Old English Ecotheology BARAJAS,2021-08-16 1) This is the first monograph systematically to apply modern principles of ecotheology to early medieval literature and religious texts. 2) Whereas Dale (2017) provides ecocritical and ecotheological readings of the Exeter Book riddles alone, this monograph performs ecotheological readings of poems from multiple genres across the manuscript, and of the manuscript itself. 3. This book contributes to the field of pre-modern environmental humanities by considering the impact of medieval theology and environmental apocalypticism on some of the earliest examples of the English literary tradition

Ezekiel 40 Temple described by the prophet Ezekiel Explanations by Sonia Hidalgo Zurita (English) Sonia Hidalgo Zurita,2024-04-15 Technical solutions This book is based on the description provided in the 40th Chapter of the Book of Ezekiel, verse by verse, and the design has been further developed to cover all the necessary aspects to provide a faultless operation of the building; planned passageways to connect the buildings and vertical communication including stairways, elevators, terraces and balconies, thus allowing a fluid movement of people and a correct functioning of the Temple. Indeed, the planned building provides a full range of necessary services including toilets, places to rest, places to eat, places of worship for the Kohanim כֹּהֲנִים , areas for other Temple staff and more. As it has been foreseen and planned, the whole building shall encompass an underground level that will provide storage areas for the Temple itself, as well as for other dependencies. Also, considering that this shall be a place where a massive influx of people can be expected, it is also very important to anticipate the need for large parking areas. Personally, I consider that it would be wrong to locate parking space on the underground level, for this Temple shall be a Holy Place and thus it must be fully respected, so the parking areas must be established outside of the complex. Of course, security and safety concerns should also be seriously considered and planned. Therefore, it is my idea to build and adjoining separate building that will

provide parking space for visitors; if necessary, this additional building may also be developed on the city outskirts, establishing a public transportation service exclusive for the visitors to the Holy Temple, in order to avoid unnecessary long waits and traffic congestion. To properly achieve the purpose of providing an efficient meeting place, a practical point of encounter to thousands of visitors, the towers which are indeed present at every portal of the Holy Temple shall provide a proper vertical access to the buildings, equipped with stairways and elevators, as well as with many other services. Also, special attention has been put into the height level of the diverse atria. Although a great majority of authors represent them as having a single level, the text clearly mentions the presence of several stairways. Moreover, following inspiration from the buildings constructed by King Solomon (שְׁלֹמֹה), in the western part I plan to include two additional buildings that may serve as resting areas for the Levites (לְוִיִּם), that may be on duty at the Temple on any given day.

Marine One James Huston,2010-04-27 The president rushes across the South Lawn through a pounding thunderstorm to Marine One to fly to Camp David late at night. His advisers plead with him not to fly, but he insists. He has arranged a meeting that only three people in his administration know about. After fighting its way through the brutal thunderstorm on the way to Camp David, Marine One crashes into a ravine in Maryland, killing all aboard. The government blames the European manufacturer of the helicopter and accuses them of killing the president. Senate Investigations and Justice Department accusations multiply as Mike Nolan, a Marine Corps reserve helicopter pilot and trial attorney in civilian life, is hired to defend the company from the criminal investigations, then from a wrongful death lawsuit brought by the most notorious lawyer in America on behalf of the First Lady. Nolan knows that to prevail in the firestorm against his client, he has to find out what really caused Marine One to crash, and why the president threw caution aside to go to a meeting no one seems to know about. To clear his client, Nolan must win the highest-profile trial of the last hundred years with very little working for him, and everything working against him. Marine One expertly mixes political intrigue with courtroom drama and fast-paced action in the most exciting thriller of the year.
