Brad Miser

Type Roger Walton,2002 With the ever-increasing speed of global communication, trends and influences in design spread from continent to continent and from culture to culture at the click of a mouse. Ideas gain and lose momentum very rapidly; they are reshaped, filtered, or changed beyond recognition by processes of cross-fertilization that respect no national, cultural or geographical boundaries. [This book] reflects this new reality, and celebrates the work of designers from all over the world. This matchless collection of recent work features some of the most original print and online design from diverse designers, studios, and colleges, encompassing commissions for blue chip corporations as well as for institutions and the creative industries. - book jacket.
