Ford GT Preston Lerner,2015-09-10 Get the whole story on the car built to beat the world--Ford's GT. Henry Ford II, the Deuce, wanted a race car capable of winning top-flight sports car events in Europe. Specifically, he wanted to win Le Mans. Ford learned that Enzo Ferrari would consider selling his company and negotiations quickly ensued. But after Ford spent considerable time and money reviewing Ferrari's operations and negotiating with Enzo, Ferrari abruptly backed out of the talks. The Deuce took Ferrari's actions as a personal insult. Word was sent down from on high: beat Ferrari. Ford settled on UK-based Eric Broadley's Lola GT, a cutting-edge car that featured a mid-engine chassis and small-block Ford V-8 power. The Lola GT would morph into the Ford GT. Carroll Shelby helped shape it into the Mark II GT40. The result was one of the most legendary wins in racing history: Ford's 1-2-3 sweep of Le Mans in 1966. Ford GT celebrates the 50th anniversary of Ford's iconic victory, providing the detailed back story leading to that historic win, as well as the follow-up win in 1967. The GT40's last two competitive seasons in 1968 and 1969 are also covered, for a complete view of this remarkable era in racing. Author Preston Lerner details the ups and downs of Ford's GT program, accompanied by Shelby American photographer Dave Friedman's historic images. Come re-live one of the most exciting stories in all of racing history!

A Big Ask David Phillips,2016-11-15 A Big Ask is the inside story of the Ford Motor Company's return to the world's most famous sports car race - The 24 Hours of Le Mans - as told by veteran motorsports journalist David Phillips and accompanied by more than 100 color images by some of the world's leading racing photographers. Half a century ago, Ford's battles with Ferrari for supremacy at Le Mans

became the stuff of legends. Rebuffed in his bid to buy Ferrari, Henry Ford II spent untold millions to defeat the iconic Italian marque in a race it had come to dominate in the early 1960s. After two years of humiliating failure, the Ford GT40 delivered a storied 1-2-3 finish at Le Mans in 1966, the first of four straight wins for the American automaker. Ford returned to Le Mans in 2016 with a 21st century Ford GT and a bold mission: Celebrate the golden anniversary of its legendary 1-2-3 finish in 1966 with another victory. But Ford did not go it alone. Boasting a driver line-up of Le Mans Assassins, Ford partnered with powerful Chip Ganassi Racing, winners of the Indianapolis 500, 24 Hours of Daytona and Daytona 500, world-renowned Multimatic Engineering, and a host of world-class suppliers in an effort to win the 24 Hours of Le Mans. Veteran motorsports journalist David Phillips was embedded with Ford Chip Ganassi Racing throughout what proved to be an exhausting and exhilarating journey, from the development of the Ford GT and its problematic competition debut through to its first successes and, finally, triumphant performances at Le Mans and beyond. With unfettered access to all of the key players at Ford, Chip Ganassi Racing and Multimatic, he provides a detailed, insightful and compelling account of Ford Chip Ganassi Racing's audacious bid to win the 24 Hours of Le Mans that will be a welcome addition to the collection of any motorsports aficionado, automotive buff or sports fan.

Ford GT Larry Edsall, 2004 One of the most exciting new cars of 2004 is profiled in this beautiful book. The Ford GT is the modern version of the incredible GT40, a car created by Ford in the 1960s to beat the Ferraris at Le Mans--which they did! This success of the original GT40, couple with its great looks, made it one of the most popular cars in automotive racing history. Ford has revived the spirit

of the original race car with perhaps its most exciting new car in 30 years--the Ford GT. The new car has lines taken straight off the original GT40 and power supplied by a 500-hp V-8. Three Ford GTs will be built in 2003 to commemorate the 1-2-3 victory at Le Mans in 1966, and the car will see limited regular production beginning in June 2004. This book includes an in-depth analysis of how the car came to be, complete with original interviews with Ford execs and engineers as well as drawings of concept cars. Also included is a short chapter summing up the origins and race history of the GT40. Also a section discussing the concepts for GT40 revivals. Many of these cars have been revealed in publications previously.

Bullitt Matt Stone,2020-08-15 Get the behind the scenes view of arguably the most iconic automotive movie car and scene in history. Ask any automotive enthusiast what his or her favorite chase scene to appear in a movie is, and the majority will respond with *Bullitt*. It has made the top 5 in every list covering the best automotive chase scenes in history. But the appeal isn't just about the chase scene. Shot entirely on location in picturesque San Francisco in 1968, the movie not only features the historic chase scene but also many outdoor scenes filled with cars and architecture of the period that are filmed in crisp clear color. The movie was the fifth-highest-grossing film for 1968, it was well received by critics, and the chase scene won Franks P. Keller an Oscar for editing. In *Bullitt: The Cars and People Behind* Steve McQueen, you will get the complete behind the scenes picture of how all the action was coordinated and filmed. Included are the ideas behind the making of the movie, an interview with Director Peter Yates, production stills, and the planning for the scene. Also covered is the cast, the building of the cars used in the film, and the how and why the stunts were choreographed and filmed. To round out the

story, an examination of what happened to the cars is included as well as coverage of the multiple Bullitt Edition cars released by Ford after the film, including the latest 2019 edition. While several books have been published about Steve McQueen, the King of Cool, never before has there been a thorough examination of this specific film and these specific cars. This edition is a welcome addition to the library of any McQueen, Mustang, or automotive film history fan.

The Brand Innovation Manifesto John Grant, 2006-05-12 The days of the image brands are over, and 'new marketing' has gone mainstream. The world's biggest companies are pursuing a post-advertising strategy, moving away from advertising and investing in leading edge alternatives. In the vanguard of the revolution has been John Grant, co-founder of the legendary agency St. Luke's and author of *The New Marketing Manifesto*, whose radical thinking has informed a generation. Now Grant is set to stun the industry again. In *The Brand Innovation Manifesto*, he redefines the nature of brands, showing why old models and scales no longer work and revealing that the key to success today is impacting people's lifestyles (think Starbucks, iPod and eBay). At the heart of the book is the concept of the 'brand molecule' to which new cultural ideas can be constantly added to keep pace with change. Cataloguing 32 classes of idea, Grant presents a practical approach to mixing and matching them within your own market to develop new brand ideas - and new ideas for existing brands.

Motorworld Jeremy Clarkson, 2004-05-27 Jeremy Clarkson invites us to Motorworld, his take on different cultures and the cars that they drive. There are ways and means of getting about that don't involve four wheels, but in this slice of vintage Clarkson, Jeremy isn't much interested in them. Back in 1996, he took himself off to twelve countries (okay, eleven - he goes to America twice) in search of the hows, whys and wherefores of different nationalities and their relationships with cars. There were a few questions he needed answers to: * Why, for instance, is it that Italians are more interested in looking good than looking where they are going? * Why do Indians crash a lot? * How can an Arab describe himself as 'not a rich man' with four of the world's most expensive cars in his drive? * And why have the otherwise neutral Swiss declared war on the car? From Cuba to Iceland, Australia to Vietnam, Japan to Texas, Jeremy Clarkson tells us of his adventures on and off four wheels as he seeks to discover just what it is that makes our motorworld tick over.

Really? Jeremy Clarkson,2019-10-03 JEREMY CLARKSON'S LATEST - AND MOST OUTRAGEOUS - TAKE ON THE WORLD CLARKSON'S BACK - AND THIS TIME HE'S PUTTING HIS FOOT DOWN From his first job as a travelling sales rep selling Paddington Bears to his latest wheeze as a gentleman farmer, Jeremy Clarkson's love of cars has just about kept him out of trouble. But in a persistently infuriating world, sometimes you have to race full-throttle at the speed-bumps. Because there's still plenty to get cross about, including:

- Why nothing good ever came out of a meeting
- Muesli's unmentionable side effects
- Navigating London when every single road is being dug up at once
- People who read online reviews of dishwashers
- ****ing driverless cars
