The Next Generation of Solution Focused Practice Mark McKergow, 2021-04-13 The Next Generation of Solution Focused Practice shows how practitioners help create change by 'stretching the world' of their clients. The book brings new ideas from enactive cognition which show how skilled attention on the client and their words is important both practically and conceptually. It provides both a summary of the development of Solution Focused Brief Therapy (SFBT) over time and how the latest developments form a newly coherent form of practice based on developing descriptions. The author has structured the book using simple and easy to understand metaphors to paint a rich, creative, and visual picture of therapy for the reader, which makes it an accessible read. This book will be of interest to a wide range of SF practitioners internationally, as well as to those involved in coaching, counselling, family therapy, education, social work, healthcare and organisational change.

I Live in Music Ntozake Shange, Romare Bearden, 1994 Shange's lyrical poem is a tribute to the language of music and the magical, often mystical, rhythms that connect people. Music defines who we are as individuals, the places where we live, and how we exist within our communities. Music is life. Written in a syncopated style that has its own melody, the poem is perfectly married to twenty-one extraordinary and diverse works from Romare Bearden who once said, I paint in the tradition of the blues. Here is a unique and visionary book that speaks, indeed sings, to both children and adults and is, at once, compelling, profound, and entertaining.

Nappy Edges Ntozake Shange, 1991-07-15 Fifty-five poems grouped under five headings: things i wd say, love & other highways, closets, & she bleeds, and she whispers with the unicorn.

1,000 Recordings to Hear Before You Die Tom Moon, 2008-08-28 The musical adventure of a lifetime. The most exciting book on music in years. A book of treasure, a book of discovery, a book to open your ears to new worlds of pleasure. Doing for music what Patricia Schultz—author of the phenomenal 1,000 Places to See Before You Die—does for travel, Tom Moon recommends 1,000 recordings guaranteed to give listeners the joy, the mystery, the revelation, the sheer fun of great music. This is a book both broad and deep, drawing from the diverse worlds of classical, jazz, rock, pop, blues, country, folk, musicals, hip-hop, world, opera, soundtracks, and more. It's arranged alphabetically by artist to create the kind of unexpected juxtapositions that break down genre bias and broaden listeners' horizons— it makes every listener a seeker, actively pursuing new artists and new sounds, and reconfirming the greatness of the classics. Flanking J. S. Bach and his six entries, for example, are the little-known R&B singer Baby Huey and the '80s Rastafarian hard-core punk band Bad Brains. Farther down the list: The Band, Samuel Barber, Cecelia Bartoli, Count Basie, and Afropop star Waldemer Bastos. Each entry is passionately written, with expert listening notes, fascinating anecdotes, and the occasional perfect quote—Your collection could be filled with nothing but music from Ray Charles, said Tom Waits, and you'd have a completely balanced diet. Every entry identifies key tracks, additional works by the artist, and where to go next. And in the back, indexes and playlists for different moods and occasions.
