Careful Eating: Bodies, Food and Care Emma-Jayne Abbotts, Anna Lavis, Luci Attala, 2016-03-03 Critically reflecting on the interplays between food and care, this multidisciplinary volume asks 'why do individuals, institutions and agencies care about what other people eat?' It explores how acts of caring about food and eating shape and intervene in individual bodies as well as being enacted in and through those bodies. In so doing, the volume extends current critical debates regarding food and care as political mechanisms through which social hierarchies are constructed and both self and 'other' (re)produced. Addressing the ways in which eating and caring interact on multiple scales and sites - from public health and clinical settings to the market, the home and online communities - Careful Eating asks what 'eating' and 'caring' are, what relationships they create and rupture, and how their interplay is experienced in myriad spaces of everyday life. Taking account of this two-directional flow of engagement between eating and caring, the chapters are organized into three central theoretical dimensions: how eating practices mobilize discourses and forms of care; how discourses and practices of care (look to) shape particular forms of eating and food preferences;

and how it is often in the bodies of individual consumers that eating and care encounter one another.

Un-Junk Your Diet Desiree Nielsen, 2014-08-05 People don't need to be instructed to eat apples instead of potato chips. What we need is someone to inspire us to eat well and to show us just how powerful eating that apple can be. This person must be a trusted voice, one that can calm the informational clutter instead of adding yet another discordant voice to the pile. Desiree Nielsen is a dietitian, one of the public's most trusted sources of nutrition information. *Un-Junk Your Diet*, she teaches readers about anti-inflammatory dieting in a way that's engaging, funny, and approachable. This book begins with a call to action to help shake up perceptions of what food means to our bodies and illuminate all the ways that marketers co-opt healthy eating messages to coerce us into choosing food that is unworthy. In addition, an in-depth look at the fundamentals of nutrition—with a splash of myth busting—strengthens readers' abilities to resist the latest nutrition headline and continue making healthier choices. Because there is no one right way for every individual eater, Nielsen offers a brief exercise in self-discovery before providing four distinct plans for becoming healthier. They range from the gentle and gradual to the two-week kick start that appeals to both detox seekers and vacation slimmers.

Junk to Jewelry Brenda Schweder, 2012-11-19 This book presents 32 projects inspired by facets of everyday life: items from the hardware store; the jewelry box; the sewing basket; even the sportsman's lodge. Projects are presented in full color, with specific, easy-to-follow directions and informative tips. A stunning eight-page gallery provides further inspiration.
