

First Class Trader

Jacob Elder

Trade Forex with Confidence Ramesh Selvarajoo,2017-03-23 This book is an indispensable tool for an individual trader who are struggling to build a successful trading system and strategy. The first part of the book provides a full bird's eye view of forex fundamentals and some of the key elements in forex that are conveniently omitted and can be costly to a trader when such advice is not taken. After establishing a strong forex foundation, in the second part, the book dives in to guide the reader in ways of designing, optimizing, and evaluating a forex trading strategy using a quantitative approach without complex mathematical formulation. The author's main goal for this book is to equip retail trader with the ability to generate and build their trading system using quantitative rule based approach where only hedge funds and institutional firms have the know-hows. The author introduces a unique 10/20/30 Rule for trading system development, and walks with the reader with a real case example. Showing how a mediocre system can be transformed to a winner by implementing the components of the 10/20/30 Rule. Also, the 10/20/30 Rule is not about backtesting a system. Backtesting a poor system will produce a poor backtested result. Under the hood, the 10/20/30 Rule uses a powerful yet simple method that brings out the full potential of a trading system that you plan to develop. These are powerful techniques that are revealed in this book.

A First-Class Catastrophe Diana B. Henriques,2017-09-19 The definitive account of the crash of 1987, a cautionary tale of how the U.S. financial system nearly collapsed ... Monday, October 19, 1987, was by far the worst day in Wall Street history. The market fell 22.6 percent--almost twice as bad as the worst day of 1929--equal to a loss of nearly 5,000 points today. But Black Monday was more than just a one-day market crash; it was seven years in the making and threatened the entire U.S. financial system. Drawing on superlative archival research and dozens of original interviews, the

award-winning financial journalist Diana B. Henriques weaves a tale of ignored warnings, market delusions, and destructive decisions, a drama that stretches from New York and Washington to Chicago and California. Among the central characters are pension fund managers, bank presidents, government regulators, exchange executives, and a pair of university professors whose bright idea for reducing risk backfires with devastating consequences. As the story hurtles toward a terrible reckoning, the players struggle to avoid a national panic, and unexpected heroes step in to avert total disaster. For thirty years, investors, bankers, and regulators have failed to heed the lessons of Black Monday. But with uncanny precision, all the key fault lines of the devastating crisis of 2008--breakneck automation, poorly understood financial products fueled by vast amounts of borrowed money, fragmented regulation, gigantic herdlike investors--were first exposed as hazards in 1987. *A First-Class Catastrophe* offers a new way of looking not only at the past but at our financial future as well.--Dust jacket.

Low Risk High Reward Forex Trading and Investing for Beginners Joseph

Moneta,2015-08-31 Everyone has to start somewhere in the business of making money with money. You must have the right information from the very first day if you want to become successful in this business. You don't need to know everything all at one time nor could you, and you certainly don't have to learn how to trade every asset class there is. You should concentrate on becoming a specialist versus being a generalist. This book affords readers who are brand new to Forex trading and investing the opportunity to really learn and expand their knowledge base as brand new Forex traders. This book should be a must read for novice and inexperienced traders with no experience looking to build on their education foundations and strategies. By knowing what to study from the start as a beginner you can greatly reduce the huge learning curve there is in this business to be able to make money in the live markets on a consistent daily basis right away. Investing and trading is the best business in the world as far as I am concerned. The beautiful thing about the financial market is that it is always going to be there!! It is the only business I know of where you can do it from anywhere on the planet there is WIFI so what could be wrong with kicking back on your boat at the marina or at the beach on a beautiful sunny day or flying to Europe to meet friends for the weekend and still be making unlimited amounts of money the whole time you're doing it. You always have a

chance to make money. It's virtually 24 hours a day, just like a bank ATM right? This book cuts right to the core and lays out a progressive foundation of principles on which you can begin trading Forex for high profit as long as you have done the education and training the right way from the first day. This book will start any brand new Forex investor, swing trader or position trader the right way to begin driving their money train down the right tracks directly to the bank. This book is short; it takes the complexities of learning currency trading and pares it down to the essentials plus a few extra tips from professionals. It does not have to be long to give you the basic information you need to actually make money trading Forex. It is all up to you though, to take the information provided here and act on it with a vengeance if you want to make money right away once you begin trading live with real money. You will be a better and more prepared trader after reading this book. Use this book as an overview or a guide if you will, to what to study and learn first to become consistently profitable trading Forex for people who are brand new with zero experience. I give you concise information as to what to learn first and what to look for as far as further information is concerned. I tell you only the most critical things to learn first because those are absolutely the most important and the ones that will make you money right away if you do them. It would take someone just starting out years to figure out what is in this book before they could make any real money in the live markets consistently. Remember you don't need to know everything all at once but merely what makes you money. When you are done reading this entire book you will have an excellent basic explanation of what and what not to do before you even study anything or do any kind of education or spend any unnecessary money. The information will put you on the fast track to becoming a successful self-directed Forex trader with very little money invested.

Smart Trader Rich Trader Josef Argent, Everyone has to start somewhere in the business of

How to Day Trade Ross Cameron, 2015-10-29 Success as a day trader will only come to 10 percent of those who try. It's important to understand why most traders fail so that you can avoid those mistakes. The day traders who lose money in the market are losing because of a failure to either choose the right stocks, manage risk, and find proper entries or follow the rules of a proven strategy. In this book, I will teach you trading techniques that I personally use to profit from the market. Before diving into the trading strategies, we will first build your foundation for success as a trader by discussing the two most important skills you can possess. I like to say that a day trader is two things: a hunter of volatility and a manager of risk. I'll explain how to find predictable volatility and how to manage your risk so you can make money and be right only 50 percent of the time. We turn the tables by putting the odds for success in your favor. By picking up this book, you show dedication to improve your trading. This by itself sets you apart from the majority of beginner traders.
