High Efficiency Video Coding (HEVC) Vivienne Sze, Madhukar Budagavi, Gary J.

Sullivan, 2014-08-23 This book provides developers, engineers, researchers and students with detailed knowledge about the High Efficiency Video Coding (HEVC) standard. HEVC is the successor to the widely successful H.264/AVC video compression standard, and it provides around twice as much compression as H.264/AVC for the same level of quality. The applications for HEVC will not only cover the space of the well-known current uses and capabilities of digital video - they will also include the deployment of new services and the delivery of enhanced video quality, such as ultra-high-definition television (UHDTV) and video with higher dynamic range, wider range of representable color, and greater representation precision than what is typically found today. HEVC is the next major generation of video coding design - a flexible, reliable and robust solution that will support the next decade of video applications and ease the burden of video on world-wide network traffic. This book provides a detailed explanation of the various parts of the standard, insight into how it was developed, and in-depth discussion of algorithms and architectures for its implementation.

Terraformed Joy White, 2020-05-12 An uncompromising wake-up call. Joy White tells uncomfortable truths and blows apart our understanding of racism, crime and policing in our inner-cities. Since the 1980s, austerity, gentrification and structural racism have wreaked havoc on inner-city communities, widening inequality and entrenching poverty. In *Terraformed*, Joy White offers an insiders view of Forest Gate -- an urban neighbourhood in London -- analysing how these issues affect the black youth of today. Connecting the dots between music, politics and the built environment, it centres on the lived experiences of black youth who have had it all: huge student debt, invisible homelessness, custodial sentences, electronic tagging, surveillance, arrest, police

brutality, issues with health and well-being, and of course, loss. Part ethnography, part memoir, Terraformed uses the history of Newham, London as an example of inner-city life across the globe and considers how young black lives are affected by racism, capitalism and austerity.
