Roman Wolfe 3 Bill Sheehan,2012-10 What kind of maniacal deviant preys on young teenage girls and viciously terrorizes a small town in upstate New York? Roman Wolfe, a.k.a. Wolfman, is a Vietnam combat veteran who had specialized in the stealthy, nighttime-stalking and killing of the enemy. After the war Roman gets a college education and becomes an elementary school teacher who is still haunted by his violent war experiences on the killing fields and in the jungles of Vietnam. Roman feels the need to end his teaching career when his school's community is informed about his specialized actions in Vietnam and many parents react negatively. When most parents no longer want their children placed in Roman's classroom, he resigns his teaching position and becomes a Private Investigator who prefers to handle cases involving children. Shortly after becoming a PI, his two high-ranking state trooper friends ask him for help as a consultant in solving a serial murders case involving the killing of female children. Now Wolfman must emerge again to hunt a sadistic, but intelligent killer.

Spacehart Gloria Upper,2013-06-11 It is 2275, and the Correctionist Reformist Imperium rules a war-torn and ravaged Earth. Condemned for resisting the slaughter of the last fir trees in the North Territories, Julianna Hart, a feisty and courageous sixty-one-year old activist and astronaut is sent on a one-way Deep Delve mission to a distant galaxy. Alone in an ancient spaceship without communication or flight controls, Julianna is headed for Noreusa, an unexplored planet her ship is programmed to conquer and exploit. Separated from all she loves, Captain Spacehart leaves behind her long time partner, Pharchy, her close friend Sahma, and two adult sons—as well as memories of her deceased half-alien daughter, born in prison when she was barely eighteen. Impetuous and passionate, with a weakness for aliens, Spacehart is determined to foil her mission and return to Earth. But her plans change when she realizes an alien craft is stalking her waiting to attack. Alone in her tiny, unarmed ship, Spacehart knows there is no escape. Quickly outnumbered, she is captured and imprisoned on dwarf planet Visanak, where she must face a plethora of new challenges. In this science fiction, adventure, and love story, Spacehart must decide whether to stay on a nearly

idyllic planet where "All is One" or attempt a perilous return to a possibly dying Earth. Cover Art: Wassily Kandinsky, "Komposition IV," 1911. (R.383.), © Artists Rights Society (ARS). New York/ADAGP, Paris

The Ages of The Flash Joseph J. Darowski, 2019-05-02 While many American superheroes have multiple powers and complex gadgets, the Flash is simply fast. This simplicity makes his character easily comprehensible for all audiences, whether they are avid comic fans or newcomers to the genre, and in turn he has become one of the most iconic figures in the comic-book industry. This collection of new essays serves as a stepping-stone to an even greater understanding of the Flash, examining various iterations of his character--including those of Jay Garrick, Barry Allen, Wally West and Bart Allen--and what they reveal about the era in which they were written.

Thought Against Tomorrow Jo Walton,2021-01-09 Here is a small part of my soul I pulled out and shaped like this It is still bleeding, but only a little It won't mess your hands much, And you can wash them after. For years Hugo and Nebula award winning writer Jo Walton has been writing poems and posting them online, first on usenet, then on livejournal, more recently on Patreon. Some have been collected in chapbooks and in Starlings, but most of them have just stayed online. Here at last is a comprehensive collection of her poems from 1996-2020 with table of contents and an index of first lines, and arranged in thematic categories, Love Pain and Death, New Myths For Old Gold, Red As Blood, By Their Spaceships Ye Shall Know Them, Shakespeare, The News, The Turning Year, and Whimsy. Some of the poems are fantastical, others are about everyday life, or politics. If there's one thing that links Walton's very different work it's the quality of where did that come from? Here we have a poem about lions becoming extinct after being persecuted by martyrs, one about Henry V's conquest of Constantinople, alongside one about a skydiver friend who died and fell up into the sky. These poems, written over decades, are quirky, unpredictable, and have excellent scansion.

Swan Bones Bethany Bowman,2018-06-20 Swan Bones is a book about small towns and the people who inhabit them. Its poems follow the author from the hills of the Mohawk Valley to the cornfields of East Central Indiana, where she's lived for nearly a decade. They deal in everyday ironies, and it is in these spaces that Bowman crafts a unique vision defined by her stark honesty, distinctive lyricism, and persistent hope. She proffers quartz crystals despite layoffs; moonflowers, which only open when night falls. The poems practice a hard faith, and invite us to do the same.
