Hormone Replacement: Therapy and Breast Cancer Risk R.D. Mann,1992-07-15 This book covers a topic of considerable current interest and presents many of the most significant research findings available to date.

Workers at the forefront of research on hormone replacement therapy and the implications for the risk of breast cancer were invited to attend a special Conference at the Royal Society of Medicine in London in September, 1991, where the latest data were presented to a distinguished audience and the implications of this research were discussed. The volume reviews various aspects of HRT and breast cancer, the physiology of the menopause, the current use of HRT in practice, osteoporosis and epidemiology and presents results from a range of European, American and Australian studies on the role of breast cancer and HRT, finishing with an overview of benefits, use and cost-effectiveness and a general summary. The book represents a definitive statement of current knowledge in this field and an informative update on the implications of recent research. It will be a valuable addition of special significance to the libraries of all those concerned with hormone replacement therapy and the study of breast cancer.

Technical specs are provided for each model. This comprehensive review covers all of BMW's bike families: The side-valve machines from the early years The early overhead-valve performance bikes The modern Airheads and Oilheads The four-cylinder and six-cylinder touring bikes The early pushrod singles The modern overhead-cam singles The latest parallel twins, and inline-four cylinder sport bikes Among them, you'll find all the classic bikes—pre-World War II BMWs like the R5 that defined performance in that era; the military R12 that carried the Wehrmacht as it blitzkrieged its way across Europe; the Earles-forked R69S that offered the perfect platform for mounting a Steib sidecar; the R90S café racer; the K1 “flying brick”; and the GS (Gelände Sport) series that launched a dual-sport revolution right up to today's world-class S100RR and retro-inspired R nine T. Like the other titles in Motorbooks' Complete Book series, this guide to BMW's motorcycle output offers the most complete reference to the subject available.

Split/Mixed Ery Nzaramba,2017-11-01 A dual language edition in English and French. The genocide in Rwanda shocked the world. Back then, Ery Nzaramba was only a teenager and his family's escape to Europe turned him into a “survivor”. How should he now respond to questions about who he is and where he comes from? In this autobiographical one-man play, performed to acclaim on the Edinburgh Festival Fringe, the author journeys back to his Rwandan childhood. With the help of a cassette player, he brings to life nearly a dozen characters, exploring memories of kinship, cultural attitudes and personal identity. Both funny and poignant, the play highlights not only the intolerance that can breed violence and war but also the importance of power and privilege in the struggle for survival. Le génocide au Rwanda a choqué le monde. À l'époque, Ery Nzaramba était un adolescent. Après que sa famille se fut échappé en Europe, il est devenu un «survivant». Désormais, que doit-il répondre à des questions sur qui il est et d'où il vient? Dans ce one-man show autobiographique, salué par la critique lors de sa présentation au Festival d'Édimbourg, l'auteur retourne vers son enfance au Rwanda. Accompagné d'un lecteur cassette, il donne vie à une bonne douzaine de personnages, explorant souvenirs de famille et d'affinités, attitudes culturelles et identité. À la fois poignante et pleine d'humour, la pièce met en lumière non seulement l'intolérance qui peut engendrer violence et guerre, mais aussi l'importance du privilège dans la lutte pour la survie. ERY NZARAMBA Ery Nzaramba left Rwanda to settle in Belgium in 1994. Ten years later he moved to the UK for an acting career. In 2014 Ery started working with director Peter Brook and long-time collaborator Marie-Hélène Estienne, featuring in world tours of Battlefield and The Suit. Ery has been awarded two Grants for the Arts by Arts Council England and an Arvon Grant for his writing. He has written and directed short films; Split/Mixed is his first piece written for theatre. He wrote the first draft in 2013 and was invited to perform it in New York, Berlin, and Belfast. The play continued to be developed and its current version premiered to critical acclaim at the Edinburgh Fringe Festival in 2016. Every time someone asks where I'm from, it's a reminder of how lucky and privileged I've been. In 1994 Rwanda was in the news for all the wrong reasons. It was being torn apart by a civil war and a genocide. Unlike millions of others who couldn't, my family escaped. Because we could. And we got all the support in the world because we were refugees. But were we, really? Would I be able to look in the eye of one of the other millions of Rwandans who couldn't leave the country and say I'm a refugee? I've lived in Europe for nearly a quarter of a century now, and though I'm no longer a refugee, that question has continued to haunt me. So I decided to write Split/Mixed. Praise for his work: Hilarious, harrowing and acutely moving...[An] essential, coruscating work –**** The Stage An extraordinary one-man play (...) Split/Mixed is deeply moving, even harrowing at times. But it is also extremely funny... –www.wordswithjam.co.uk

New Generation of Electric Vehicles Johanna Adison,2016-10-01 There is an unprecedented surge of interest in and the desire of producing gaselectric hybrid (HEVs) and all-electric vehicles (EVs) by the governments and public in the industrialized countries. This surge of interest and desire is attributed to several factors relating to the life-threatening air pollution in many parts of the world, the high petroleum price, conflicts in oil producing Middle East regions and the alarming trend of global warming due to rapid increase of greenhouse gas emissions by all sources, including those from transportation. Full electric vehicles use no gasoline; they are powered by a high-voltage electric motor and battery pack. All the elements are now in place to tackle fairly complex static rigid body problems. Battery electric vehicles do not have an internal combustion engine and use no on-board gasoline. Instead, they use a highvoltage electric motor, which gets its power from a high-voltage battery pack. The primary benefit of BEVs is that they completely eliminate carbon dioxide (CO2) and other emissions directly from the vehicle. Therefore, it is vital to raise global ecological awareness and wider public education regarding ecology. Goal of this book is to bring closer to the readers new drive technologies that are intended to environment and nature protection. New Generation of Electric Vehicles presents modern technique achievements and technologies applied in the implementation of electric vehicles. Special attention was paid to energy efficiency of electrical vehicles. Also today's trends, mathematical models and computer design elements of future cars are presented.

Communicating Process Architectures 2001 World Occam and Transputer User Group. Technical Meeting,World Occam and Transputer User Group, Technical Meeting,2001 Concurrency is an integral part of everyday life. The concept is so ingrained in our existence that we benefit from it without realizing. When faced with a taxing problem, we automatically involve others to solve it more easily. Such concurrent solutions to a complex problem may, however, not be quite straightforward and communication becomes crucial to ensure the successful solution of the problem.

Gender Ideologies and Military Labor Markets in the U.S. Saskia Stachowitsch,2013-03 Gender Ideologies and Military Labor Markets in the U.S. offers a comprehensive analysis of the relationship between changes in military gender ideologies and structural changes in U.S. military and society. By investigating how social and military change have influenced gender ideologies, the author develops an approach that (re-)connects military gender ideologies to the social conditions of their production and distribution and explains their transformation as effects of changing social and political relations and conflicts. Examining the role of different groups of social actors, media debates on women’s military participation and gender ideologies inherent in depictions of military women, the author seeks to contextualise these ideologies are within structural change in the U.S. military and society, relating them to the gender-specific division of labour on civilian and military labor markets. This work provides a deeper understanding of the nexus between military re-structuring processes, women’s military integration, and changes of gender ideologies in regard to war and the military, and will be of great interest to students and scholars of gender, security studies and American politics.
