Regulated Chemicals Directory 1994 ChemADVISOR Inc. Staff,2012-12-06 The Regulated Chemicals DirectoryTM is meant to be a convenient source of information for everyone who needs to keep up-to-date regarding the regulations and recommendations that pertain to chemical substances. The RCDTM is designed to be the first reference book to consult when beginning compliance efforts. Every regulatory or advisory list used in the RCDTM is keyed to its source, to help readers who need more detailed information on regulations, recommendations, or guidelines readily locate source documents. Some organizations now center their compliance efforts on computerized information stored in cross-referenced databases. A unique feature of the RCDTM is the availability of an electronic version suitable for use on IBM-compatible personal computers, download onto mainframes and CD-ROM players. Both the print and electronic versions are updated with the same timeliness. For more information on the electronic versions of the Regulated Chemicals DirectoryTM, contact Chapman & Hall directly (One Penn Plaza, New York, NY 10119, fax-212-564-1505). Many companies working on product development need information on what may be regulated in the future. The RCDTM provides selected information on pending regulations and in-progress testing lists, which can provide a starting place for tracking future regulatory considerations. Information for the RCDTM is continually gathered and updated. Suggestions from readers for information that should be added to the RCDTM or for other ways to improve the book are welcomed by Chapman & Hall. - Patricia L. Dsida, Pres. Flashing Lights John D Parker,2023-12-06 Get your weird and fun fix with these super-short stories of the strange. From ghosts to galactic guests and everything in the gaps. Riddled with riddles, tons of twists and turns, plenty of pulp, and some truly tender moments. Read them all or pick and choose which ones to read by genre. Flashing Lights: Short and Weird is a collection of sixteen flash fiction and short stories in several subgenres of speculative fiction. The collection includes aliens and ghosts, portals through time and space, plenty of humor, a bit of horror and suspense, and some serious classic sci-fi. Embark on a mission to explore the breadth of speculative short fiction. Each story is preceded by a content rating (G, PG, PG-13) and its genre tags. And is followed by an about section, describing the story's prompt, inspiration, homages, and the occasional Easter egg. Use the index by story type and genre to jump to the stories that interest you most. But you are safe exploring from beginning to end. You may discover a genre you didn't know you liked. The collection also includes six bonus ten-word stories with a short commentary about each and a secret bonus short work. Look for more story collections and novels in the Flashing Lights series.
