Jumping Fire Murry A. Taylor,2014-05-13 This “terrifying, grimly funny” memoir about fighting forest fires in Alaska offers “an affectionate portrait of a fraternity of daredevils” (The New Yorker). A Los Angeles Times Best Book of the Year Fighting fires since 1965, legendary smokejumper Murry A. Taylor finally hung up his chute after the summer of 2000—the worst fire season in more than fifty years. In *Jumping Fire*, Taylor recounts in thrilling detail one summer of parachuting out of planes to battle blazes in the vast, rugged wilderness of Alaska, with tales of training, digging fire lines, run-ins with bears, and the heroics of fellow jumpers who fell in the line of duty. This unique memoir, filled with humor, fear, tragedy, joy, and countless stories of man versus nature at its most furious, is a “tale of love and loss, life and death, and sheer hard work, set in an unforgiving and unforgettable landscape” (Publishers Weekly). “Filled with adventure, danger and tragedy.” —The New York Times Book Review “A beautifully crafted, wise yet thrilling book.” —Los Angeles Times

Reading Firefighting Michael J. Kitsock,Michael R. Glore,2008-01-01 From its inception in Colonial times to the modern challenges of today, the Reading Fire Department has battled natural disasters, airplane crashes, and block burners threatening the Pretzel City. The fire department has faithfully served the

city of Reading since 1771, having been established soon after Benjamin Franklin organized the nation's first volunteer fire department in Philadelphia. At one time the Reading Fire Department even boasted the largest all-volunteer fire department in the nation, consisting of more than 10,000 volunteer members operating from 14 fire stations throughout the city. Using the archives of the Reading Fire Department, the Reading Eagle, and the Historical Society of Berks County, Reading Firefighting documents the history and traditions of this dedicated fire department.

The Forgotten War Joseph F. Maraglino, 2016-08-31 While in the process of writing this book, a catastrophic event occurred in US firefighting history. An elite force of firefighters, nineteen in number (eighteen men and one woman), died while fighting a forest fire in Arizona. A wind shift placed this raging inferno head-on into this force. One TV announcer claimed the winds were gushing up to fifty miles per hour. Television programs showed viewers what these firefighters had to protect themselves. They lay flat on the ground and put this tentlike apparatus over them, which was probably made of a fire-retardant material, but this could not protect these heroes from thousand-degree temperatures and gusting winds, which turned this inferno similar to a flamethrower. As a firefighter, even though you've fought similar fires, many times you never take anything for granted. As you will see in this book, fires thought to be under control were turned into second and larger alarms. The red devil sometimes throws you a curve ball, and it can cost you your life and civilians' lives. While you have this story fresh in your minds, say a prayer for these firefighters who got burned alive. And on the eighth day, God created firefighters.

The Evolving Fireground Sean Gray, P.J. Norwood, 2018-07-02 Everything we do--or don't do--affects the fire. Deputy Chief P.J. Norwood and Captain Sean Gray discuss how fireground strategy and tactics have evolved in light of fire research conducted around the world. They discuss the fire tetrahedron and how fuel, heat, and air all affect a fire's growth or extinguishment. Gray and Norwood take the lessons learned from the research as well as their general knowledge of the fireground to illustrate safer and more effective ways to operate on the fireground. They discuss how to apply this new understanding of fire behavior to two of the fire service's most important tasks: search and fire attack. This book is an important resource for anyone wanting to put new fire dynamics research to action. You will learn: --How firefighting activities affect the fire tetrahedron --To stay safe while working in the flow path on the fireground --Search methods that isolate the firefighter and victim --Fire attack methods that minimize the air fed to the fire --Incident command size up and decision making

Young Men and Fire Norman MacLean, 2017-05-01 National Book Critics Circle Award Winner: “The terrifying story of the worst disaster in the history of the US Forest Service’s elite Smokejumpers.” —Kirkus Reviews A devastating and lyrical work of nonfiction, *Young Men and Fire* describes the events of August 5, 1949, when a crew of fifteen of the US Forest Service’s elite airborne firefighters, the Smokejumpers, stepped into the sky above a remote forest fire in the Montana wilderness. Two hours after their jump, all but three of the men were dead or mortally burned. Haunted by these deaths for forty years,

Norman Maclean puts together the scattered pieces of the Mann Gulch tragedy in this extraordinary book. Alongside Maclean's now-canonical *A River Runs Through It* and *Other Stories*, *Young Men and Fire* is recognized today as a classic of the American West. This edition of Maclean's later triumph—the last book he would write—includes a powerful new foreword by Timothy Egan, author of *The Big Burn* and *The Worst Hard Time*. As moving and profound as when it was first published, *Young Men and Fire* honors the literary legacy of a man who gave voice to an essential corner of the American soul. “A moving account of humanity, nature, and the perseverance of the human spirit.” —Library Journal “Haunting.” —The Wall Street Journal “Engrossing.” —Publishers Weekly
