Debt Man Walking will have you marching to a different financial beat, because Gen X's money needs are distinctive. Inside this book you'll discover: how to maximise your opportunities using investment debt that there are actually three types of debt: dumb, okay and great that your 'relative' youth + diversification = wealth how you can double your super nest egg in 15 minutes why life as a Gen Xer is an excellent adventure ... dude.

Common Sense from a Common Man Jacob C. Larson, 2011-03-10 Do you know what to do with a dollar? Regardless of where you work or what you are paid your answer to that fundamental question will often determine the level of your success financially. If your mental response to that question was to save 10% of the dollar, give away 10% of it and use what is left to spend, then you have answered correctly. By saving 10% of the dollar you begin to develop a financial reserve to be used towards developing additional means of creating money. By giving away 10% of the dollar you tap into the laws of giving and receiving which is explained in further detail in the book. What is left of the dollar is yours to spend and in reading this book your thoughts on how you choose to spend it will change. This book will give you insight into some of those basic money truths and show you how to apply them. Starting with the back ground of the author's quest for money creation. Common Sense about creating money helps you determine what sources you currently have available to you and gives you examples of how to develop those sources into viable resources of money creation. Throughout the course of time the fundamental basics about money have not changed. But the application of those basics have to become a part of your money creating plan. One that is unique to you and your situation. Only then will you put yourself in the position to Create Money.
