*A Youth Basketball Coaching Guide* Danford Chamness, 2000-10 This book is written for you who are coaching children in basketball. We stress how to teach children this complex game and to have fun doing it. The book covers all facets of the game from how to dribble to strategies and tactics. Coaching children should be fun for everyone, for you, for the parents and for the

children. As a coach, we cover the teaching attitude and methods. We always keep in mind that the game is for the children and not for the adults. Winning isn't everything, but learning to play well and wanting to win is. We take the children from first through the eighth grades and break them into four categories. In each category we discuss the players needs and abilities, what they are capable of in both the physical and emotional sense, and their limitations. We have defined the coach's role, the parent's role and the player's role.

**The Ordinary Basketball Coach's Guide to Building a Better Program** Kevin Scarbrough,2020-11-09 If you are a high school basketball coach, you are probably just like me. Most of my life I attended clinic after clinic listening to famous college coaches tell me about their programs. I purchased books and read as many philosophies as a young man could read. I watched so many hours of video. I knew offense and defense as good as any coach in my field but wasn't really getting the results I wanted. But then I realized my approach was totally wrong. I don't have th

Game Strategies and Tactics for Basketball Kevin Sivils,2009-09 Game Strategy and Tactics for Basketball: Preparing to Win the Sideline Battles is both a how-to book and a guide for how to plan strategy and tactics for basketball for an entire season or an individual game. Coaches often focus on X's and O's and overlook how and when a particular offense or defense should be applied and used during a game. Game Strategy and Tactics for Basketball: Preparing to Win the Sideline Battles serves as a planning guide and a master checklist for all the possible situations that a coach will face during a season. The book includes both traditional and some out-of-the-box strategies to the common situations that coaches face and provides both the pros and the cons of the approaches described. It is not the author's intention to tell each coach exactly what to do, but to serve as a guide in the decision making process. About the author: A 24 year veteran of the coaching profession, with twenty-two of those years spent as a varsity head coach, Coach Kevin Sivils amassed 464 wins and his teams earned berths in the state playoffs 19 out of 22 seasons with his teams advancing to the state semi-finals three times. An eight time Coach of the Year Award winner, Coach Sivils has traveled as far as the Central African Republic to conduct coaching clinics. Coach Sivils

first coaching stint was as an assistant coach for his college alma mater, Greenville College, located in Greenville, Illinois. His teams were always known for their discipline, intense effort, execution of fundamentals, and team play. Coach Sivils is also the owner of KCS Basketball Enterprises, LLC, an enterprise focused on providing coaches with information to improve their knowledge of the game of basketball and their ability to coach. If you have been looking for a rigorously thorough handbook on basketball tactics and strategy, you have found it Coach Doug Porter - Head Women's Coach, Olivet Nazarene University National Scoring leaders: 2005, 2006, 2007, 2008 Chicagoland Collegiate Athletic Conference Champions: 2000, 2005, 2007 His thought provoking approach makes for an easy read and will definitely stimulate thought and, most likely, change the way you go about coaching Rusty Rogers - Two time NAIA Division II Women's National Championship Coach and Two time NAIA National Coach of the Year Coach Sivils clearly brings his experience in the game of basketball to his writing. He is a great teacher who acquired great gifts over the years and it's great he wants to share those gifts with other coaches. Bill Reidy - Long time successful high school and AAU coach

**Coaching the System** Gary Smith, Doug Porter, 2011 If you are interested in Coaching the System, you must be either desperate or crazy! At least that's what people told authors Gary Smith and Doug Porter when they began investigating this revolutionary style of play almost a decade ago. Ignoring the critics, they went on to coach the two highest scoring teams in men's and women's college basketball history: the University of Redlands, California (132.4 ppg), and Olivet Nazarene University in Illinois (104.1 ppg). From its origins as the Sonny Allen Numbered Fast Break, to Paul Westhead's Loyola Marymount up-tempo game, the System has been around for decades. But when Grinnell College's David Arseneault added platoon substitution patterns and hockey-style short shifts, placing a priority on creating three-point looks for his preferred shooters, the System truly came into its own. Smith and Porter learned the Grinnell version of the System from Arseneault himself, adapting it to fit their situations coaching men's and women's programs. In the past decade their teams set 32 NCAA and NAIA records between them, including most 100-point games in a season (Redlands-23; Olivet-24). Olivet also holds national records for defensive turnovers (36.3 per game) assists (23.8 per game), and three pointers made in a season (509, 15.6 per game). Redlands owns college basketball records (all levels) for field goal attempts (110.3 per game), and three-pointers made (23.8 per game). Now you can learn every detail of this devastating full court run-and-press attack that allows you to dictate tempo and force your opponents out of their normal game plan, capturing the imagination of your players and community, and making coaching fun again! You'll learn exactly how and why the System works, how to adapt it to fit your personnel, suggestions for conditioning players, organizing System practices, and even ways to respond to the inevitable criticisms that come with playing the game this far outside the box. Other chapters offer complete descriptions of the Redlands Attack (Coach Smith's variation of the Grinnell offense), the LMU Attack (which Westhead popularized and used to advance to the NCAA regional finals in 1990), and the Olivet Attack (Coach Porter's hybrid version of the LMU and Dribble-Drive offenses). Finally, you'll learn System defensive principles, terminology, and how to cover every conceivable press attack and press-breaker alignment. Also included are 57

drills and over 300 diagrams to illustrate System offense and defense, providing you with a complete blueprint for Coaching the System!

If you have players who aren't great shooters, but who can hit mid-range shots, I strongly recommend this offense and book for you!
