Beat the Forex Dealer Agustin Silvani,2009-08-07 The foreign-exchange market is often referred to as the Slaughterhouse where novice traders go to get 'chopped up'. It is one of egos and money, where millions of dollars are won and lost every day and phones are routinely thrown across hectic trading desks. This palpable excitement has led to the explosion of the retail FX market, which has unfortunately spawned a new breed of authors and gurus more than happy to provide misleading and often downright fraudulent information by promising traders riches while making forex trading 'easy'. Well I'll let you in on a little secret: there is nothing easy about trading currencies. If you don't believe me then stop by Warren Buffet's office and ask him how he could lose \$850m betting on the dollar or ask George Soros why his short yen bets cost him \$600m not once but twice in 1994. What's wrong with these guys, don't they read FX books? In reality, the average client's trading approach combined with the unscrupulous practices of some brokers make spot FX trading more akin to the games found on the Vegas strip than to anything seen on Wall St. The FX market is littered with the remains of day traders and genius 'systems,' and to survive in the long-run traders have to realize that they are playing a game where the cards are clearly stacked against them. Have you ever had your stop hit at a price that turned out to be the low/high for the day? Bad luck perhaps? Maybe. What if it happens more than once? Do you ever feel like the market is out to get you? Well guess what, in this Zero Sum game it absolutely is. Covering the day-to-day mechanics of the FX market and the unsavoury dealings going on, Beat the Forex Dealer offers traders the market-proven trading techniques needed to side-step dealer traps and develop winning trading methods. Learn from an industry insider the truth behind dirty dealer practices including: stop-hunting, price shading, trading against clients and 'no dealing desk' realities. Detailing the dealer-inspired trading techniques developed by MIGFX Inc, consistently ranked among the world's leading currency trading firms, the book helps turn average traders into winning traders; and in a market with a 90% loss rate winning traders are in fact quite rare! More than just a simple manual, Beat the Forex Dealer brings to life the excitement of the FX market by delivering insights into some of the greatest trading triumphs and highlighting legendary disasters; all written in an easy to read style. Make no mistake about it there is a lot of money to be made in currency trading, you just have to know where to look. Sidestepping simple dealer traps is one way of improving your daily p&l, but it is surely not the only one. Successful trading comes down to taking care of the details, which means skipping the theoretical stuff and providing only up-to-date, real-life examples while sharing the FX trading tips that have proved so profitable over the years. By stripping away the theory and getting down to the core of trading, you too will find yourself on the way to beating the forex dealer!

So, on the other side... do you live in a self denial chasing the next best system? STOP... Face it, think about it, what would you think if you were on the other side looking through the eyes of your family and friends. All you see is a loser, getting ups and downs totally controlled by the next guru they read about. Doode, this gota stop! Trust me, I know you feel the pain. I can kind of still remember it...kind of hard to do when I am sitting on my yacht in the Caribbean sipping from something that comes with umbrella on top. See, it didn't use to be that way, not too long, couple of years ago... but I will tell you about that later in my letter Ha! Forex trading is not all it is cracked up to be, it is a hard game controlled by robots and banks and foreign sovereign institutions. Keep reading if you know where I am coming from... The pain in the community is to great, yeah in Forex community all these self called gurus, deception and lies, all the broken promises, I feel the pain. Things didn't used to be all pink for me either, pain, loss, closed one losing account, opened second one, heard of such and such broker giving a certain deal on lots opened another account, lost all the money, started in the mini, macro, regular lots... Does that sound familiar, try to look from the outside, Forex is for crazy people, crazy winners or crazy losers. Now, if this is your first contact with Forex, I am really sorry you had to hear this small talk. I would rather be the nice guy, rather be the good news bearer, but please, don't kill the messenger, this is the bloody truth in Forex. You may be mad at me at this moment, but soon will come the moment you will thank me . Or you would rather stumble on a nice guru telling you all the lies, and how he can help you open a 10k account with a secret advantage. Or worse... He can even offer to manage your 10k, if you so willingly send him a check for the whole amount. I am not even going to go in further details about all my trials and tribulations, but... take hart Trader X is here. See I don't really need the 10 bucks, but I am making sure you appreciate the value you are getting. I have made my share trading the market, paid for all the yachts cars and toys and the farm, now it's your turn. I am sick and tired of the pain in the community and all the retail traders like yourself slaughtered by the hefty brokers. It is time to pay back, it is time for me to give back and to make sure the small trader has evened the plates no more secrets and golden grails uncovered. All the knowledge I am presenting in this book, comes from the school of hard knock, expensive paid Forex forums, where real traders hang out, not bothered by the rookies. Things I overheard on the golf course? Tell me about that, one of the guys I used to golf with executed only one trade a month, we used to call him the ONE TRADE GUY... How ridiculous that is? Hanging around, playing golf all month until a certain currency goes to a such and such monthly level, and pull the trigger to wipe out all the people with red eyes staring at the screens day and night, fighting with their spouses, wasting their lives in front of the broker platforms. I know what you are thinking...this guy is full of it! Well, I am fed up with the usual story that hits every newbie trader like you and I don't want you to have anything to do with it. So, I am giving you a choice: take this book read it, study and devour every single strategy, because is real, out of the trenches uncompromised, winning truth coming from a real trader. Take the leap of faith, you are a couple mouse clicks away from finding the real freedom and trading like a pro. Take the click of faith! See you on the other side!

Make It Move It Forex Trading Giovanni Fleury,2019-12-31 This book is in black and white, you can purchase the one in color here <https://www.amazon.com/dp/B083XVGWBP>. This is an intermediate & advanced trader's handbook to help you with the art of making money in Forex trading. I will show you how to use Reversal Time Patterns (RTP) to find the best entry and exit points. This method can be applied to any market besides currencies such as stock and commodities. I also want to get you to understand the need to have more than one account to trade and the need to move profits immediately. You will learn the importance of Profit Management, moving money out of your trading account as often as possible, Make It Move It! You should learn the basics of Foreign Exchange trading before you read this book if you don't already have experience trading Forex. You should also learn how to use the MT4 or MT5 trading platform and Ensign Windows. The most important parts of my strategy that you will learn are how to make and move profits constantly. That's why I call it the Make It Move It strategy. The strategies I recommend are to help you make money and help you keep most of your profits instead of losing them right back to the market. Most traders like to gamble with the market because it's fun, but if you want to make some real money and keep it then you need a good Trading & Profit Management strategy. This is a very risky market, you can and will lose some or all of your money in your trading account, that's why I am teaching you to move profits when you make it. I learned that moving profits constantly is the best way to do well in this high-risk market. Because of the high leverage in Forex, you can make 10% or more in one trade. Most people who trade stocks would be happy with 10% per year but Forex traders are a different breed of people with greater expectations. We are always looking for the best strategy or system to make a lot of good trades. Well, I've got something for you: It's the Reversal Time Pattern (RTP) trading system and strategy. This RTP strategy will make you a monster trader. You will spot easy trading opportunities based on time patterns for big profits. Spend more time sleeping and less time trading, be more productive, be a Market Time Master. I will also show you correlated instruments that can give you confirmation about the direction that you want to trade a currency. That way you will not be confused as to why a currency is going in a certain direction at that time. You do not need to use a lot of money to trade Forex. You can start with as little as \$10 or \$100. You can build it up with consistently good trades. I will also show you how to find trades to make 100% or more in one currency with position compounding using your first trades' profits to make other trades while using trailing stops to protect your profits. I talk about leverage of over 50 times your money; Leverage of over 50 times is not available by any broker in the United States of America. You can find leverage of 100:1(one hundred to 1), 200:1 or more outside of the U.S. High leverage allows you to make big trades with small amounts of money. However, you must be careful how you trade because that leverage can also cause you to lose a lot of money if you don't use it properly. You have to be able to time your trades a lot better if you want to make money. So, that's the purpose of this advanced trading handbook and strategy.
