Strap! Forex Automated Trading Software Can Make You Millions! Jasuli Suliadi,2019-08-14 This book aims to debunk beliefs that Forex Robot (EAs for short) is a myth and that there is no software out there that can trade Forex automatically totally without human supervision. From a simple EA to a compound EA to a multi-time frame compound EA I aim to prove the skeptics wrong by showing how in nine years I had developed one of the most accurate EAs you can find in the market where profit/loss win ratio is concerned. My findings in this book could save you years if you're a budding EA developer. I will show you how I make a simple MacD EA, how I combine EAs and how I use higher time frames and time factors to improve their performances. I came across truths in of Law of Large Numbers (rigorous testing), Law of Diminishing Returns (using too much filters), Fibonacci Sequence (the larger Cycle is interdependent on the smaller Cycles) and many more learning experiences as an EA developer. If you work in the Trading Department of a bank this book is proof that not all Algorithms exist in High Speed. With the COMP EAs all losses are paper losses ...

Forex Trading Money Management System Don Guy,2017-01-17 I'm going to show you how to CRUSH financial markets using a simple Money Management System that reduces your risk while maximizing profits! While this system may focus on FOREX trading and the casino game Roulette, it can be applied to trading ANY financial market, including stocks, commodities, and binary options. I was inspired to develop this system after a horrible night in Las Vegas where I lost \$2000 playing Roulette with a betting system that I thought was unbeatable. I spent the following 12 years reverse engineering everything that went wrong that dreadful night and developed what I discovered into a simple and powerful Money Management system that makes it easy for anyone to CRUSH financial markets like a professional gambler! After developing this system, I returned to Las Vegas and turned \$20 into \$500 in about 1 hour at the roulette table, and that was down from a high of \$750. The \$500 profit that I walked away with was locked in from the profit-locking mechanism, like a gear that spins freely in one direction but quickly locks in the opposite direction. In January 2015, I had this system programmed into an MT4 Forex Trading Robot so I could automate the entire system (signals, trade execution, and money management). After a few weeks of little activity, the market sprang to life and so did my system! My account doubled in about 48 hours and that's when I knew I had developed something very special. But my trading robots are NOT required to use this system. It can be applied manually to virtually ANY trading system in ANY market and even on casino games like Roulette, although you will get much better results in financial markets where you can have far better statistics than a casino game. So come join me and I'll open a whole new dimension of trading and opportunities for BIG PROFITS that you have never noticed before!
