2/9)

Disha Experts,2019-04-23 Cracking IAS Prelims Revision Files – Indian Economy (Vol. 2/9) is the 1st ebook of a series of 9 eBooks specially prepared to help IAS aspirants cross the milestone of Preliminary Exam. The ebook is aimed at Revision cum practice so as to develop confidence to crack the IAS Prelim Exam. • The eBook is divided into 3 Topics • Each topic provides 5-6 Revision Modules ensuring complete revision of the topic. Thus in all around 15 such Modules are provided. • Each topic will end up with a Quiz containing 15 questions to test your topic preparedness. • Further Solved Questions of the last 5 years on Indian Economy are also provided. • In the end 2 Tests are provided on Indian Economy to test your revision of the entire section This ebook, along with the 8 other ebooks of this series, will definitely help you improve your score in the IAS Prelim Exam.

Competition Law in China Jingyuan Ma,2020-05-13 This book offers a comprehensive introduction to the developmental history and structural framework of Chinese competition law from a law and economics perspective. It examines the philosophical foundations, the substantive law, and enforcement issues concerning competition law and policy in China by pursuing an economic and comparative approach. Further, the book presents and analyzes competition cases involving monopolistic agreements, abuse of dominant position, and concentration. The book will help professionals and business practitioners to understand the distinct features of competition law and policy in China, and how the substance and enforcement of the law can be compared with competition regulations in the US and EU from an economic perspective. Given its scope, it offers a valuable guide for academic, public sector and professional audiences alike, and will appeal to researchers, students and anyone with an interest in

economic law and policy in China. The book can also be used as reading material to accompany courses such as China's Competition Law and Policy, Comparative Competition Law, and Market Regulation in China for foreign students studying Chinese law and policy at the undergraduate, graduate and doctoral levels.

Remedies in EU Competition Law Damien Gerard, Assimakis Komninos, 2020-07-10 By their nature, remedies are central to competition law enforcement and represent the yardstick against which the efficiency of the overall system can be measured. Yet very rarely have remedies been treated in a horizontal and comprehensive manner from the combined perspectives of substance, process and policy. The present volume, developed in partnership with the College of Europe's Global Competition Law Centre (GCLC), provides coherent, practical, and authoritative commentaries by leading experts from the GCLC's incomparable network. The contributions – originally presented at the 2019 GCLC annual conference – examine remedies to assess the overall effectiveness of competition law enforcement in merger, antitrust and State aid matters. The overall topic is presented under five headings: objectives and limitations of remedies; types of remedies in competition law enforcement; implementation and process; ex post assessment of remedies and policy lessons; and national and international approaches. The high-profile and wide-ranging group of authors includes the Director-General of the European Commission's competition department, lawyers from major international firms, and well-known economists and academics specialising in competition law. With a sharp focus on how to make competition rules work well in today's digital environment, this systematic and coherent analysis illuminates an issue that we need to fully grasp and understand in order to make sense of competition

policy, law and enforcement in the years and decades to come.

Law of the Internet, 4th Edition Delta & Matsuura, 2017-01-01

Law of the Internet, Fourth Edition is a two-volume up-to-date legal resource covering electronic commerce and online contracts, privacy and network security, intellectual property and online content management, secure electronic transactions, cryptography, and digital signatures, protecting intellectual property online through link licenses, frame control and other methods, online financial services and securities transactions, antitrust and other liability. The Law of the Internet, Fourth Edition quickly and easily gives you everything you need to provide expert counsel on: Privacy laws and the Internet Ensuring secure electronic transactions, cryptography, and digital signatures Protecting intellectual property online - patents, trademarks, and copyright Electronic commerce and contracting Online financial services and electronic payments Antitrust issues, including pricing, bundling and tying Internal network security Taxation of electronic commerce Jurisdiction in Cyberspace Defamation and the Internet Obscene and indecent materials on the Internet Regulation of Internet access and interoperability The authors George B. Delta and Jeffrey H. Matsuura -- two Internet legal experts who advise America's top high-tech companies -- demonstrate exactly how courts, legislators and treaties expand traditional law into the new context of the Internet and its commercial applications, with all the citations you'll need. The Law of the Internet also brings you up to date on all of the recent legal, commercial, and technical issues surrounding the Internet and provides you with the knowledge to thrive in the digital marketplace. Special features of this two-volume resource include timesaving checklists and references to online resources.

Research Handbook on Global Merger Control Ioannis

Kokkoris, Nicholas Levy, 2023-05-09 Over the past 30 years, merger control has become well-established around the world with broad consensus around its ambit and objectives. That consensus has fractured in recent years. Enforcement today is at a critical juncture, facing an array of challenges and calls for reform unprecedented in their scope and intensity. Authored by leading legal practitioners, economists, enforcers and jurists, this timely Research Handbook on Global Merger Control discusses those challenges and predicts how merger control is likely to evolve.

The Sage Handbook of Survey Development and Application

Lucy R. Ford, Terri A. Scandura, 2023-06-29 The SAGE Handbook of Survey Development and Application provides a practical resource that researchers can go to for cutting-edge tools to ensure they are employing the best survey research techniques. This handbook not only covers the classic and innovational skills and approaches involved at every step of the survey research process, but also centres itself around applied, how-to guidance to aid readers in best practice. Chapters engage with a broad range of topics including sampling issues, approaches to establishment of measurement equivalence, and the use of online labour pools in survey development. With contributions from a global community of leading and emerging scholars across a wide variety of disciplines, this Handbook is focused on being applicable and accessible across the social sciences. Containing over 120 tables and figures, checklists and tutorial guides, The SAGE Handbook of Survey Development and Application will serve as a one stop resource for survey research. This handbook serves as a touchstone for a variety of fields such as Organizational Behavior, Industrial & Organizational Psychology, Management, Psychology,

Educational Research, Marketing, Public Policy, and others. PART 1: Conceptual Issues and Operational Definition PART 2: Research Design Considerations PART 3: Item Development PART 4: Scale Improvement Methods PART 5: Data Collection PART 6: Data Management and Analysis PART 7: Research Production and Dissemination PART 8: Applications

Chinese State Owned Enterprises and EU Merger Control

Alexandr Svetlicinii, 2020-12-13 This book analyzes the specifics of corporate governance of China's State Owned Enterprises (SOEs) and their assessment under EU merger control, which is reflected in the EU Commission's screening of the notified economic concentrations. Guided by the going global policy and the Belt and Road Initiative, Chinese SOEs have expanded their global presence considerably. Driven by the need to acquire cutting edge technologies and other industrial policy considerations, Chinese SOEs have engaged in a series of corporate acquisitions in Europe. The main objective of this book is to demonstrate the conceptual and regulatory challenges of applying traditional merger assessment tools in cases involving Chinese SOEs due to the specifics in their corporate governance and the regulatory framework under which they operate in China. The book also explores the connection between the challenges experienced by the merger control regimes in the EU and the recent introduction of the EU foreign direct investment screening framework followed by a proposal concerning foreign subsidies. The book will be a useful guide for academics and researchers in the fields of law, international relations, political science, and political economy; legal practitioners dealing with cross-border mergers and acquisitions; national competition authorities and other public bodies carrying out merger control; policy makers, government officials, and diplomats in China

and the EU engaged in bilateral economic relations.

Regulating Data Monopolies Jingyuan Ma,2022-01-24 This book analyzes the business model of enterprises in the digital economy by taking an economic and comparative perspective. The aim of this book is to conduct an in-depth analysis of the anti-competitive behavior of companies who monopolize data, and put forward the necessity of regulating data monopoly by exploring the causes and characteristics of their anti-competitive behavior. It studies four aspects of the differences between data monopoly and traditional monopolistic behavior, namely defining the relevant market for data monopolies, the entry barrier, the problem of determining the dominant position of data monopoly, and the influence on consumer welfare. It points out the limitations of traditional regulatory tools and discusses how new regulatory methods could be developed within the competition legal framework to restrict data monopolies. It proposes how economic analytical tools used in traditional anti-monopoly law are facing challenges and how competition enforcement agencies could adjust regulatory methods to deal with new anti-competitive behavior by data monopolies.

Bash Cookbook Ron Brash,Ganesh Sanjiv Naik,2018-07-31 Create simple to advanced shell scripts and enhance your system functionality with effective recipes Key Features Automate tedious and repetitive tasks Create several novel applications ranging from a simple IRC logger to a Web Scraper Manage your system efficiently by becoming a seasoned Bash user Book Description In Linux, one of the most commonly used and most powerful tools is the Bash shell. With its collection of engaging recipes, Bash Cookbook takes you through a series of exercises designed to teach you how to effectively use the Bash shell in order to create and execute your own scripts.

The book starts by introducing you to the basics of using the Bash shell, also teaching you the fundamentals of generating any input from a command. With the help of a number of exercises, you will get to grips with the automation of daily tasks for sysadmins and power users. Once you have a hands-on understanding of the subject, you will move on to exploring more advanced projects that can solve real-world problems comprehensively on a Linux system. In addition to this, you will discover projects such as creating an application with a menu, beginning scripts on startup, parsing and displaying human-readable information, and executing remote commands with authentication using self-generated Secure Shell (SSH) keys. By the end of this book, you will have gained significant experience of solving real-world problems, from automating routine tasks to managing your systems and creating your own scripts. What you will learn

- Understand the basics of Bash shell scripting on a Linux system
- Gain working knowledge of how redirections and pipes interact
- Retrieve and parse input or output of any command
- Automate tasks such as data collection and creating and applying a patch
- Create a script that acts like a program with different features
- Customize your Bash shell and discover neat tricks to extend your programs
- Compile and install shell and log commands on your system's console using Syslog

Who this book is for The Bash Cookbook is for you if you are a power user or system administrator involved in writing Bash scripts in order to automate tasks. This book is also ideal if you are interested in learning how to automate complex daily tasks.

Human Enhancement Technologies and Our Merger with Machines Woodrow Barfield, Sayoko Blodgett-Ford, 2021-06-15 A cross-disciplinary approach is offered to consider the challenge of emerging technologies designed to enhance human bodies and minds.

Perspectives from philosophy, ethics, law, and policy are applied to a wide variety of enhancements, including integration of technology within human bodies, as well as genetic, biological, and pharmacological modifications. Humans may be permanently or temporarily enhanced with artificial parts by manipulating (or reprogramming) human DNA and through other enhancement techniques (and combinations thereof). We are on the cusp of significantly modifying (and perhaps improving) the human ecosystem. This evolution necessitates a continuing effort to re-evaluate current laws and, if appropriate, to modify such laws or develop new laws that address enhancement technology. A legal, ethical, and policy response to current and future human enhancements should strive to protect the rights of all involved and to recognize the responsibilities of humans to other conscious and living beings, regardless of what they look like or what abilities they have (or lack). A potential ethical approach is outlined in which rights and responsibilities should be respected even if enhanced humans are perceived by non-enhanced (or less-enhanced) humans as “no longer human” at all.

The Art of M&A, Fifth Edition: A Merger, Acquisition, and Buyout Guide Alexandra Reed Lajoux, 2019-07-19 Make every deal a major win! The M&A classic has been updated for today’s business landscape Since the last edition of this authoritative resource was published, the M&A world has gone from boom to bust and back again—and this new edition brings you completely up to date. With critical lessons learned from the financial crises and regulatory shocks of the past decade, The Art of M&A, Fifth Edition delivers the information and insight you need to make all the right decisions throughout the process. Learn the ins and outs of: •Getting

Started—basic process, requirements, and objectives•
 Strategy—deciding what to buy and why•Valuation and
 Modeling—measuring and projecting value pre- and post-merger•
 Financing and Refinancing—sourcing capital •
 Structuring—mitigating financial, tax, and legal risk• Due
 Diligence—investigating a business’s past, present, and future risks•
 Documentation and Closing—pulling everything together to ensure a
 smooth transaction • Integration—merging resources, processes, and
 responsibilities to maximize synergies• Landmark Cases—legal cases
 you need to understand The Art of M&A is an indispensable resource
 for anyone heavily engaged in the process—whether you’re an
 executive tasked with growing your businesses, an investment
 banker structuring transactions, an attorney responsible for due
 diligence, or an accountant who advises buyers and sellers. Turn to
 this definitive resource to develop, steward, and close deals that
 benefit everyone involved.

Post-Recession Community College Reform Chet Jordan,Anthony
 Picciano,2019-07-23 The book analyses and evaluates several key
 community college reform programs that emerged after the Recession
 of 2008 and as a result of major initiatives in California, New York,
 Tennessee, Florida, Connecticut and Wisconsin. Because of the
 economic downturn in the early 21st Century, an already eroding
 financial base for public higher education saw even further losses. At
 the same time, enrollments were booming, particularly in the two-
 year sector where many students who would have traditionally
 forgone a college education, were now enrolling to ensure their
 competitiveness in a harsh labor market. Chapters in this book
 examine the development and implementation of initiatives and
 accountability measures imposed across the states by the Obama

administration, and consider their effectiveness in reducing the impact of the loss of students, and their role in improving courses. This book will be of interest to postgraduates and researchers exploring the history of education in the United States, as well as academic administrators, faculty, and policy-makers with an interest in reform-based practices that have been successfully implemented in community colleges.

Proving the Value of Soft Skills Patricia Pulliam Phillips, Jack J. Phillips, Rebecca Ray, 2020-08-04 A Step-by-Step Guide to Showing the Value of Soft Skill Programs As organizations rise to meet the challenges of technological innovation, globalization, changing customer needs and perspectives, demographic shifts, and new work arrangements, their mastery of soft skills will likely be the defining difference between thriving and merely surviving. Yet few executives champion the expenditure of resources to develop these critical skills. Why is that and what can be done to change this thinking? For years, managers convinced executives that soft skills could not be measured and that the value of these programs should be taken on faith. Executives no longer buy that argument but demand the same financial impact and accountability from these functions as they do from all other areas of the organization. In Proving the Value of Soft Skills, measurement and evaluation experts Patti Phillips, Jack Phillips, and Rebecca Ray contend that efforts can and should be made to demonstrate the effect of soft skills. They also claim that a proven methodology exists to help practitioners articulate those effects so that stakeholders' hearts and minds are shifted toward securing support for future efforts. This book reveals how to use the ROI Methodology to clearly show the impact and ROI of soft skills programs. The authors guide readers through an easy-to-apply process that includes: business

alignment design evaluation data collection isolation of the program effects cost capture ROI calculations results communication. Use this book to align your programs with organizational strategy, justify or enhance budgets, and build productive business partnerships. Included are job aids, sample plans, and detailed case studies.

Counseling Practice During Phases of a Pandemic Virus Mark A. Stebnicki, 2021-07-02 The coronavirus pandemic is a historical trauma that lives in the mind, body, and spirit of humankind and, as such, requires a reconceptualization of how to effectively counsel individuals, families, communities, and underserved populations now and in the years to come. This foundational book addresses the medical, physical, mental, behavioral, and psychosocial health needs of adults, adolescents, and children as they experience increases in anxiety, depression, stress, substance use disorders, and suicidality due to the pandemic. Dr. Mark Stebnicki's pandemic risk and resiliency continuum theoretical model introduces clinical practice guidelines for assessment, prevention, and treatment that increase opportunities for optimal health and wellness. *Requests for digital versions from ACA can be found on www.wiley.com *To purchase print copies, please visit the ACA website here *Reproduction requests for material from books published by ACA should be directed to permissions@counseling.org

Public Company Update BDO USA, 2020-08-19 Developed for corporate financial reporting managers and independent auditors, this book will help them stay abreast of changes and modifications to the requirements for public companies, their management, and auditors. Included are: The latest pronouncements, regulations, and guidance issued by the SEC and PCAOB as they apply to the filings and audits of this reporting cycle. What these organizations are planning and/or

saying about the future. Key developments which may affect your company or auditing firm. In addition, emerging issues, trends, and new resources are provided so that accountants and financial managers can stay out front.
