The Searcher Tana French,2020-10-06 Best Book of 2020 New York Times |NPR | New York Post This hushed suspense tale about thwarted dreams of escape may be her best one yet . . . Its own kind of masterpiece. --Maureen Corrigan, The Washington Post A new Tana French is always cause for celebration . . . Read it once for the plot; read it again for the beauty and subtlety of French's writing. --Sarah Lyall, The New York Times Cal Hooper thought a fixer-upper in a bucolic Irish village would be the perfect escape. After twenty-five years in the Chicago police force and a bruising divorce, he just wants to build a new life in a pretty spot with a good pub where nothing much happens. But when a local kid whose brother has gone missing arm-twists him into investigating, Cal uncovers layers of darkness beneath his picturesque retreat, and starts to realize that even small towns shelter dangerous secrets. One of the greatest crime novelists writing today (Vox) weaves a masterful, atmospheric tale of suspense, asking how to tell right from wrong in a world where neither is simple, and what we stake on that decision.

The Searcher Christopher Morgan Jones,2017-03-21 An unlikely hero dives into the chaotic madness of Russia and Georgia's deadly covert conflict, in this rapid-fire tale of corporate espionage gone awry The acclaimed author of *The Silent Oligarch* and *The Jackal's Share*, Christopher Morgan Jones returns to a murky world where corporate spies and government agents battle far from the public eye. Focusing on Georgia, a mountainous republic threatened by Russia to the north, Morgan Jones carries readers deep into an ancient land of chilling compromises and foolhardy valor. Morgan Jones's novels center on a unique London corporate espionage firm spearheaded by Ike Hammer and Ben Webster, which follows criminal money anywhere it leads: be it Moscow or Dubai, Monaco or Kazakhstan, a bureaucrat's pockets or a politician's bank account. While Webster was the star of the earlier novels--investigating Russian businessmen and KGB operatives in *The Silent Oligarch*, Persian billionaires and Tehran terrorists in *The Jackal's Share*--in *The Searcher* the focus shifts provocatively to Hammer, making this a perfect starting point for old fans and new readers alike. Journeying to Georgia for the funeral of a friend, a journalist who inexplicably committed suicide after publishing the exposé of a lifetime, Webster mysteriously disappears. As the country rumbles ominously with civil strife and Russian aggression, Hammer rushes to Tbilisi to track down his missing friend. Once in Georgia,

Hammer is forced to confront the country's tragic chaos: civilians bombed either by cruel Russian spies or by deceitful Georgian soldiers; violent riots instigated by amoral oligarchs or government saboteurs; double and even triple agents who play all sides against each other at once. Threatened by enemies he cannot name and friends he cannot trust, Hammer rushes north--into the lawless mountains bordering Russia itself--to discover the true fate of his friend and Georgia's future. From the Hardcover edition.

Visit us online at www.1stWorldLibrary.ORG - - The first day of term cannot be considered a cheerful occasion. As the boys arrive on the previous evening, they have so much to tell each other, are so full of what they have been doing, that the chatter and laughter are as great as upon the night preceding the breaking-up. In the morning, however, all this is changed. As they take their places at their desks and open their books, a dull, heavy feeling takes possession of the boys, and the full consciousness that they are at the beginning of another half year's work weighs heavily on their minds. It is true enough that the half year will have its play, too, its matches, with their rivalry and excitement. But at present it is the long routine of lessons which is most prominent in the minds of the lads who are sitting on the long benches of the King's School, Canterbury.

The Blind Archer John Gregory Betancourt,1988-12-01 In a distant time, when Earth was flat and ruled by magic, wizards knew well the perils of sorcery. It was a lesson young Ker Orrum had yet to learn, for he had just discovered the flame of power within him, and he yearned to wield it. When the Oracle spoke of a journey and of a gem, Ker Orrum's fate was sealed: he would wrest the Great Ruby from the mighty god called the Blind Archer. Many others had tried; none had succeeded. Yet Ker Orrum was determined to fulfill his destiny, ignorant of the awesome forces he was about to unleash. Before it was over, his odyssey would sweep him into a horrifying world of vision without sight, where he would need more than magic to conquer the searing wrath of the Faceless Demons!

Invertebrates of Central Texas Wetlands Stephen Welton Taber,Scott B. Fleenor,2005 Along the San Marcos River, in and surrounding Palmetto

State Park in south central Texas, lie two square miles of relict ecosystem named the Ottine Wetlands. This area of swamps, marshes, and ponds is especially notable for its geographic isolation from other wetlands in southeastern Texas and for its fascinating intermixture of eastern North American plants and animals and western flora and fauna. The scientific importance of the Ottine Wetlands in the surrounding, relatively dry region was first recognized as early as 1928, yet the swamps and marshes have not been thoroughly studied. This is the first examination of the invertebrates--insects, crustaceans, molluscs, and others--that depend directly or indirectly on the abundant moisture of the wetlands. With nearly 290 full-color illustrations, this book describes and illustrates 241 species of flies, beetles, grasshoppers, wasps, ants, bugs, spiders, scorpions, snails, crustaceans, and millipedes that inhabit the Ottine waters, wetlands, and woodlands. In a brief introduction the authors describe the geological formation of the region and discuss the plant life of the area. They also provide a description of Palmetto State Park, with its easily accessed hiking and nature trails. Following the species descriptions, the book concludes with a glossary and a thorough bibliography of other relevant works on invertebrates. Scientifically thorough, yet readable, this book will appeal to nature lovers of all kinds.

Systematic Searching Paul Levay, Jenny Craven, 2019-01-15 In resource poor, cost saving times, this book provides practical advice on new methods and technologies involved in systematic searching and explores the role of information professionals in delivering these changes The editors bring together expert international practitioners and researchers to highlight the latest thinking on systematic searching. Beginning by looking at the methods and techniques underlying systematic searching, the book then examines the current challenges and the potential solutions to more effective searching in detail, before considering the role of the information specialist as an expert searcher. Systematic Searching blends theory and practice and takes into account different approaches to information retrieval with a special focus being given to searching for complex topics in a health-related environment. The book does not presume an in-depth prior knowledge or experience of systematic searching and includes case studies, practical

examples and ideas for further research and reading. The book is divided into three parts: Methods covers theoretical approaches to evidence synthesis and the implications that these have for the search process, including searching for complex topics and choosing the right sources. Technology examines new technologies for retrieving evidence and how these are leading to new directions in information retrieval and evidence synthesis. People considers the future of the information specialist as an expert searcher and explores how information professionals can develop their skills in searching, communication and collaboration to ensure that information retrieval practice is, and remains, evidence-based. Systematic Searching will be essential reading for library and information service providers and information specialists, particularly those in a health-related environment. It will also be of interest to students of library and information science, systematic reviewers, researchers and practitioners conducting complex searches in settings including social care, education and criminal justice.
