📖 **ADMINISTRATIVE ART WITH BEAR AND BULL IN FOREX - BASIC LEVEL** SELIM 📖 NVER,2020-05-22 This book helps individual investors to learn how to trade EXCHANGE and reading graphics well. In this book series that I prepared, the training set that will be a profitable investor for education will guide the investors and you can safely enter the transaction. I realized how difficult it was for new investors to find correct information, but it was more difficult to find any training that could be applied to our own trade. It is impossible to come across a clean and tidy option to Forex and Binary Options right on the Internet. The extent to which the information you can find reflects the truth is uncertain. It only included a few resources on Forex - everything was messy. There was no place for Forex currency for new provisions. We were left to learn information such as MACD, trade psychology on another website, and risk management on a 10. website. Forex is one of the newest people who have heard about the Forex Exchange trade, but it is meant to be heard more in these trading years but not fully described in the market. For more than 10 years, I have prepared this training series for you with millions of knowledge to learn skills in your transactions in order to grow Open Market Dynamics by protecting our capital with the knowledge and experience I gained by reading a lots training article on how to trade in the Forex Exchange Market. Everything is here to ensure the coordination between the trading strategies, market analysis and the psychology triangle in the educational series that is now included in this course content. You can have super trader abilities or market magic. You will not hear mythological claims to earn a quadrillion dollars a day, I explained how you can steadily increase your investment. You will be able to perform it in the future according to the trading plans you make. This book is a reliable and neat source for you traders who are all the money in the Forex market from their bad trading decisions or innocents of the retail Forex industry. Always considering the first trade rule: The First Rule of Trade: Don't Explode. Live to trade another day ..
