Hadriaan Beverland's De Peccato Originali (On Original Sin) 1679 Hadriaan Beverland (1650-1716),2023-08-28 In his *De peccato originali* (1679), Hadriaan Beverland (1650-1716) presented his thesis that sex was the original sin and a vital part of human nature. Building on contemporary insights into the history of the text of the Bible, he criticised the hypocritical attitudes among the religious and social elite of his day concerning the biblical text and sexual morality. The work became notorious in the seventeenth century and led to its author's banishment. In the eighteenth century, it exerted considerable influence on the way in which many in Europe came to see sexuality. This annotated edition with English translation also includes a comprehensive introduction that includes a contextualization of the *De peccato originali* and its impact.

Abraham Mignon 1640-1679 Magdalena Kraemer-Noble,2007 Celebrated in literature and Hollywood movies, the lives of the Ancient Egyptian queens have become synonymous with power, beauty, and glory. Cleopatra, Nefertiti, Nefertari and Hatchepsut are as well known today as they were in life. As the wives, mothers, or daughters of pharaohs, their influence on three thousand years of ancient Egyptian history is indisputable. This book offers a unique and heretofore unexplored insight into the key role they played and unveils the true nature of their political and spiritual influence, which was very different from the cliched portrayals most readers are familiar with. Some of the questions answered in this book include: What was the real status of the Egyptian queens? What was the status of second wives and concubines? What was their role in religious celebrations? What was their beauty regime?
