Piano Literature for Teaching and Performance Jane Magrath,2021-11-15 An invaluable resource for teachers, students, and performers, this title features works from the Baroque through Contemporary periods. The book contains annotations with composer information, musical characteristics, and pedagogical considerations; newer works by living composers; listings from under-represented and women composers; and suggested grade levels from 1 through 10.

A Natural History of the Piano Stuart Isacoff,2011-11-15 A beautifully illustrated, totally engrossing celebration of the piano, and the composers and performers who have made it their own. With honed sensitivity and unquestioned expertise, Stuart Isacoff—pianist, critic, teacher, and author of *Temperament: How Music Became a Battleground for the Great Minds of Western Civilization*—unfolds the ongoing history and evolution of the piano and all its myriad wonders: how its very sound provides the basis for emotional expression and individual style, and why it has so powerfully entertained generation upon generation of listeners. He illuminates the groundbreaking music of Mozart, Beethoven, Liszt, Schumann, and Debussy. He analyzes the breathtaking techniques of Glenn Gould, Oscar Peterson, Vladimir Ashkenazy, Arthur Rubinstein, and Van Cliburn, and he gives musicians including Alfred Brendel, Murray Perahia, Menahem Pressler, and Vladimir Horowitz the opportunity to discuss their approaches. Isacoff delineates how classical music and jazz influenced each other as the uniquely American art form progressed from ragtime, novelty, stride, boogie, bebop, and beyond, through Scott Joplin, Fats Waller, Duke Ellington, Bill Evans, Thelonious Monk, Chick Corea, Herbie Hancock, Cecil Taylor, and Bill Charlap. *A Natural History of the Piano* distills a lifetime of research and passion into one brilliant narrative. We witness Mozart unveiling his monumental concertos in Vienna's coffeehouses, using a special piano with one keyboard for the hands and another for the feet; European virtuoso Henri Herz entertaining rowdy miners during the California gold rush; Beethoven at his piano, conjuring healing angels to console a grieving mother who had lost her child; Liszt fainting in the arms of a page turner to spark an entire hall into hysterics. Here is the instrument in all its complexity and beauty. We learn of the incredible craftsmanship of a modern Steinway, the peculiarity of specialty pianos built for the Victorian household, the continuing innovation in keyboards including electronic ones. And most of all, we hear the music of the masters, from centuries ago and in our own age, brilliantly evoked and as marvelous as its most recent performance. With this wide-ranging volume, Isacoff gives us a must-have for music lovers, pianists, and the armchair musician.

The Songs of Hollywood Philip Furia,Laurie Patterson,2010-04-07 From *Over the Rainbow* to *Moon River* and from Al Jolson to Barbra Streisand, *The Songs of Hollywood* traces the fascinating history of song in film, both in musicals and in dramatic movies such as *High Noon*. Extremely well-illustrated with 200 film stills, this delightful book sheds much light on some of Hollywood's best known and loved repertoire, explaining how the film industry made certain songs memorable, and highlighting important moments of film history along the way. The book focuses on how the songs were presented in the movies, from early talkies where actors portrayed singers performing the songs, to the Golden Age in which characters burst into expressive, integral song—not as a performance but as a spontaneous outpouring of feeling. The book looks at song presentation in 1930s classics with Fred Astaire and Ginger Rogers and in 1940s gems with Judy Garland and Gene Kelly. The authors also look at the decline of the genre since 1960, when most original musicals were replaced by film versions of Broadway hits such as *My Fair Lady*.

Playing (Less) Hurt Janet Horvath,2010-04-01 (Book). Making music at any level is a powerful gift. While musicians have endless resources for learning the basics of their instruments and the theory of music, few books have explored the other subtleties and complexities that musicians face in their quest to play with ease and skill. The demands of solitary practice, hectic rehearsal schedules, challenging repertoire, performance pressures, awkward postures, and other physical strains have left a trail of injured, hearing-impaired, and frustrated musicians who have had few resources to guide them. *Playing Less Hurt* addresses this need with specific tools to avoid and alleviate injury. Impressively researched, the book is invaluable not only to musicians, but also to the coaches and medical professionals who work with them. Everyone from dentists to orthopedists, audiologists to neurologists, massage therapists and trainers will benefit from Janet Horvath's coherent account of the physiology and psyche of a practicing musician. Writing with knowledge, sympathetic insight, humor, and aplomb, Horvath has created an essential resource for all musicians who want to play better and feel better.

Good Music Brighter Children Sharlene Habermeyer,2014-01-24 This is a magnificent book--one of the most original and stunning in the field of modern Chinese literature. The eight studies that comprise the book unfold a vast canvas of twentieth-century China, one that is filled with terror, violence, phantasmagoria, and death. This is indeed the dark, ghostly side of the 'Chinese Modern.' Wang's prodigious command of primary Chinese texts from the entire literary legacy of twentieth century China is nothing short of stunning. No other study in the field in any language is remotely comparable to the richness and density of materials and insights packed into the book.--Leo Ou-fan Lee, Professor of Chinese Literature, Harvard University This is a revolutionary book, a series of connected essays that lay bare 20th-century China's history of violence. The range and quality of investigation into literary and historical representations of pain are stunning; the material is as fresh as the scholarly ends to which it contributes. An absolute must read.--Howard Goldblatt, co-editor of The Columbia Anthology of Modern Chinese Literature David Wang is in his element. In this monumental work on the mutual implication of Chinese modernity and the representation of violence, Wang is at once historical, critical, and mythopoetic. The haunting metaphor of tauwu as monster and history gives this book both a theoretical backbone and a contemplative richness that goes beyond the genre of literary criticism. It is a masterpiece of the finest caliber.--Jing Wang, S.C. Fang Professor of Chinese Cultural Studies, Massachusetts Institute of Technology
