LOUNGE,2020-09-26 Finance Psychology: How To Begin Thinking Like A Professional Trader (This Workbook About Behavioral Finance Is All You Need To Be Successful In Trading). Trading on the stock exchanges seems to be very easy for many financial players, especially at the beginning. They are convinced that it only requires a good entry signal to be successful on the markets in the long run. The longer they trade, the more the participants understand that it is not the entry signals that decide on victory or defeat in this business! It is still the case that most traders lose money. Only a few of them manage to make permanent profits from the markets, or even earn their living by trading. The reason for this is not that the traders choose bad entrances. The reason that most traders lose money is their psyche. Trading is mainly characterized by emotions and 90-100% psychology. Who is a winner or loser in trading is determined by the mental strength of the trader. Only those who actively work on their personality, mental strengths and belief patterns will be successful in trading. It is up to each individual to use the powers of his psyche for or against his success. This Workbook about Behavioral Finance is all you need to be Successful in Trading (Money Management Trading Guide).

Forex Trading with the Set it and Forget it Method J. Thune, 2017-09-19 New futures traders also spend waaaaay too much time on looking for the magical combination of indicators, settings and colors they think will show them something that is going to help them make more money. There are no shortcuts or bells that go ding to tell you to enter the right position so stop looking right now and if you are using something like that and you're losing money perhaps that is why. All you need to see is right in front of you on the price chart which is price and time. Those are the only things that professionals care about and nothing else. You can certainly use your chart like a crystal ball to tell you where price will go with a high degree of certainty and *Forex Trading with the Set it and Forget it Method* tells you how. *Forex Trading with the Set it and Forget it Method* describes a method of trading that is used by all professionals in the financial market who are money makers. It is really nothing special and is the way the markets have worked since the

beginning of time when there were markets and trading. Doesn't it make complete sense to you to learn a method of trading that the actual price of the market you want to work in is based on? To me it's a no brainer however most brand new traders make it very hard on themselves and their accounts in the beginning by learning all the wrong information from day one. When you are done reading *Forex Trading with the Set it and Forget it Method* you will have an excellent basic explanation of what and what not to do before you even study anything or do any kind of formal education. The information in *Forex Trading with the Set it and Forget it Method* will put you on the fast track to becoming a successful self-directed financial market investor and trader with very little money invested. It will take you awhile to get your head around this set it and forget it mindset however once you do and you have learned the proper money management and other skills you need to be a successful consistently profitable trader you will never want to do it any other way trust me, you can take that to the bank!

X,2012-08-27 If you are already making thousands of dollars trading Forex and make a full time extravagant living taking a couple of trades a month, then, please skip this book and go find something else to do. So, on the other side... do you live in a self denial chasing the next best system? STOP... Face it, think about it, what would you think if you were on the other side looking through the eyes of your family and friends. All you see is a loser, getting ups and downs totally controlled by the next guru they read about. Doode, this gota stop! Trust me, I know you feel the pain. I can kind of still remember it...kind of hard to do when I am sitting on my yacht in the Caribbean sipping from something that comes with umbrella on top. See, it didn't use to be that way, not too long, couple of years ago... but I will tell you about that later in my letter Ha! Forex trading is not all it is cracked up to be, it is a hard game controlled by robots and banks and foreign sovereign institutions. Keep reading

if you know where I am coming from... The pain in the community is too great, yeah in Forex community all these self called gurus, deception and lies, all the broken promises, I feel the pain. Things didn't used to be all pink for me either, pain, loss, closed one losing account, opened second one, heard of such and such broker giving a certain deal on lots opened another account, lost all the money, started in the mini, macro, regular lots... Does that sound familiar, try to look from the outside, Forex is for crazy people, crazy winners or crazy losers. Now, if this is your first contact with Forex, I am really sorry you had to hear this small talk. I would rather be the nice guy, rather be the good news bearer, but please, don't kill the messenger, this is the bloody truth in Forex. You may be mad at me at this moment, but soon will come the moment you will thank me . Or you would rather stumble on a nice guru telling you all the lies, and how he can help you open a 10k account with a secret advantage. Or worse... He can even offer to manage your 10k, if you so willingly send him a check for the whole amount. I am not even going to go in further details about all my trials and tribulations, but... take heart Trader X is here. See I don't really need the 10 bucks, but I am making sure you appreciate the value you are getting. I have made my share trading the market, paid for all the yachts cars and toys and the farm, now it's your turn. I am sick and tired of the pain in the community and all the retail traders like yourself slaughtered by the hefty brokers. It is time to pay back, it is time for me to give back and to make sure the small trader has evened the playing field no more secrets and golden grails uncovered. All the knowledge I am presenting in this book, comes from the school of hard knock, expensive paid Forex forums, where real traders hang out, not bothered by the rookies. Things I overheard on the golf course? Tell me about that, one of the guys I used to

golf with executed only one trade a month, we used to call him the ONE TRADE GUY... How ridiculous that is? Hanging around, playing golf all month until a certain currency goes to a such and such monthly level, and pull the trigger to wipe out all the people with red eyes staring at the screens day and night, fighting with their spouses, wasting their lives in front of the broker platforms. I know what you are thinking...this guy is full of it! Well, I am fed up with the usual story that hits every newbie trader like you and I don't want you to have anything to do with it. So, I am giving you a choice: take this book read it, study and devour every single strategy, because is real, out of the trenches uncompromised, winning truth coming from a real trader. Take the leap of faith, you are a couple mouse clicks away from finding the real freedom and trading like a pro. Take the click of faith! See you on the other side!

I'm Bradley Gilbert, and I worked on the front line for eighteen years at some of the biggest investment banks in the world-and I made over \$70 million in that time. Do I have your attention yet? So, if you really want to make money trading FX, follow me! This book has been written to give you, the retail trader, a real and practical guide to trading the forex markets. Based on my own personal experiences, incorporating the same skills and strategies used by commercial interbank traders and hedge funds, I can help you up your game in the markets. Believe me, running with the big

dogs is a lot more fun and a lot more rewarding than running against them-and understanding this is a key part to your future success. Once you have completed the book, you'll feel more like you're a part of the market instead of a random speculator. Seeing the market through a new set of eyes will help you to take advantage of the many opportunities the market presents day after day, week after week. Good luck and happy trading!
