To be able to give a girl what she most craves for, you have to put in the effort, particularly if you weren't born with a natural ability to use what you have to advantage. You're not alone, and what you may not realize is that even men with average sized penises can have a supernatural sex life, provided that they put in their homework and prepare themselves for the ride of their lives. You may wonder what kind of guy writes a book like this, but the fact is that I was brought up with brothers and also came into contact with many men during the course of my college years who fired blanks when it came to performance. They just didn't have what it takes ... or did they? I saw guys actually comparing sizes in the locker room, but when I suggested to them that their performance wasn't all about circumference or length, they scoffed the idea. I have to be honest. While I was enjoying a very healthy sex life and giving girls exactly what it was that they wanted, these were the same guys who continued to be losers because they were not prepared to take any responsibility for their performance. If you were one of them, hey buddy, it's now or never. You can increase the size of your penis. You can improve your thrust but most of all, you can enjoy extended lovemaking without disappointing either yourself or the lady you are lucky enough to be sharing

your bed with. My lady would happily give you a testimony because she knows I learned a very long time ago what makes a difference. Suffer from anxiety in bed? Have no fear. I have you covered in this book which shows you methods that you can employ to get over those performance issues and be confident that you have what it takes to please her. I have included details even for those men who have difficulties following prostate problems. So, if you are ready to change your performance in bed from mediocre to screaming level, step this way because the lady you have chosen to share your manhood with deserves the best you can give her. It isn't all about you and when you begin to accept that fact and get off your macho high horse, you can actually give yourself reason to be able to brag, even if it's only in the privacy of the bedroom. How To Grow Your Penis Daniel D'apollonio, 2016-12-20 This book has lots of actionable techniques on how to naturally increase the size and girth of your penis with no equipment. This might sound unpleasant but it's a fact: We are living in a masculine world. We are living in a world that is idolizing masculine values- even our own language indirectly conveys this fact. Many words and expressions such as man up that mean be strong/brave assert (though indirectly) how the world views masculinity. Among other issues such as general body physique, you'll find that most men actually care so much about improving sexual performance- they want to have longer sex and protect their masculine image in this respect and if they think the penis size is the deterrent, it can lead to stress and anxiety if there is no available, working solution. I believe this is only a natural response to the expectations of the world we live in and the societal demands we cannot escape from. Think about it; most women wouldn't want to give you any hope of having sex with you if they think you are not just 'gifted' down there. If you have a small penis, perhaps showering with men around you will constantly remind you of how lacking you are in that area of your life irrespective of how successful you are in other spheres of life. Obviously, your ego will be constantly bruised when the topic of penis sizes, sex and related topics come

up. And even when you go to urinals and other men who are 'gifted' well don't shy from holding theirs with pride for anyone who cares to look to see it, you will constantly feel bad about yourself and how lacking you are. Your self-confidence and self-esteem takes a nosedive, which subsequently affects other aspects of your life. If you are tired of being shy about your small penis and perhaps have experienced any of the problems above, let this book be the beginning of the end of your silent suffering. With this book, I'll be focusing on the 'member'. Do you have doubts about your penis size? If your answer is a sorry 'yes', don't worry; I will teach you how you make your penis larger (in girth and length) to change how you feel and think about yourself completely for the better, the natural way i.e. no tools/equipment needed!

Penis Size Christopher Trow, 2016-12-08 Are you sick of feeling like you don't measure up in the bedroom? Fed up of covering up in the locker room? If you're tired of being 'below average' then you've arrived at the right place. Penis size: The natural penis enlargement guide for a bigger, thicker, stronger and harder penis is the ultimate guide to building a much larger and functioning penis. This book is dedicated to increasing the size of your member, to overcome erectile dysfunction and premature ejaculation. I discuss my own journey down the road of penis enlargement and I review the majority of the products on the market today, what their claims are and my results. Inside is a list of the many exercises to increase your member from beginner to advanced. I have provided you with a beginner's program that you can start right now today. I also explain how to introduce new and more advanced exercises into your routine. The key is patience. You'll see results almost instantly as you begin these exercises, but it'll mainly be due to fluid retention at first so don't be discouraged if the effects subside after a short period of time. The trick is to put stress on the penis tissues through forcing blood in by using a jelqing method and just like working out any other muscle, the growing part takes place while we rest. Rest is very important, especially to get the results you desire, you need to be very patient as it can be very tempting to do as much as possible to get results. Each subject is discussed in detail; how to perform each technique properly and how to implement these exercises into a program that will increase the length, girth, hardness and the strength of your erection. You'll also learn how to correct penile curvature and how to prevent premature ejaculation. I've created this book to simply give back to the many people that are in the position I once was. Please note that this is not a quick fix, you'll have to be patient and stay dedicated to see the results you truly desire. If you want to overcome anxiety in the bedroom and gain the ultimate confidence to satisfy your lover, then here is all the information you will ever need.
