Financial Cryptography and Data Security Roger Dingledine,Philippe Golle,2009-07-21 This volume contains the proceedings of the 13th International Conference on Financial Cryptography and Data Security, held at the Accra Beach Hotel and Resort, Barbados, February 23–26, 2009. Financial Cryptography and Data Security (FC) is a well-established international forum for research, advanced development, education, exploration and debate regarding information assurance in the context of finance and commerce. The conference covers all aspects of securing transactions and systems. The goal of FC is to bring security and cryptography researchers and practitioners together with economists, bankers, and policy makers. This year, we assembled a vibrant program featuring 21 peer-reviewed research paper presentations, two panels (on the economics of information security and on authentication), and a keynote address by David Dagon. Despite a proliferation of security and cryptography venues, FC continues to receive a large number of high-quality submissions. This year, we received 91 submissions(75full-lengthpapers,15shortpapersand1panel).Eachsubmission was reviewed by at least three reviewers. Following a rigorous selection, ranking and discussion process, the Program Committee accepted 20 full-length papers, 1 short paper and 1 panel. The overall acceptance rate was 24%.

Meningitis MD Tara J Myers,2012-04-01 Although Dr. Allyson Brittmore is a well-trained emergency room physician, nothing has prepared her for the mysterious chain of events following the death of a teenager from the highly contagious disease of meningitis. In the medical thriller *Meningitis*, Allyson is the newest physician on staff at Houston's Memorial Hospital. She becomes the target of a peer review committee when it investigates the deadly spread of meningitis within the hospital staff. The facts in each death, Allyson's close observations, and her involvement in each case provide hospital administrators with all the evidence needed to bar Dr. Brittmore from treating any more patients with meningitis. seems to always be in the wrong place at the right time, and gets involved in diagnosing another case. She finds herself in the middle of a cover up, when she suspects a connection between TB skin tests and the cause of the epidemic. When the news media discovers the meningitis epidemic at the hospital, Allyson finds an unlikely ally in Helen Mayes, a pushy reporter and former RN. Mayes convinces Dr. Brittmore to share her suspicions with Homicide Detective Joe Mullins, and surrender a bottle of TB fluid as evidence. Allyson continues to ask too many questions, as she works through the maze of possible suspects connected to the hospital's research. Who will be the next victim in this supposed place of healing?

Sirens Simon Messingham,2017-04-17 The authorities called it The Moment. Without warning, without explanation, two hundred human beings on Earth simultaneously gained a new mental ability that would alter the planet forever. They called the power The Glamour and its recipients Sirens. Alien invasion? Divine intervention? Evolution? Before anyone could work it out, it was too late. Anthony Graves didn't want to be a Siren. He just wanted to be liked. Once a shy, suburban London office worker, five years on he is ruler of Europe and responsible for the deaths of millions. To fight loneliness, Anthony writes his life story. The result is *Sirens*; a black comedy of how a Nobody unwittingly became an all-powerful tyrant. *Sirens* is satire on a global scale; a cautionary tale of absolute power and its inevitable consequences. You're going to love Anthony. You'd better.

Routledge Handbook of New Media in Asia Larissa Hjorth,Olivia Khoo,2015-11-06 While a decade ago much of the discussion of new media in Asia was couched in Occidental notions of Asia as a default setting for technology in the future, today we are seeing a much more complex picture of contesting new media practices and production. As new media becomes increasingly an everyday reality for young and old across Asia through smartphones and associated devices, boundaries between art, new media, and the everyday are transformed. This Handbook addresses the historical, social, cultural, political, philosophical, artistic and economic dimensions of the region's new media. Through an interdisciplinary revision of both new media and Asia the contributors provide new insights into the complex and contesting terrains of both notions. The Routledge Handbook of New Media in Asia will be the definitive publication for readers interested in comprehending all the various aspects of new media in Asia. It provides an authoritative, up-to-date, intellectually broad, conceptually cutting-edge guide to the important aspects of new media in the region — as the first point of consultation for researchers, advanced level undergraduate and postgraduate students in fields of new media and Asian studies.

Lifestyle Media in Asia Fran Martin, Tania Lewis, 2016-05-20 Across Asia, consumer culture is increasingly shaping everyday life, with neoliberal economic and social policies increasingly adopted by governments who see their citizens as individualised, sovereign consumers with choices about their lifestyles and identities. One aspect of this development has been the emergence of new wealthy middle classes with lifestyle aspirations shaped by national, regional and global media - especially by a range of new popular lifestyle media, which includes magazines, television and mobile and social media. This book explores how far everyday conceptions and experiences of identity are being transformed by media cultures across the region. It considers a range of different media in different Asian contexts, contrasting how the shaping of lifestyles in Asia differs from similar processes in Western countries, and assessing how the new lifestyle media represents not just a new emergent media culture, but also illustrates wider cultural and social changes in the Asian region.
