The Artistry of the Homeric Simile William C. Scott, 2012-01-15 An examination of the aesthetic qualities of the Homeric simile

The H̱aram of Jerusalem, 324-1099 Andreas Kaplony, 2002 From the Muslims' to the Crusaders' conquest Jerusalem is among the world's best known cities. Its most outstanding and constant feature is its shared holiness by three major confessions (Muslim, Jewish and Christian). Covering the Marwanid, the Abbasid, and the Faimid phase, this study describes not only the emergence of conceptions with which the three major confessions share this city, but also their interactions as well as the political circumstances and religious axioms which give each conception its specific shape. Looking for these conceptions of the holy area of the city the Haram has been chosen. This area of the former temple was highly significant to all three confessions. The analysis is based on a careful description of the Haram (focusing on topics like names and traditions, architecture, rituals and customs, visions and dreams), and on the establishment of as many parallels as possible. The result is a volume of astonishing depth and comprehensiveness [♦] As a compendium of sources it is unrivalled. *Journal of Palestine Studies* The excellent graphics added to each section, culminating in 103 figures, deserve special mention. Also impressive is Kaplony's generous handling of space; it seems that he was aiming for the display of all the texts available to him. [♦] taking into account Kaplony's treatment of the subject, one is tempted to compare it with that of the precision and care of Swiss watchmakers. Unless new sources come to light, which is not very likely, this book will be the standard work ♦ for many years to come. *Jerusalem Studies in Arabic and Islam* This book is an excellent contribution to the growing literature on Islamic Jerusalem, and it will indubitably be of interest to scholars and students of medieval Islamic history. *International Journal of Middle East Studies*.

Alchemy & Mysticism Alexander Roob, 2006 A classic, prize-winning novel about an epic migration and a lone woman haunted by the past in frontier Waipu. In the 1850s, a group of settlers established a community at Waipu in the northern part of New Zealand. They were led there by a stern preacher, Norman McLeod. The community had followed him from Scotland in 1817 to found a settlement in Nova Scotia, then subsequently to New Zealand via Australia. Their incredible journeys actually happened, and in this winner of the New Zealand Book Awards, Fiona Kidman breathes life and contemporary relevance into the facts by creating a remarkable fictional story of three women entangled in the migrations - Isabella, her daughter Annie and granddaughter Maria. McLeod's harsh leadership meant that anyone who ran counter to him had to live a life of secrets. The 'secrets' encapsulated the spirit of these women in their varied reactions to McLeod's strict edicts and connect the past to the present and future.

Godwin's Cabalistic Encyclopedia David Godwin, 1994 One of the most trusted reference works ever published on the Cabala has been revised and expanded. Featuring a new and more usable format, this book is a complete guide to cabalistic magick and gematria in which every demon, angel, power and name of God ... every Sephirah, Path, and Plane of the Tree of Life ... and each attribute and association is fully described and cross-indexed by the Hebrew, English, and numerical forms. All entries are now incorporated into one comprehensive dictionary. There are hundreds of new entries and illustrations, making this book even more beneficial for Cabalistic pathworking and meditation. It now has many new Hebrew words and names, as well as the terms of Freemasonry, the entities of the Cthulhu mythos, and the Aurum Solis spellings for the names of the demons of the Goetia. It contains authentic Hebrew spellings, and a new introduction that explains the uses of the book for meditation on God names. The Cabalistic schema is native to the human psyche, and Godwin's Cabalistic Encyclopedia will be an invaluable reference tool for all Cabalists, magicians, scholars and scientists of all disciplines.

Approaches to Homer, Ancient and Modern Robert J. Rabel,2005-12-31 Ten new essays, from a distinguished cast of (mainly) North American scholars, approach Homer with insights gained from the modern disciplines of psychology and anthropology, narratology, oral theory and cognitive research. But the contributors also attend to ancient modes of approach to the Homeric poems: linguistic and narratological, ethical and psychological. The volume focuses both on literary technique in the poems, and on the portrayal of characters and peoples, central and marginal.
