Deep Run Roots Vivian Howard,2016-10-04 Vivian Howard, star of PBS's A Chef's Life, celebrates the flavors of North Carolina's coastal plain in more than 200 recipes and stories. This new classic of American country cooking proves that the food of Deep Run, North Carolina -- Vivian's home -- is as rich as any culinary tradition in the world. Organized by ingredient with dishes suited to every skill level, from beginners to confident cooks, Deep Run Roots features time-honored simple preparations alongside extraordinary meals from her acclaimed restaurant Chef and the Farmer. Home cooks will find photographs for every single recipe. Ten years ago, Vivian opened Chef and the Farmer and put the nearby town of Kinston on the culinary map. But in a town paralyzed by recession, she couldn't hop on every new culinary trend. Instead, she focused on rural development: If you grew it, she'd buy it. Inundated by local sweet potatoes, blueberries, shrimp, pork, and beans, Vivian learned to cook the way generations of Southerners before her had, relying on resourcefulness, creativity, and the traditional ways of preserving food. Deep Run Roots is the result of years of effort to discover the riches of Eastern North Carolina. Like The Fannie Farmer Cookbook, The Art of Simple Food, and The Taste of Country Cooking before it, this is landmark work of American food writing. Recipes include: Family favorites like Blueberry BBQ Chicken Creamed Collard-Stuffed Potatoes Fried Yams with Five-Spice Maple Bacon Candy Chicken and Rice Country-Style Pork Ribs in Red Curry-Braised Watermelon Show-stopping desserts like Warm Banana Pudding, Peaches and Cream Cake, Spreadable Cheesecake, and Pecan-Chewy Pie. You'll also find 200 more quick breakfasts, weeknight dinners, holiday centerpieces, seasonal preserves, and traditional preparations for all kinds of cooks.

The Millionaire Fastlane MJ DeMarco,2011-01-04 10TH ANNIVERSARY EDITION Is the financial plan of mediocrity -- a dream-stealing, soul-sucking dogma known as The Slowlane your plan for creating wealth? You know how it goes; it sounds a lil something like this: Go to school, get a good job, save 10% of your paycheck, buy a used car, cancel the movie channels, quit drinking expensive Starbucks mocha lattes, save and penny-pinch your life away, trust your life-savings to the stock market, and one day, when you are oh, say, 65 years old, you can retire rich. The mainstream financial gurus have sold you blindly down the river to a great financial gamble: You've been hoodwinked to believe that wealth can be created by recklessly trusting in the uncontrollable and unpredictable markets: the housing market, the stock market, and the job market. This impotent financial gamble dubiously promises wealth in a wheelchair -- sacrifice your adult life for a financial plan that reaps dividends in the twilight of life. Accept the Slowlane as your blueprint for wealth and your financial future will blow carelessly asunder on a sailboat of HOPE: HOPE you can find a job and keep it, HOPE the stock market doesn't tank, HOPE the economy rebounds, HOPE, HOPE, and HOPE. Do you really want HOPE to be the centerpiece for your family's financial plan? Drive the Slowlane road and you will find your life deteriorate into a miserable exhibition about what you cannot do, versus what you can. For those who don't want a lifetime subscription to settle-for-less and a slight chance of elderly riches, there is an alternative; an expressway to extraordinary wealth that can burn a trail to financial independence faster than any road out there. Why jobs, 401(k)s, mutual funds, and 40-years of mindless frugality will never make you rich young. Why most entrepreneurs fail and how to immediately put the odds in your favor. The real law of wealth: Leverage this and wealth has no choice but to be magnetized to you. The leading cause of poorness: Change this and you change everything. How the rich really get rich - and no, it has nothing to do with a paycheck or a 401K match. Why the guru's grand deity - compound interest - is an impotent wealth accelerator. Why the guru myth of do what you love will most likely keep you poor, not rich. And 250+ more poverty busting distinctions... Demand the Fastlane, an alternative road-to-wealth; one that actually ignites dreams and creates millionaires young, not old. Change lanes and find your explosive wealth accelerator. Hit the Fastlane, crack the code to wealth, and find out how to live rich for a lifetime.

Confessions of the Pricing Man Hermann Simon,2015-10-20 The world's foremost expert on pricing strategy shows how this mysterious process works and how to maximize value through pricing to company and customer. In all walks of life, we constantly make decisions about whether something is worth our money or our time, or try to convince others to part with their money or their time. Price is the place where value and money meet. From the global release of the latest electronic gadget to the bewildering gyrations of oil futures to markdowns at the bargain store, price is the most powerful and pervasive economic force in our day-to-day lives and one of the least understood. The recipe for successful pricing often sounds like an exotic cocktail, with equal parts psychology, economics, strategy, tools and incentives stirred up together, usually with just enough math to sour the taste. That leads managers to water down the drink with hunches and rules of thumb, or leave out the parts with which they don't feel comfortable. While this makes for a sweeter drink, it often lacks the punch to have an impact on the customer or on the business. It doesn't have to be that way, though, as Hermann Simon illustrates through dozens of stories collected over four decades in the trenches and behind the scenes. A world-renowned speaker on pricing and a trusted advisor to Fortune 500 executives, Simon's lifelong journey has taken him from rural farmers' markets, to a distinguished academic career, to a long second career as an entrepreneur and management consultant to companies large and small throughout the world. Along the way, he has learned from Nobel Prize winners and leading management gurus, and helped countless managers and executives use pricing as a way to create new markets, grow their businesses and gain a sustained competitive advantage. He also learned some tough personal lessons about value, how people perceive it, and how people profit from it. In this engaging and practical narrative, Simon leaves nothing out of the pricing cocktail, but still makes it go down smoothly and leaves you wanting to learn more and do more—as a consumer or as a business person. You will never look at pricing the same way again.
