The Family Firm Emily Oster, 2021-08-12 THE INSTANT NEW YORK TIMES BESTSELLER
'Chart a child's path with less stress and more optimization for healthy habits and future success' Time From age 5 to 12, parenting decisions get more complicated and have lasting consequences. What's the right kind of school? Should they play a sport? When's the right time for a phone? Making these decisions is less about finding the specific answer and more about taking the right approach. Along with these bigger questions, Oster investigates how to navigate the complexity of day-to-day family logistics. The Family Firm is a smart and winning guide to how to think more clearly - and with less ambient stress - about the key decisions of these early years.

Financial Engineering and Computation Yuh-Dauh Lyuu, 2002 A comprehensive text and reference, first published in 2002, on the theory of financial engineering with numerous algorithms for pricing, risk management, and portfolio management.

Finite Difference Computing with Exponential Decay Models Hans Petter Langtangen, 2016-06-10 This text provides a very simple, initial introduction to the complete scientific computing pipeline: models, discretization, algorithms, programming, verification, and visualization. The pedagogical strategy is to use one case study - an ordinary differential equation describing exponential decay processes - to illustrate fundamental concepts in mathematics and computer science. The book is easy to read and only requires a command of one-variable calculus and some very basic knowledge about computer programming. Contrary to similar texts on numerical methods and programming, this text has a much stronger focus on implementation and teaches testing and software

engineering in particular.

The Gig Economy Brian Dolber, Michelle Rodino-Colocino, Chenjerai Kumanyika, Todd Wolfson, 2021-05-30 This edited collection examines the gig economy in the age of convergence from a critical political economic perspective. Contributions explore how media, technology, and labor are converging to create new modes of production, as well as new modes of resistance. From rideshare drivers in Los Angeles to domestic workers in Delhi, from sex work to podcasting, this book draws together research that examines the gig economy's exploitation of workers and their resistance. Employing critical theoretical perspectives and methodologies in a variety of national contexts, contributors consider the roles that media, policy, culture, and history, as well as gender, race, and ethnicity play in forging working conditions in the 'gig economy'. Contributors examine the complex and historical relationships between media and gig work integral to capitalism with the aim of exposing and, ultimately, ending exploitation. This book will appeal to students and scholars examining questions of technology, media, and labor across media and

communication studies, information studies, and labor studies as well as activists, journalists, and policymakers.

Management Controlling and Governance of Family Businesses Antonio

Leotta,2020-08-18 This book addresses a selection of major topics in family businesses, namely 'managerialization' and 'professionalization', succession, internationalization, access to financial markets, and how governance and control systems can help family firms respond to common problems inherent in the business. Written by prominent experts, the respective chapters highlight the interactions between these topics in order to develop a systems view of the distinctive challenges, and of the potential roles that governance and control systems can play in these contexts. The book is divided into two main parts, the first of which reviews the current literature and develops a comprehensive theoretical framework. Based on these theoretical insights, the second part then interprets and discusses the empirical evidence, including case studies on family-run firms in Italy.

Cribsheet Emily Oster,2019-04-23 From the author of Expecting Better and The Family

Firm, an economist's guide to the early years of parenting. “Both refreshing and useful. With so many parenting theories driving us all a bit batty, this is the type of book that we need to help calm things down.” —LA Times “The book is jam-packed with information, but it’s also a delightful read because Oster is such a good writer.” —NPR With Expecting Better, award-winning economist Emily Oster spotted a need in the pregnancy market for advice that gave women the information they needed to make the best decision for their own pregnancies. By digging into the data, Oster found that much of the conventional pregnancy wisdom was wrong. In Cribsheet, she now tackles an even greater challenge: decision-making in the early years of parenting. As any new parent knows, there is an abundance of often-conflicting advice hurled at you from doctors, family, friends, and strangers on the internet. From the earliest days, parents get the message that they must make certain choices around feeding, sleep, and schedule or all will be lost. There's a rule—or three—for everything. But the benefits of these choices can be overstated, and the trade-offs can be profound. How do you make your own best decision? Armed with the data, Oster finds that the conventional wisdom doesn't always hold up. She debunks myths around breastfeeding (not a panacea), sleep training (not so bad!), potty training (wait until they're ready or possibly bribe with M&Ms), language acquisition (early talkers aren't necessarily geniuses), and many other topics. She also shows parents how to think through freighted questions like if and how to go back to work, how to think about toddler discipline, and how to have a relationship and parent at the same time. Economics is the science of decision-making, and Cribsheet is a thinking parent's guide to the chaos and frequent misinformation of the early years. Emily Oster is a trained expert—and mom of two—who

can empower us to make better, less fraught decisions—and stay sane in the years before preschool.

Expecting Better Emily Oster, 2014-06-24 “Emily Oster is the non-judgmental girlfriend holding our hand and guiding us through pregnancy and motherhood. She has done the work to get us the hard facts in a soft, understandable way.” —Amy Schumer *Fully Revised and Updated for 2021* What to Expect When You're Expecting meets Freakonomics: an award-winning economist disproves standard recommendations about pregnancy to empower women while they're expecting. From the author of Cribsheet and The Family Firm, a data-driven decision making guide to the early years of parenting Pregnancy—unquestionably one of the most profound, meaningful experiences of adulthood—can reduce otherwise intelligent women to, well, babies. Pregnant women are told to avoid cold cuts, sushi, alcohol, and coffee without ever being told why these are forbidden. Rules for prenatal testing are similarly unexplained. Moms-to-be desperately want a resource that empowers them to make their own right choices. When award-winning economist Emily Oster was a mom-to-be herself, she evaluated the data behind the accepted rules of pregnancy, and discovered that most are often misguided and some are just flat-out wrong. Debunking myths and explaining everything from the real effects of caffeine to the surprising dangers of gardening, *Expecting Better* is the book for every pregnant woman who wants to enjoy a healthy and relaxed pregnancy—and the occasional glass of wine.

Sales Management Jeff Tanner, John F. Tanner, Robert C. Erffmeyer, Earl D. Honeycutt, 2013-07-29 For courses in sales management. *Sales Management*, 1/e is the

only book on the market that prepares students to become effective sales managers in today's hyper-competitive, global economy-by integrating current technology, research, and strategic thinking activities.

Leading Public Sector Innovation Christian Bason, 2010 In a time of unprecedented turbulence, how can public sector organisations increase their ability to find innovative solutions to society's problems? *Leading Public Sector Innovation* shows how government agencies can use co-creation to overcome barriers and deliver more value, at lower cost, to citizens and business. Through inspiring global case studies and practical examples, the book addresses the key triggers of public sector innovation. It shares new tools for citizen involvement through design thinking and ethnographic research, and pinpoints the leadership roles needed to drive innovation at all levels of government. *Leading Public Sector Innovation* is essential reading for public managers and staff, social innovators, business partners, researchers, consultants and others with a stake in the public sector of tomorrow.

Bébé Day by Day Pamela Druckerman, 2013-02-12 À la carte wisdom from the international bestseller *Bringing up Bébé* In *BRINGING UP BÉBÉ*, journalist and mother Pamela Druckerman investigated a society of good sleepers, gourmet eaters, and mostly calm parents. She set out to learn how the French achieve all this, while telling the story of her own young family in Paris. *BÉBÉ DAY BY DAY* distills the lessons of *BRINGING UP BÉBÉ* into an easy-to-read guide for parents and caregivers. How do you teach your child patience? How do you get him to like broccoli? How do you encourage your baby to sleep through the night? How can you have a child and still have a life? Alongside these time-

tested lessons of French parenting are favorite recipes straight from the menus of the Parisian crèche and winsome drawings by acclaimed French illustrator Margaux Motin. Witty, pithy and brimming with common sense, BÉBÉ DAY BY DAY offers a mix of practical tips and guiding principles, to help parents find their own way.

From Strength to Strength Arthur C. Brooks,2022-02-15 The roadmap for finding purpose, meaning, and success as we age, from bestselling author, Harvard professor, and the Atlantic's happiness columnist Arthur Brooks. Many of us assume that the more successful we are, the less susceptible we become to the sense of professional and social irrelevance that often accompanies aging. But the truth is, the greater our achievements and our attachment to them, the more we notice our decline, and the more painful it is when it occurs. What can we do, starting now, to make our older years a time of happiness, purpose, and yes, success? At the height of his career at the age of 50, Arthur Brooks embarked on a seven-year journey to discover how to transform his future from one of disappointment over waning abilities into an opportunity for progress. From Strength to Strength is the result, a practical roadmap for the rest of your life. Drawing on social

science, philosophy, biography, theology, and eastern wisdom, as well as dozens of interviews with everyday men and women, Brooks shows us that true life success is well within our reach. By refocusing on certain priorities and habits that anyone can learn, such as deep wisdom, detachment from empty rewards, connection and service to others, and spiritual progress, we can set ourselves up for increased happiness. Read this book and you, too, can go from strength to strength.
