Richard Corben

Flicker Theodore Roszak,2005-04-01 From the golden age of art movies and underground cinema to X-rated porn, splatter films, and midnight movies, this breathtaking thriller is a tour de force of cinematic fact and fantasy, full of metaphysical mysteries that will haunt the dreams of every moviegoer. Jonathan Gates could not have anticipated that his student studies would lead him to uncover the secret history of the movies—a tale of intrigue, deception, and death that stretches back to the 14th century. But he succumbs to what will be a lifelong obsession with the mysterious Max Castle, a nearly forgotten genius of the silent screen who later became the greatest director of horror films, only to vanish in the 1940s, at the height of his talent. Now, 20 years later, as Jonathan seeks the truth behind Castle's disappearance, the innocent entertainments of his youth—the sexy sirens, the screwball comedies, the high romance—take on a sinister appearance. His tortured quest takes him from Hollywood's Poverty Row into the shadowy lore of ancient religious heresies. He encounters a cast of exotic characters, including Orson Welles and John Huston, who teach him that there's more to film than meets the eye, and journeys through the dark side of nostalgia, where the Three Stooges and Shirley Temple join company with an alien god whose purposes are anything but entertainment.

Flicker Jeanette Prather,2009-10 The world is like a twilight zone for the brain; we all thrive within our own planes and write our own stories. We need to constantly shed our own sparkling histories in order to welcome momentary and fleeting infinite possibilities with open arms, because it's in these moments where the beauty in love and life lie. Now go live ...

In a Flicker George R. Lopez,Andrea Perron,2017-05-04 A college professor's life of routine is interrupted when a friend and colleague offers to introduce him to a new and amazing scientific discovery.

A Flicker in Time Marcia Riepe, Edward Riepe, 2019-04-06

There are two assets that are counted after you make your run in life. Money and time. What matters is how you spent both in the end. Use your time wisely. It can last forever.

In a Flicker George R Lopez, Andrea Perron, 2015-10-14 Dr.

Ethan LaPierre was content in his tenure as a professor at the prestigious Oxford University, spending his days in the classroom, his leisure time with his dearest friend, Dr. Colin Bishop. An accomplished intellectual rooted in academia, Ethan had no greater aspirations and no intention of altering his current trajectory in life until an astounding discovery in the field of science captured his attention and imagination, grabbing him by the throat. His friend and longtime colleague, Dr. Anson Van Ruden would introduce Ethan to this conceptual project of limitless potential while still in its infancy. Although intrigued, he'd initially rejected the offer to join Anson's team, opting instead for the simpler life as a professor of history and philosophy, not believing an opportunity presented him would ever come to fruition. It was not until the moment a program shrouded in secrecy for years finally went public and took center stage that Ethan took notice, reconnecting with Anson and the project. Ultimately, by surrendering to his innate curiosity, wondering what it could mean for him, for humanity and for history, Ethan took a decided leap of faith. What followed is an extraordinary tale of the human spirit and mind, a divine and hellacious roller coaster ride inside a tornado of emotions and experiences that will leave the main character and the reader breathless. In *A Flicker* delves into the deepest, darkest fears of any mortal soul, what one fears of them self and likewise, the ones they love. Those who dare to jump into the chasm will emerge haunted by the ghosts who have been there all along.

Rez Dogs Joseph Bruchac, 2022-06-07 Renowned author Joseph Bruchac tells a powerful story of a girl who learns more about her Penacook heritage while sheltering in place with her grandparents during the coronavirus pandemic. Malian loves spending time with her grandparents at their home on a Wabanaki reservation—she's there for a visit when, suddenly, all travel shuts down. There's a new virus making people sick, and Malian will have to stay with her grandparents for the duration. Everyone is worried about the pandemic, but Malian knows how to keep her family safe: She protects her grandparents, and they protect her. She doesn't go out to play with friends, she helps her grandparents use video chat, and she listens to and learns from their stories. And when Malsum, one of the dogs living on the rez, shows up at their door, Malian's family knows that he'll protect them too. Told in verse inspired by oral storytelling, this novel about the COVID-19 pandemic highlights the ways in which Indigenous nations and communities cared for one another through plagues of the past, and how they keep caring for one another today. **Four starred reviews!** Boston Globe-Horn Book Fiction & Poetry Honor NPR Books We Love Kirkus Reviews Best Books School Library Journal Best Books Chicago Public Library Best Fiction for Younger Readers Jane Addams Children's Book Award Finalist Nerdy Book Club Award—Best Poetry and Novels in Verse
